CONWAY KIDD

Disciplined Democracy, Big Business, and the Common Law Three Rivers Press (CA)

Judging by the frequency with which it makes an appearance in television news shows and late night stand up routines, the frivolous lawsuit has become part and parcel of our national culture. A woman sues McDonald's because she was scalded when she spilled her coffee. Thousands file lawsuits claiming they were injured by Agent Orange, silicone breast implants, or Bendectin although scientists report these substances do not cause the diseases in question. The United States, conventional wisdom has it, is a hyperlitigious society, propelled by avaricious

lawyers, harebrained judges, and runaway juries. Lawsuits waste money and time and, moreover, many are simply groundless. Carl T. Bogus is not so sure. In *Why Lawsuits Are Good for America*, Bogus argues that common law works far better than commonly understood. Indeed, Bogus contends that while the system can and occasionally does produce "wrong" results, it is very difficult for it to make flatly irrational decisions. Blending history, theory, empirical data, and colorful case studies, Bogus explains why the common law, rather than being outdated, may be more necessary than ever. As Bogus sees it, the common law is an essential adjunct to governmental regulation—essential, in part, because it is not as easily manipulated by big business. Meanwhile, big business has launched an all out war on the common law. "Tort reform"—measures designed to make more difficult for individuals to sue corporations—one of the ten

proposals in the Republican Contract With America, and George W. Bush's first major initiative as Governor of Texas. And much of what we have come to believe about the system comes from a coordinated propaganda effort by big business and its allies. Bogus makes a compelling case for the necessity of safeguarding the system from current assaults. *Why Lawsuits Are Good for America* provides broad historical overviews of the development of American common law, torts, products liability, as well as fresh and provocative arguments about the role of the system of "disciplined democracy" in the twenty-first century.

Serial set (no.3100-3500) Open Road Media

This seminal text demystifies the terminology around being an interior designer today, providing definitions of processes, techniques, features, and even some historical terms that a designer must know. The dictionary now includes coverage of sustainability, smart materials, new technologies, and processes. Coverage of non-Western cultures is expanded and provides insights into their influence in a global marketplace. This comprehensive reference covers multiple aspects of interior design and architecture, addressing structural and decorative features of interiors and their furnishings, business practices, green design, universal design, commercial and residential interiors, new workplace design, and institutional and hospitality facilities. The fourth edition also includes vocabulary and image flashcards via STUDIO for on-the-go studying.

Decorating with style, not dollars, is the focus of this guide to buying or making inexpensive and original flower boxes, pillows, tablescapes, collages and more. Photos, some in color.

Stories, Poems, and Recipes for Sharing That Most Wonderful Time of the Year Fox Chapel Publishing

This new, thoroughly updated sixth edition of Bradt's Albania remains the only standalone guide to this dynamic and rapidly modernising eastern European country, from the capital, Tirana, a lively European city, with shopping malls, cycle paths, museums, galleries and historic buildings, to remote outposts where traditional ways of life prevail. Updated by expert author Gillian Gloyer, it includes all developments since the last edition, reflecting changes such as continued investment in the road network and construction of fast highways connecting main cities, improved hotel provision and new museums dedicated to Albania's communist history. Despite such modernisation, Albania is one of very few European countries where it is still possible to immerse yourself in traditional lifestyles and culture, and Bradt's Albania provides details of where to experience this for yourself. In highland villages, people tend their livestock and gather their crops with little or no mechanisation; they milk their cows and goats by hand, they make their own cheese and bread, they distil home-made spirits from local fruits and berries. In addition, many villagers have opened up their traditional homes as guest-houses, offering a wonderful opportunity to experience their culture first-hand. Bradt's Albania also includes details of watching the country's rare wildlife, such as wildcats, lynx, wolves and bears, and of visiting its three World Heritage Sites: the archaeological

site and national park of Butrint and the Ottoman cities of Berati and Gjirokastra. Iso-polyphony, the traditional music of the south-west, is also listed as part of World Heritage by UNESCO. With rigorously researched historical and archaeological background information, detailed notes on popular and less well-known hiking routes and other outdoor activities, specialist contributors on wildlife, military history and other topics, and an unparalleled wealth of practical advice for the independent traveller, Bradt's Albania is the ideal companion for discovering this intriguing country.

