KELLEY KERR

European Union Human Rights Law Kluwer Law International B.V. Roman law forms a vital part of the intellectual background of many legal systems currently in force in Continental Europe, Latin America, East Asia and other parts of the world. Knowledge of Roman law, therefore, constitutes an essential component of a sound legal education as well as the education of the student of history. This book begins with a historical introduction, which traces the evolution of Roman law from the earliest period of Roman history up to and including Justinian's codification in the sixth century AD. Then follows an exposition of the principal institutions of Roman private law: the body of rules and principles relating to individuals in Roman society and regulating their personal and proprietary relationships. In this part of the book special attention is given to the Roman law of things, which forged the foundations for much of the modern law of property and obligations in European legal systems. Combining a law specialist's informed perspective with a historical and cultural focus, the book provides an accessible source of reference for students and researchers in many diverse fields of legal and historical learning.

Essential Texts on International and European Criminal Law Edward Elgar Publishing

Students new to the study of EU law can find knowing what questions to ask to be as much of a challenge as answering them. This book clearly sets the scene: it explores the history and institutions of the EU, examines the interplay of its main bodies in its legislative process and illustrates the role played by the EU Courts and the importance of fundamental rights. The student is also introduced to the key principles of the internal market, in particular the free movement of goods and the free movement of workers. In addition a number of other EU policies, such as the Common Agricultural Policy, Environmental Protection and Social Policy are outlined, while a more detailed inquiry is made into European competition law. This book is an essential first port-of-call for all students of European law.

Text and Materials Springer

Parties to cross-border disputes arising anywhere in the vast

Portuguese-speaking world – a community of more than 230 million in a space that offers a wide array of investment opportunities across four continents – increasingly seek Portugal as their preferred seat of arbitration. A signatory to all relevant international conventions, Portugal has proven to be an ‘arbitration-friendly’ jurisdiction. This volume is the first and so far only book in English that provides a thorough, in-depth analysis of international arbitration law and practice in Portugal. Its contributing authors are among the most highly regarded legal names in the country, including scholars, arbitrators, and practitioners. The authors describe how international arbitration proceedings are conducted in Portugal, what cautions should be taken, and what procedural strategies may be suitable in particular cases. They provide insightful answers to questions such as the following: What matters can be submitted to arbitration under Portuguese law? What are the validity requirements for an arbitration agreement? How do the State courts interact with arbitration proceedings and what is the attitude of such courts toward international arbitration? What are the rules governing evidentiary matters in arbitration? How is an arbitration tribunal constituted? How are arbitrators appointed? How may they be challenged? How can an international arbitral award be recognized and enforced? How does the Portuguese legal system address the issue of damages and what specific damages are admitted? How are the costs of arbitration proceedings estimated and allocated? The book includes analyses of arbitration related to specific fields of the law, notably sports, administrative, tax, intellectual property rights (especially regarding reference and generic medicines), and corporate disputes. Each chapter provides, for the topics it addresses, an examination of the applicable laws, rules, arbitration practice, and views taken by arbitral tribunals and state courts as well as those of the most highly considered scholars. As a detailed examination of the legal framework and of all procedural steps of an arbitration in Portugal, from the drafting of an arbitration agreement to the enforcement of an award, this book constitutes an invaluable resource for parties involved in or considering an international arbitration in this country. The guidance that it seeks to provide in respect of any problem likely to arise in this context can be useful to arbitrators, judges, academics, and interested lawyers.

Text and Materials Bloomsbury Publishing

Brought fully up to date in light of the Treaty of Amsterdam, this authoritative analysis gives the essential background to an understanding of the operation of the European Union. Written by two leading experts in the field, this edition thoroughly examines the legal structure of the EU, and includes a new chapter on consumer and environmental policy. It will be of immense value to practising lawyers who need to understand the EU, and anyone studying politics, European studies, economics or modern history. **European Law Essentials Casebook** Cambridge University Press This book comprises the principal multilateral legal instruments on international and European criminal law, with a special institutional focus on Europol, Eurojust and the European Public Prosecutor's Office, a substantive focus on international, organised and serious crime, including terrorism, and a focus on procedural rights approximation. Given the relevance thereof for international information exchange in criminal matters, relevant data protection instruments have also been included in the selection. The texts have been ordered according to the corresponding multilateral co-operation level: either Prüm, the European Union (comprising Schengen-related texts), the Council of Europe or the United Nations. This edition provides students as well as practitioners (judicial and law enforcement authorities, lawyers, researchers, ...) throughout Europe with an accurate and up-to-date edition of essential texts on international and European criminal law. All texts have been updated until 13 January 2021.

