In *Thirty Years of Big Game Hunting*, Roderick M. Moore chronicles his big game hunting adventures. The stories cover the period from the fall of 1942, when he was a fourteen year-old freshman in high school, through the fall of 1972. During those thirty years, he shot thirty-one white-tail deer in Maine, and including a walrus, a whale, fourteen moose, twenty nine caribou, and a polar bear in Alaska. A compilation spanning three decades, *Thirty Years of Big Game Hunting* serves as a legacy for Moore's family and seeks to help other hunters in their future endeavors.

In *Light of the World: A Beginner's Guide to Advent*, author, professor, and biblical scholar Amy-Jill Levine explores the biblical texts surrounding the story of the birth of Jesus. Join her as she traces the Christmas narrative through the stories of Zechariah and Elizabeth, Mary, the journey to

Bethlehem, and the visit from the Magi. These stories open conversations around connections of the Gospel stories to the Old Testament, the role of women in first-century Jewish culture, the importance of Mary's visitation and the revolutionary implications of Mary's Magnificat, the census and the stable, and the star of Bethlehem and the flight to Egypt. The book provides a rich and challenging learning experience for small groups and individual readers alike. As part of a larger four-week study that is perfect for Advent, it includes a DVD and a comprehensive leader guide.

The Last Surviving Dinosaur: The TyrantoCrankaTsuris introduced the kid readers to the tiniest, most dangerous dinosaur on the planet: The TyrantoCrankaTsuris. All humans descended from this tiny dinosaur-and this follow-up book for adults examines how "crankiness" is part of our nature. Using good humor throughout, Steven Joseph observes that we typically do not hesitate to pour out our CrankaTsuris all over our spouses, kids, parents, and siblings-and then there can be a CrankaTsuris retaliation. Before you know it, you are in the middle of a CrankaTsuris food fight. We're all cranky at times, but it's imperative we find a more effective way to be cranky while still making the world a happier place. In this book, learn how to: - Create space for both yours and your family's crankiness - Utilize a fun "team" approach to crankiness - Take steps to avoid being too cranky - Improve communication with friends and family - Handle cranky dinosaurs in your life (including children) - Effectively diagnose and treat the "Common CrankaTsuris" When it comes to crankiness, the infection rate in a given room is likely close to 100 percent. When trying to manage that crankiness-as well as your own-the ultimate answer will always be love.

This inspiring and educational book presents examples of LGBTQ+ activism throughout Wisconsin's history for young people to explore and discuss. Drawing from a rich collection of primary sources—including diary entries, love letters, zines, advertisements, oral histories, and more—the book provides a jumping-off point for readers who are interested in learning more about LGBTQ+ history and activism, as well as for readers who want to build on the work of earlier activists. We Will

Always Be Here shines a light on powerful and often untold stories from Wisconsin's history, featuring individuals across a wide spectrum of identities and from all corners of the state. The LGBTQ+ people, allies, and activists in this guide changed the world by taking steps that young people can take today—by educating themselves, telling their own stories, being true to themselves, building communities, and getting active. The aim of this celebratory book is not only to engage young people in Wisconsin's LGBTQ+ history, but also to empower them to make positive change in the world.

The 40 Days Through the Book series has been designed to help believers more actively engage with God's Word. Each study encourages participants to read through one book in the New Testament at least once during the course of 40 days (approximately 6 weeks of meetings) and will provide them with (1) a clear understanding of the background and culture in which the book was written, (2) insights into key passages of Scripture, and (3) clear applications and takeaways from the particular book that participants can apply to their lives. Each study will be recorded in the author's place of residence and will highlight stories and applications that are relevant to his or her ministry in that area. In 40 Days through the Book: Romans Study Guide (DVD/digital downloads sold separately), bestselling author and pastor Max Lucado guides small-group members through Paul's letter to the believers in the city of Rome, revealing what the apostle's words meant to his original readers . . . and how they apply to us today. Participants will be encouraged as they listen to Max's teachings and, through the accompanying study guide, challenged to read the book of Romans on their own during the forty days they spend together in the study. Designed for use with the 40 Days

Through the Book: Romans Video Study (sold separately).

This Reference Guide takes the form of a Fountainhead Encyclopedia with several independent sections: a complete character dictionary; a dictionary of relationships between characters; a lexicon of the book's buildings and media outlets; a catalogue of the novel's various groups and associations; a timeline of the book's events; a classification of Ayn Rand's symbols; and a directory of the Fountainhead's locations. Besides organizing most of the Fountainhead's facts logically, this Reference Guide also provides a table of Ayn Rand's fiction & nonfiction, a spreadsheet of works by Objectivist Intellectuals, and a glossary of architectural terms. It also analyzes some of the book's themes with reference to plot-specifics. So that Fountainhead scholars can cite neutral book facts to support their intellectual - hopefully objectivist - positions.

Magnesium stearate (MgSt) is widely used in cosmetic, food, and pharmaceutical formulations as lubricant in capsule and tablet manufacture at concentrations between 0.25% and 5%. A recent review of the top two hundred prescription drugs showed over 50% contained magnesium stearate. This book covered a broad spectrum of concentration from 1% to 10% for the purpose of presenting their unique properties during powder rheology, tableting, and effect on drug dissolution. MgSt also has both scientific and economic significance, given its wide application in global pharmaceutical manufacturing. An understanding of polymorphism (or pseudopolymorphism) in magnesium stearate and the impact on tablet lubrication process and drug dissolution would provide a valuable tool to pharmaceutical scientists during excipient selection process for new product development and even during reformulation of existing products. Preformulation scientists spend a great deal of time reviewing excipients for new product development both in silico and on the bench. As a result, accurate selection of excipients, such as lubricants, could avoid potential issues with clinical batches, product scale-up, and product transfer during commercialization.

Have you ever wanted to lash out at someone but lacked the appropriate putdown? The Machiavellian's Guide to Insults takes a humorous approach to dealing with such annoying personalities as the drama queen, the wealth flaunter, the self-proclaimed brain, the temperamental twit, and the talkaholic. Recommended insults range from the subtle and seemingly unintended to the outright declaration of war. Both have a place in your arsenal. Had Machiavelli written a book on insults, this is the book he would have written. He would have suggested calmly wounding your enemy with a tailor made barb without coming across as if you've been wounded yourself. Often the best putdown is a comment which seems on the surface to be well intentioned. And ham-handed attempts to relate or sympathize can be the most effective ways of underlining your opponent's weaknesses. These are far more humiliating than any angry outburst could ever be. Learn how to eviscerate the proud homeowner, the would-be tough guy, the bully, the boastful parent, the second guesser, and many others. Machiavelli would also have suggested having these insults ready beforehand, since, despite the old cliché, revenge tastes best when it is a dish served piping hot.