Kovels' Antiques and Collectibles Price List 1994 Golden Arm Press

The image of the Virgin Mary holding the dead body of Christ in her lap caught the popular imagination in Europe in the 15th and 16th centuries. Forsyth, Curator Emeritus of Medieval Art at The Metropolitan Museum, surveys 167 Pieta sculptures, examining the image's rise, spread, and significance and focusing on the intriguingly diverse depictions of the Virgin's emotional state, as well as other distinctive regional variations. In addition, written sources of the Pieta image and its references in mystical writings are discussed. A catalogue provides summary information about some 1,250 Pietas. Includes 200 bandw illustrations and five maps. Annotation copyright by Book News, Inc., Portland, OR

The Sabbath World have been lost to the Imperium for many long centuries. Now, a crusade fights to reclaim them. In its midst are Colonel-Commissar Ibram Gaunt and his "Ghosts", the brave men of the Tanith First-and-Only. The Sabbath World have been lost to the Imperium for many long centuries. Now, a crusade fights to reclaim them. In its midst are Colonel-Commissar Ibram Gaunt and his "Ghosts", the brave men of the Tanith First-and-Only. As they survive battle after battle, Gaunt and his men uncover an insidious plot to unseat the crusade's warmaster, a move that threatens to destabilise the war effort and undo all the good work and sacrifice of millions of soldiers. With no one to trust and nowhere to turn, Gaunt must find a way to expose the conspiracy

and save his men from a needless death.

A "richly satisfying" epic of Asian history in the tradition of James Clavell (Newsday), from the bestselling author of The Tapestries.

Interpreting the Mikado's Empire Macmillan

A computer programmer must rescue an imprisoned wizard to save the universe in this sequel to The Silent Tower from the New York Times–bestselling author. There was a time when Joanna Sheraton knew nothing of the Void. She was an ordinary computer programmer, toiling in a cubicle in air-conditioned Southern California comfort, unaware that sinister forces had penetrated her universe. But from across the interdimensional divide, an evil mage had put in motion a scheme for eternal life, by transferring himself into a computer that feeds on Earth's life force. Called upon to help by the wizard Antryg, Joanna could do nothing more than delay. At the end of her first sojourn across the Void, Antryg was imprisoned and their task seemed hopeless. Now she must depart from Earth once more, to rescue Antryg and save humanity. She is friendless, and the dark mage's forces hound her every step. But a good hacker is not easily deterred. This ebook features an illustrated biography of Barbara Hambly,

including rare photos and never-before-seen documents from the author's personal collection.

Dictionary of Jargon (Routledge Revivals) AK-INTERACTIVE, S.L.

This volume offers the first comprehensive collection of medieval Bulgarian sources in English translation. It includes literary works, documents, inscriptions on stone and metal, graffiti, as well as coins, seals and medallions, produced during the Middle Ages by and for Bulgarians of all walks of life.

ELEMENTS IN COMBAT 3 Metropolitan Museum of Art

New York Times bestselling author Ted Dekker teams with Tosca Lee to create this gripping thriller set in a desolate future. Many years have passed since civilization's brush with apocalypse. The world's greatest threats have all been silenced. There is no anger, no hatred, no war. There is only perfect peace... and fear. But a terrible secret has been closely guarded for centuries: Every single soul walking the earth, though in appearance totally normal, is actually dead, long ago genetically stripped of true humanity. Fleeing pursuit, with only moments to live, a young man named Rom stumbles into possession of a vial of blood and a piece of cryptic writing. When consumed, the blood will bring him back to life. When decoded, the message will lead him on a perilous journey that will require him to abandon everything he has ever known and awaken humanity to the transforming power of true life and love. But the blood will also resurrect hatred, ambition, and greed. Set in a terrifying, medieval future, where grim pageantry masks death, this tale of dark desires and staggering stakes peels back the layers of the heart for all who dare to take the ride.

The Fairchild Books Dictionary of Interior Design Jonathan Kennell

A unique, richly illustrated study of Ottoman religious buildings

standing today in Cairo. With the conquest in 1517 CE of Egypt by the Ottomans, Cairo lost its position as the capital of the Islamic empire to Istanbul but it retained an eminent position as the second most important city, with Egypt still regarded as one of the wealthiest provinces of the new empire. Round minarets with pointed hoods, as symbols of the new rulers, began filling the landscape alongside the octagonal minarets with pavilion tops of the Mamluks, new mosques, zawiyas, and madrasas/takiyas were built to emphasize the continuation of Sunni Islamic rule, while the use of tiles imported from Turkey introduced new decorative styles to the city's existing rich carvings and marble paneling. This book invites readers and students to revisit a long-overlooked era of Cairo's architectural evolution, offering a unique, comprehensive study of Ottoman religious buildings still standing today. It provides detailed descriptions and walk-throughs of the buildings covered, visually, through its rich collection of plans, line drawings, and photographs, and through the narrative that infuses each image with life, shedding light on the continuous evolution of architecture in Cairo even after the city had ceased to be the capital of the Islamic empire.

American Homes Citadel Press

As a young Jewish boy in Lithuania, the author was herded into a city prison and then finally was shipped to Dachau. "Sidney tells his story in diary form, reconstructed from memory of the diary he actually kept during the Holocaust years."--Jacket.