Fundamentals of EU VAT Law Cambridge University Press

This textbook provides an explanatory and contextual view of EU law and its impact in a simple and easily accessible yet analytical manner. It illustrates the power struggles behind a given EU law act, to allow for full understanding of how it developed. This allows the student to understand EU law as a force in the increasingly globalized world, rather than as technical and doctrinal subject. The textbook begins by setting the scene of EU integration, how we got there and why it is important. Thereafter it explores the constitutional framework for understanding EU law in context and by discussing inter alia, division of competences, accountability, legitimacy, enforcement, human rights, participation rights and so on as well as the general principles of the EU and citizenship rights. Subsequently the textbook explores

the essentials of the internal market as well as the principles of competition law. It also discusses free movement rights and links to the growing “Area of Freedom, Security and Justice”. Finally the textbook offers fresh insights on the external dimension of EU law and the role of the EU in the world today before concluding with an outlook on the future of EU law including the consequences of events such as Brexit.

An Introduction to European Law Gompel&Svacina

Travelling is by far a moment to enjoy and to relax. In order to make sure that tourism companies, transportation operators and hotels provide such pleasure to travellers, a very comprehensive set of rules and regulations exists. This volume presents a selection of legislative texts and case law of European and Belgian Tourism Law. It focuses on the law regarding consumers protection, such as air passengers rights and rights of travellers buying travel services. In the first place it serves as a guide for students and scholars of International Tourism & Leisure Law.

International Law Essentials Bloomsbury Publishing

The Law of the European Union is a complete reference work on all aspects of the law of the European Union, including the institutional framework, the Internal Market, Economic and Monetary Union and external policy and action. Completely revised and updated, with many newly written chapters, this fifth edition of the most thorough resource in its field provides the most comprehensive and systematic account available of the law of the European Union (EU). Written by a new team of experts in their respective areas of European law, its coverage incorporates and embraces many current, controversial, and emerging issues and provides detailed attention to historical development and legislative history of EU law. Topics that are constantly debated in European legal analysis and practice are touched on in ways that are both fundamental and enlightening, including the following:

- .powers and functions of the EU law institutions and relationship among them;
- .the principles of equality, loyalty, subsidiarity, and proportionality;
- .free movement of persons, goods, services, and capital;
- .mechanisms of constitutional change – treaty revisions, accession treaties, withdrawal agreements;
- .budgetary principles and procedures;
- .State aid rules;
- .effect of Union law in national legal systems;
- .coexistence of EU, European Convention of Human Rights (ECHR), and national fundamental rights law;
- .migration and asylum law;
- .liability of Member States for damage

suffered by individuals; .competition law – cartels, abuse of dominant position, merger control; .social policy, equal pay, and equal treatment; .environmental policy, consumer protection, public health, cultural policy, education, and tourism; .nature of EU citizenship, its acquisition, and loss; and .law and policy of the EU’s external relations. The fifth edition embraces many new, ongoing, and emerging European legal issues. As in the previous editions, the presentation is notable for its attention to how the law relates to economic and political realities and how the various policy areas interact with each other and with the institutional framework. The many practitioners and scholars who have relied on the predecessors of this definitive work for years will welcome this extensively revised and updated edition. Those coming to the field for the first time will instantly recognize that they are in the presence of a masterwork that can always be turned to with profit and that helps in understanding the rationale underlying any EU law provision or principle.

