Join the celebration of the diverse, vibrant, and engaged community of women riding and making waves around the globe. While surfing is usually seen as a male domain, women have long been nurturing their own water stories and claiming their rightful place in the world of this sport. She Surf hails the females, past and present, who are engaged in expanding the art of surfing. Through exclusive

interviews and evocative imagery, the book travels from the iconic waves of Hawaii to remote locations in Morocco. Learn about the forgotten stories of Polynesian surfing princesses, pioneering wave riders from the 1960s, and the contemporary movers and shakers shaping the scene. This book is an exciting reflection on what it means to be a female surfer and

what it means to be moved to action by the beauty of the sea.

It has taken some time for Volkswagen's third-generation Transporter to gain the iconic status freely awarded to the first-generation 'Splittie' and its successor, the 'Bay'. Now, however, the T3, also variously called the T25, 'Wedge' or [less flatteringly] the 'Brick', is well and truly established as part of the classic VW scene. In part, this has been down to the soaring prices and limited availability of

the earlier models, but perhaps too the T3 has finally been recognized as a worthy successor to those venerable classics, and maybe even cherished as the last of the air-cooled Volkswagens. Topics covered: Background story, 1949-1979. Design concept to production, 1973-1979. Full analysis of the T3's specifications. Air-cooled, diesel and water-cooled engines. Four-wheel-drive

and luxury passenger-carrying models. Camping conversions. *Gearbox Magazine* Veloce Publishing Ltd This is a maintenance and repair manual for the DIY mechanic. More and more people are hitting the road to the middle of nowhere. Along less-traveled paths they are heading up mountains and down dunes in converted mobile homes, campers, trucks, or vans. They are enjoying the drive and the view through mud-splattered windshield as much as the stops and evening campfires amid stunning terrain. Although many of us love living in

cities, we have a growing longing to escape to nature. The outdoor scene is booming and many people are heading off to discover it with their own converted vehicles. This way, they can determine their own routes, itineraries, and pace, as well as how many challenges they'd like to meet along the way. After a day on the go, these multifunctional vehicles also serve as kitchens, campgrounds, and sleeping

quarters that offer a great deal more improvised fun than a standard, perfectly equipped RV. Conventional luxuries are eschewed for the sake of greater freedom, tranquility, and adventure. Off the Road captures the special mood of such trips by solo travelers, couples, or families who are seeking an alternative to a more standard vacation or want to live their lives differently -- at

least for a while. On the one hand, the book shows how familiar models, such as VW buses, Land Rovers, jeeps, and Toyotas are being rediscovered and repurposed for these exploits. On the other, it presents automotive dreamsturned into customized, homey vehicles that offer tailgate breakfasts or roof beds to better admire the stars and that can, in an emergency, cross a river

or drag a fallen tree from the road. Whether exploring the desert, showing children the world, or navigating polar landscapes, the journeys collected in *Off the Road* are as unique as the people who take them. From radical escapists to fans of nature looking for their next trip, the book celebrates the joy of being on the go on four wheels. *Homecamp* Ten Speed Press A compelling

Rizzoli Publications Breathtaking photographs and deeply personal stories from a leading surfing and nature photographer, conservation advocate, and social media force Wayward is a collection of striking photographs and the revealing personal stories behind them by one of the leading surf, nature, and adventure photographers of our time. At remote

beaches and locales in places like Russia, Norway, Iceland, and the Aleutian Islands, Chris Burkard succumbed to hypothermia, destroyed thousands of dollars' worth of camera gear, and spent a few nights in jail. But in the process, he captured amazing and iconic images that have defined his life's work. And while millions have seen his photographs in magazines, marketing

campaigns for Patagonia, Sony, and others, and via his social media, Burkard has never given a full account of these journeys--until now. With never-before-seen images and the stories behind them, Burkard crafts an original narrative that combines the page-turning drama of a great explorer's adventure story and the immediacy and power of unforgettable photographs. Chronicling

both the failures and the successes he has experienced in building a career, Burkard shares an infectious passion for photography, surfing, and chasing dreams in some of the world's most awe-inspiring places.

Patagonia
Modern-day fly fishing, like much in life, has become exceedingly

complex, with high-tech gear, a confusing array of flies and terminal tackle, accompanied by high-priced fishing guides. This book reveals that the best way to catch trout is simply, with a rod and a fly and not much else. The wisdom in this book comes from a simpler time, when the premise was: the more you know, the less you need. It teaches the reader how to discover where the fish are, at what depth, and

<p>what they are feeding on. Then it describes the techniques needed to present a fly at that depth, make it look lifelike, and hook the fish. With chapters on wet flies, nymphs, and dry flies, its authors employ both the tenkara rod as well as regular fly fishing gear to cover all the bases. Illustrated by renowned fish artist James Prosek, with inspiring photographs and stories throughout, Simple Fly</p>	<p>Fishing reveals the secrets and the soul of this captivating sport. <i>Japanese Current Research</i> Gestalten Kamchatka has some of the most stunning and dramatic volcanic scenery in the world and an inordinate amount of wildlife. Camper and Vanagon 1979-1992 Die Gestalten Verlag-DGV Sensual, meditative, and powerfully evocative photographic studies of the ocean by professional surfer Danny Fuller. Danny Fuller's work as a photographer and artist is best understood through his thirty years as a professional surfer. Fuller who is known for riding the waves of North Shore Oahu's famous Pipeline and Maui's treacherous Jaws sees and experiences the ocean in ways intimate and infinite. Fuller's nocturnal seascapes of the worlds most savage and beautiful waves, all captured exclusively by moonlight with slow exposures, share the soulful beauty of the ocean, in meditative, painterly studies of subtle changes of light and color. In the tradition of artists drawn to the sea for inspiration, Fuller expresses a surfer's deep spiritual connection to the ocean and to the meaning of consequence in surfing. The sensual allure of blue mixed with the ominous presence of water, whose scale is epic, reminds us just how minuscule and insignificant we are relative to the powers of the sea.

Media "Cold-water surfing, the most remote surf spots, spectacular photography, illustrations, and custom boards: Surf Odyssey documents the modern cult of surfing as its own subculture and way of life. There's much more to surfing than palm trees and beach boy clichés. People surf not only in Hawaii, but also in Norway, South Korea, and India. Surf Odyssey is a book about

the world of surfing today and those that live in it. This community is made up of the surfers themselves as well as surf photographers and board builders who are also spreading its distinctive spirit into other creative fields.
