How to Pray Effectively from the Science of Mind 365

Science of Mind A Year of Daily Wisdom from Ernest Holmes Creative Ideas is just as inspirational and insightful today as when it was first published over 30 years ago. Those familiar with Ernest Holmes' writings and the Science of Mind principles that he espoused will enjoy the long anticipated reunion with some of their favorite passages; those who are new to them will delight in the discovery of these classics of New Thought. All readers will find Holmes' meditations to be practical, insightful, and more than satisfying food for the hungry soul. Jean Houston, PhD: "Ernest Holmes was one of the first to direct us to what is to be found in the vast ecology of inner space . . . He shows us how to be active and creative citizens in a Universe and Inniverse richer than all previous imaginings."

Life's Need to Re-represent Itself Red Wheel/Weiser

The Science of Mind Ernest S. Holmes - A Complete Course of Lessons in the Science of Mind and Spirit . These lessons are dedicated to that truth which frees man from himself and sets him on the pathway of a new experience, which enables him to see through the mist to the Eternal and Changeless Reality. In presenting these lessons in Mental Science to the public, it is my desire to make it possible for any one, who cares to take the time to study them, to demonstrate the truths that will be discussed. It is, perhaps, hard to set down in writing a complete teaching in Mental Science that will not appear difficult to understand; but this could be said as well of any science, and the Science of Mind is no exception to the general rule. From the author of Creative Mind And Success, comes this short book on how to utilise the power of your mind. Holmes shows us how our thoughts can become reality and what we can do to use that to our benefit.

A Journey into the World Within Red Wheel/Weiser

There is a power greater than you are...and you can use it! . . . Ernest Holmes offers twenty "how to" lessons, addressing such pertinent issues as how to pray, how to deal with addiction, how

to have successful relationships and greater prosperity, and more. Each chapter ends with a meditation designed for a specific purpose. This may be the most powerful element of "How to Use Your Power" because it is here that you make it work! Use the meditations to embody the dynamic words of Ernest Holmes and you will certainly find your power increase and your life become more balanced than you could have ever imagined. Never before published, and with a foreword by Dr. Chris Michaels, "How to Use Your Power" explains how to use your personal power to find balance in the most essential of life's circumstances. . . . Newt List is the leading publisher of updated and gender-neutral spiritual classic books.

Life Is So Daily! A 365 Day Walk With The Word By Pastor Cecil A. Thompson
In the 1970's I was on the ministerial staff of a large church. At one of our weekly staff meetings, the Senior Pastor announced that he wanted to start daily devotionals. Each staff member was to write seven devotionals which would be printed and distributed to the congregation each Sunday. Unfortunately, the project only lasted a short while because staff members complained that it was impossible to produce material for seven days. Thirty years later, September 15, 2000, I was pastoring a small congregation and requested the members email addresses. The number of responses surprised me so I sent them a short devotional message. Once again the response surprised me. They wanted me to send more! As I prayed about the commitment it would require on my part, the Lord prompted me to use this method to share His Word through my life experiences. The Daily E Votional was born. At the outset I sent out a new message seven days a week. Some of my spiritual counselors advised me to reduce it to five days a week or I would not have the energy to sustain it. I listened and limited the E Votionals to five days a week. The other change I made was to shorten the messages. Can I let you in on a little secret? It is much easier to write much than to write little. I eventually tried to cut back to a single page and encapsulate the message within four paragraphs. I also discovered that people like stories, which reminded me that Jesus used stories as the basis for much of His teaching. He painted

word pictures that allowed the people to visualize His message. I have had a very unique work history all the way from driving a milk delivery truck, to jet aircraft mechanic, to police officer, to juvenile probation officer, to Air Force Personnel Officer, to Missile Launch Officer, to Nuclear Safety Officer, to Criminal Justice Planner and, through almost all of it, a preacher and teacher of God's Word. This book provides a full year of selected Daily E Votionals to assist you in making each day more meaningful in serving the Lord. My desire for each of us is that we will allow every situation in our life an opportunity to serve the Lord. May God bless you, Dear Hearts! Pastor Cecil

An illuminating introduction to the wonders and mysteries of the mind, by the father of modern hypnosis, George H. Estabrooks, covering such subjects as memory stimulation, time distortion, tapping the subconscious mind for creative purposes, mind-body relationships, paranormal and extrasensory perception (ESP), and much more. Dr. Estabrooks was instrumental in bringing the powers of hypnosis to the battlefield, by helping the U.S. military design and develop its hypnosis, remote-viewing, and ESP programs, which allowed the Western powers to stave off crippling Cold War attacks from the Soviet Union and other Eastern Bloc organizations. "This excellent book should be required reading for all who wish to gain an introductory and insightful understanding of the human mind..." -Dr. Milton V. Kline "A popular book written by a psychologist well qualified to hold opinions on this subject..." -The Journal of the American Society For Psychical Research "A fascinating book about the human brain. This is Holmes' own "commentary" on his masterpiece, *The Science of Mind*. As such, it may be his most important book besides the textbook. These short pieces abound in counsel and guidance in metaphysics, spirituality, and healing. Here too is the history of New Thought and Religious Science; insights into the mystics; pointers on treatment; and analysis of our fears and insecurities. Founder of the worldwide Religious Science movement, formulator of the Science of Mind philosophy, and author of metaphysical bestsellers, Dr. Holmes continually sought to simplify his teaching and get people to "use" it. In these pages he speaks directly to you in a one-on-one tutorial.

"The need for scientific knowledge springs from a natural human curiosity to understand our world, but also from a genuine desire to help humanity. The great scientific discoveries have given us incredible knowledge about the natural world, have improved our lives through new technologies, and have taught us a great deal about the capabilities and the limitations of our human perspective." In *The Mind of Science: From Aristotle to Einstein*, author Michael Sidiropoulos takes you on a thought-provoking journey through the history of science from a philosophical standpoint. Beginning with the calculation of the size of the earth by Eratosthenes, chief librarian at the Library of Alexandria, Sidiropoulos for the most part avoids the use of mathematical formulas as he explores the ideas, and ideals, that lie behind scientific advancement throughout the ages. It's a fascinating voyage that will enrich you with a greater awareness of the interplay between science and philosophy-how they're similar, how they're different, and how they complement each other.
