Anyone dreaming about owning an affordable sailboat will be attracted by this book which provides a good introduction to trailer-sailing. The author shows how cruising on a small boat that can be kept at home and towed behind the family car is a satisfying and not very costly exercise.

*An Essential Handbook for Every Sailor* McGraw Hill Professional  
 Even the most well designed boats will suffer from wear and tear due to normal use on the water. Whilst accidents are less common, they too can result in damage which needs to be repaired on the spot. Highly illustrated, with step by step instructions, this book equips the reader with the vital 'first aid' skills he needs to make temporary repairs until he can get back to harbour. The Boat Repair Bible helps anyone who owns a boat to develop essential repair skills in the areas where problems

most commonly arise. The section on hull and deck repairs covers fibreglass, wood, steel and ferro-cement hulls, and shows the reader how to deal with everything from leaks to impact damage, and much, much more. This section also covers domestic repairs, such as repairing upholstery, and troubleshooting problems with the heads. Amongst the many other techniques described, the section on general mechanics includes instructions on how to fix problems with a split fuel/water tank and leaking hydraulics, whilst the section on electrical repairs explains how to trace loose connections, replace damaged wiring and fix navigation instruments. The myriad of issues that can arise with the engine are covered in great detail, from how to deal with water in the fuel system to replacing the propeller and its shaft. From basic skills in safety, surveying and the use of tools, to advanced instructions on how to replace an engine, The Boat Repair Bible is as comprehensive as it is invaluable. With repairs specific to powerboats, sailboats, dinghies and outboards, it is a book no boat owner can afford not to own.

"So what?" That's the response many people have to the Bible. Read a passage, interpret it, and still they ask, "So, what difference does that make in my life?" In the Life Essentials Study Bible, renowned Bible teacher Gene Getz complements the full text of the popular HCSB translation by elaborating on 1,500 principles in Scripture that are as relevant today as when the sixty-six books of the Bible were written. Distilling these truths into principles, Getz helps the reader more easily remember and effectively apply the Bible's wisdom to everyday life. He explains how each of these principles represents a supracultural truth - one that can and should be applied at any moment in history and in every cultural situation. In addition, the Life Essentials Study Bible was created with an integrated digital study system--more than 250 hours of free online coaching content led by Getz--that fosters a greater understanding of the Bible's grand story. Along the way, Getz adds pertinent questions in print to inspire personal reflection or group discussion of each principle. There's also an introduction to each book of the Bible and its list of corresponding principles, plus a topical index and cross references for all 1,500 principles. Other features of this dynamic study Bible - available in six different editions - include a two-piece gift box (leather editions only) as well as a presentation page. "Owning a copy of this astounding project containing the prodigious work and wisdom of my friend and mentor Gene Getz will be like having him in the next room -- available to advise me on every passage. Being able to access his video teaching on each of the 1,500 'Principles to Live By' is a breakthrough approach, making this truly the first multi-media study Bible. What a treasure! I know it will inform my own writing." Jerry Jenkins, owner, Christian Writer's Guild, and author of the Left Behind series

Few parts of the shores of old England present more beautiful and romantic scenery than is to be found on the coast of Cornwall. There are deep bays, and bold headlands, and wild rocks, and lofty cliffs, and wooded heights, and bare downs, and yellow sands full of the most minute and delicate shells, so delicate that it is surprising how they could have existed in the rough and boisterous ocean, and been cast up whole from the depths below. In one of those beautiful bays, many years ago, a large party was collected, on a bright afternoon in the early part of autumn. Among the party were persons of all ages, but most of them were young, and all were apparently very busy. Some were engaged in tending a fire over which a pot was boiling, and others were collecting drift-wood thrown up close under the cliff, with which to feed it.

"Jesus of Nazareth, a Biography, by John Mark," recognizes the author of the second Gospel as that "John, whose surname was Mark" (Acts 15:37), whom Barnabas chose as companion when he sailed for Cyprus on his second missionary journey. In making use of the new title, the plan of the Editor is to present "The Gospel: According to Mark" as it would be printed were it written in the twentieth rather than the first century. Mark's Gospel has been chosen for this purpose to make available in more readable form this timely portion of the Bible. In John Mark the missionary is revealed a man of action. This characteristic influences strongly the point of view and style of his writing. As John, the beloved disciple, in "The Revelation" beholds the victorious Christ as "the Lion of the tribe of Judah," foretold by the prophets, so Mark sees Jesus of Nazareth as the strong, vigorous man of action; he writes of His mighty works in swift narrative at times so vivid it flashes like a burst of flame, as though the facts presented must have been on fire in the heart of the author. Written for the practical, energetic Roman, the Editor feels that this biography of Jesus of Nazareth exactly fits the mood of our own time, with its emphasis upon the practical and its insistence that the man of action, the doer, is the man for the hour. Printed like a modern book, but in the fine old King James' version, it is believed that all Bible lovers will welcome their old friend, "The Gospel: According to Mark," in its new literary dress; it is hoped, too, that in this popular form book buyers and lovers of good literature may be led to purchase a book which needs only to be thoroughly and thoughtfully read to be greatly revered.

The first German arrived in Newfoundland with Leif Eirikson's Viking expedition. By 1914 St. John's was home to a vibrant German community while a Moravian enclave thrived in Labrador. Contemporary Newfoundland, however, remembers its German heritage largely in terms of U-Boat captains and local spies. Gerhard Bassler reveals what was lost when almost all earlier memories of Germans in Newfoundland and Labrador vanished. *A Guide to Reference and Information Sources* Thomas Nelson This comprehensive third volume in Jimmy Cornell's acclaimed and successful World Cruising series is the ultimate authority on boats, gear, and techniques for long-distance cruising under sail. Distilled from surveys of 15,000 sailors by the world's leading promoter of blue-water voyaging, it answers in detail the most frequently asked questions on world cruising, including what boats people are sailing, what navigation and seamanship practices work best, what equipment is really essential, and more.

As a child, John Brooks loved to build models and sail with his grandfather. When most teenagers were at the prom, John was changing jibs in the Indian Ocean, halfway through a 35,000-mile, two-year cruise. He began building boats in commercial yards at 19, while studying boat design and building his own boats. John worked for many years honing his craftsmanship on fine yachts, small boats, custom furniture, and a harpsichord. He has been an instructor at the Wooden Boat School in Maine since the mid-1990s, teaching glued-lapstrake boatbuilding, fine interior joinery, and carving. Ruth Ann Hill grew up on the coast of Maine. A writer, boatbuilding assistant, naturalist, and graphic artist, Ruth is the author of *Discovering Old Bar Harbor* and *Acadia National Park: An Unconventional Guide* and a contributing editor for *Maine Boats & Harbors* magazine. John and Ruth started their business, Brooks Boats, in 1991. They design and build glued-lapstrake boats in West Brooklin, Maine and get out to enjoy their handiwork in its proper element whenever they can.