Research Handbook on Legal Pluralism and EU Law

Cambridge University Press

Edited by Catherine Barnard and Steve Peers, European Union Law draws together a range of perspectives from experienced academics, teachers and practitioners to provide a comprehensive introduction to EU law. Each chapter has been written and updated by an expert in the field to provide students with access to a broad range of ideas while offering a solid foundation in the institutional and substantive law of the EU. Written by experts, designed for students; every chapter ensures a balance of accessible explanation and critical detail. Case studies are included throughout the book to enable students to understand the context and implications of EU law, as well as helping to familiarize them with some of the most significant caselaw in the area. Quotations and examples from key EU legislation and academic sources are also included to help develop an understanding of EU law, while further reading suggestions for each chapter act as a springboard for further study and assessment preparation. This text provides a fresh and modern guide to EU law and is an ideal entry-point for students new to the subject as well as those looking to develop their understanding of EU law. As the process of the UK leaving the EU unfolds, readers can also visit the OUP European Union Law Resource Centre for up-to-date comment, opinion, and updates

created by our authors to engage students with the legal and political issues and considerations at play.

European Law Essentials Edward Elgar Publishing

Despite western Europe’s traditional disdain for the United States’ “adversarial legalism,” the European Union is shifting toward a similar approach to the law, according to Daniel Kelemen. Coining the term “eurolegalism” to describe the hybrid, he shows how the political and organizational realities of the EU make this shift inevitable.

Edward and Lane on European Union Law Routledge

As one of the most definitive texts on the market, European Private International Law provides an essential guide for both students and practitioners to the complex field of international litigation within the EU. The private international law of the Member States is increasingly regulated by European law, making private international law ever less 'national' and ever more EU based. Consequentially EU law in this area has penetrated national law to a very high degree, making it an essential area of study and an area of increasing importance to practising lawyers. This book provides a thorough overview of core European private international law, including the Brussels I, Rome I and Rome II Regulations (jurisdiction, applicable law for contracts and tort), while additional chapters deal with the recently adopted Succession Regulation, private international law and insolvency, freedom of establishment, and the impact of PIL on corporate social responsibility. From the reviews of the first edition 'As a result of his broad knowledge on the subject and rich professional experience, Mr van Calster provides great insight into current issues within international law. The book is practical as both a student textbook and a general introduction for legal professionals'. Vladimir Cupryszak, Association for International Arbitration 'Excellent overview of European Private International Law issues, as well as a very helpful introduction to basic concepts of conflicts of laws and jurisdictions'. Professor Stavros Brekoulakis, Queen Mary University of London 'This is a most useful book. I recommend it to my students as a great way to come to terms with the EU elements of Private International Law'. Dr David Kenny, Trinity College Dublin 'This book is essential reading for law students in Europe and abroad. It provides a coherent overview of all main elements of European private international law; concepts, legal instruments and practice'.

Professor Kim Talus, UEF Law School, Finland 'Well-written, clear and understandable. Excellent value for money'. Dr Jan Oster, King's College London, UK

Public Services in EU Law Maklu

This volume comprises the principal policy documents and multilateral legal instruments on international and European criminal law, with a special focus on Europol and Eurojust, as well as on initiatives aimed at combating international or organized crime or terrorism. The texts have been ordered according to the multilateral co-operation level within which they were drawn up: either Prüm, the European Union (comprising also Schengen-related texts), the Council of Europe, or the United Nations. Now in its seventh edition, the book is meant to provide students, as well as practitioners (judicial and law enforcement authorities, lawyers, researchers, etc.), with essential, accurate, and up-to-date texts on these matters.

Unlocking EU Law John Wiley & Sons

Essentials of EU Law Cambridge University Press

National Courts and EU Law Routledge

Understanding European Union Law is both an ideal introduction for students new to EU law and an essential addition to revision for the more accomplished. It is also essential reading for students on business studies courses. This fourth edition has been fully revised and updated in the light of the ratification of the Lisbon Treaty and continues to look at the main themes of EU law in a logical and progressive manner. It provides the reader with an understanding of EU law, concentrating on how, and especially why, the law has developed as it has. In addition, a number of issues presently facing the EU are also considered, such as fundamental rights and citizenship. The new edition incorporates summaries, end of chapter questions for self-testing and reflection; updated flow diagrams; a glossary of terms and important tips on how to approach examination questions. This student-friendly text is broad in scope and highly accessible. The ultimate objective of this book is to show that understanding EU law can be an enjoyable and rewarding experience.

