A daybreaker rebels on an overpopulated planet in this dystopian adventure by the author of the *World of Tiers* series. Jeff Caird was once a daybreaker: a criminal who avoided government-required suspended animation by living seven different identities. Now he goes by the name William St.-George Duncan, and he's suppressed the memory of his past, and even his real identity, in order to avoid harsh punishment by the government of the Organic Commonwealth of Earth. But the danger is far from over, and the authorities continue to hunt him—because among the things he's forgotten there's something very important . . . In the wilderness of northern New Jersey, Dunc has fallen in with a group of rebel daybreakers. As he struggles to retrieve the memory that's so valuable—and dangerous—to the government, he learns from his new allies that there's a larger movement to break free from the control of the corrupt World Council that limits citizens to one day of consciousness per week. And the knowledge buried deep within him may be the key to their success. Hugo award-winning Science Fiction Grand Master Philip José Farmer returns to the Dayworld universe for the second installment of his richly imagined trilogy, in which Earth's overpopulation has led to the most stringent government restrictions on personal freedom imaginable.

She soon realizes she's taking on a lot more than she bargained for. 77 breakfasts to make, 77 lunches to pack (don't forget the juice boxes!), 77 pairs of pants to mend and a whole lot of dishes. Eventually Snow White decides to take her chances with the witch. There's a surprise ending... well, it may not be so surprising. This is a hilarious retelling of the classic tale, with bright, energetic illustrations featuring busy dwarfs, and the even busier Snow White.

A year had passed since Ben Holiday bought the Magic Kingdom from the wizard Meeks, who had set a series of pitfalls against him. Ben survived, by the aid of three loyal friends: Questor Thews, and ill-trained wizard; Abernathy, a talking dog, the Court Scribe; and the lovely Willow, who sometimes had to be a tree. But Ben had been troubled by dreams of disaster to his former partner, Miles Bennett. Yet when he returned to Earth, Ben found Miles doing splendidly. Unknown to Ben, the dreams had been a trap by Meeks, who had returned to the Magic Kingdom as a tiny insect hidden in Ben's clothing. That first night back in Landover, Ben awoke to see Meeks gloating over him, claiming to have the medallion that could summon the mysterious knight-protector, the Paladin, and that he had cast a spell to witch appearances with Ben. Ben found himself outcast, no longer recognized by any friend, though all his powerful enemies seemed to know him. Without the medallion, he couldn't seek the help of the Paladin against Meeks. There was only the prism cat—whatever that might be! And where was Willow—and the mysterious black unicorn she'd set out to find?