Essentials of EU Law Edinburgh University Press

This book re-examines the law governing the obligations of the Member States in the European Union from the perspective of the interests formulated and pursued by national governments in the EU. Member States' interests provide the source as well as the

limitations of the obligations undertaken by the Member States in the Union. From the early days of European integration, they have determined how the law frames and defines EU obligations in the Treaties, in legislation and in the jurisprudence of the EU Court of Justice. The book neither challenges directly, nor undermines the current state of the law in the EU. Instead, it introduces a framework for interpreting and analysing legal developments – both legislative and jurisprudential – from an angle which brings the legal dimension of the membership of States in the European Union closer to its political reality. By choosing Member State interest to frame its analysis of the law, the book expresses a clear intention to explore further the interactions and the potential interconnectedness of the intergovernmentalism of EU decision-making and the normative supranationalism of the application and the enforcement of Member State obligations, in particular at the national level. Analysing how diversity among the Member States, which arises from different local interests, institutional frameworks and socio-economic arrangements, is assessed and sustained in EU legislation and in the jurisprudence of the Court of Justice, the book examines the impact of EU obligations on Member State territorial authority and territoriality. Providing a new perspective on Member State interests and European Law, the book closes the widening gap between the politics and law of European integration and between its political science and legal analysis. The book is essential reading for students and scholars in the field of state law, EU law and politics.

European Union Law Unlocking the Law

Since its publication in 2006, *European Union Law* has quickly established itself as one of the leading textbooks in the field, providing the student with both a comprehensive text and collection of materials. *European Union Public Law* brings together those sections of the title which look at the constitutional and institutional law of the EU, making it ideal for students undertaking a more focused study of the Union. Its proven successful combination of a highly accessible style, a 'law in context' approach which looks at the law in its wider political and social context and collection of interdisciplinary materials make this an essential text for those students concerned with the institutional and political workings of the Union. European public law students, European studies students and politics students will find this text invaluable, at both undergraduate and postgraduate

level.

Penguin UK

Offering the most thought-provoking introduction to EU law. Written in a highly readable narrative style, the book provides students with a succinct yet sophisticated analysis of the core aspects of the subject, while also equipping them with the tools for further exploration. Figures and tables clarify complex ideas and processes, and a guide to finding and reading EU judgments offers valuable practical support. This carefully structured guide brings clarity to a broad and multifaceted subject.

The Law of the European Union and the European Communities Routledge

For many observers, the European Union is mired in a deep crisis. Between sluggish growth; political turmoil following a decade of austerity politics; Brexit; and the rise of Asian influence, the EU is seen as a declining power on the world stage. Columbia Law professor Anu Bradford argues the opposite in her important new book *The Brussels Effect: the EU remains an influential superpower that shapes the world in its image*. By promulgating regulations that shape the international business environment, elevating standards worldwide, and leading to a notable Europeanization of many important aspects of global commerce, the EU has managed to shape policy in areas such as data privacy, consumer health and safety, environmental protection, antitrust, and online hate speech. And in contrast to how superpowers wield their global influence, the Brussels Effect – a phrase first coined by Bradford in 2012 – absolves the EU from playing a direct role in imposing standards, as market forces alone are often sufficient as multinational companies voluntarily extend the EU rule to govern their global operations. *The Brussels Effect* shows how the EU has acquired such power, why multinational companies use EU standards as global standards, and why the EU's role as the world's regulator is likely to outlive its gradual economic decline, extending the EU's influence long into the future.

Essential Questions in EU Law Edinburgh University Press

The European Union enjoys the competence to make laws in a wealth of areas, from environmental protection to agricultural policy. This competence is the result of many years of building and promoting European-level co-operation and integration. *European Law Essentials* explores the legal development of the

EU. It introduces the background history of the union, then moves on to look at membership, institutions, community law, supremacy, direct effect, state liability, preliminary rulings and judicial review, and finishes by looking to the future of law in the EU. End-of-chapter summaries flag up the essential facts and essential cases, and the book includes tables of cases, statutes and European legislation.

European Private International Law Edward Elgar Publishing
European Law is a core element of all law degrees in England and

Wales. Unlocking EU Law will ensure you grasp the main concepts with ease, providing you with an essential foundation for further study or practice.
