*First Farmers*  
Psychology Press  
Prepares pupils for the  
Academic IELTS Writing  
paper. This book is full  
of exercises and  
examples to help  
develop key Writing  
skills. It includes tips  
that support students

on how to approach  
the Writing tasks, and  
MPO for further  
practice online. It is a  
'With Key' version.  
*Ielts Testbuilder 2*  
MacMillan Education,  
Limited  
More than 5,000 years  
ago, India's first  
civilization flourished  
with well-planned  
cities, civic amenities,  
and a developed  
economy. This book

focuses on some of the recently discovered sites in India, and utilizes the finds from locations in the Gangetic Doab, Haryana, Rajasthan, and Gujarat for the dating of the civilization, its life, town-planning, social and economic infrastructure, religious practices, script, trading activities, crafts, agriculture, and pastoral life. Some of the interesting discoveries included are remains of the earliest plowed field in the subcontinent, a hoard of Late Harappan jewelry, and pottery. Many of the elements of our civilization today are rooted in the life and times of the Indus civilization sites. *Ptolemy's Almagest*  
Rand McNally

Water is vital for life. Since the dawn of civilization, much effort has been made to harness sources of fresh water. Recent years have raised global awareness of the need for increasing demand of water worldwide, largely because of growing population, rising standard of living, higher demand for energy, and greater appreciation for environmental quality. As an example, the world population has increased threefold in the past five decades. In order to meet the rising water demand, water resources are being developed by building large dams, reservoirs, barrages and weirs across rivers worldwide. The guiding principle for water resources development

has been to ensure adequate supply of water for agriculture, domestic use (including fine drinking water), waste disposal, industries, and energy production, with due attention to maintain the ecosystem functions. This development, however, depends on a holistic, cooperative and scientific approach. The basic inputs in the assessment of water resources for a given region are from hydrological data and the subject of hydrology forms the core in achieving sustainable development of water resources. Barring a few exceptions, hydrological data for most river basins are sparse and therefore it is difficult to comprehensively

assess their water resources. The major source of water is rainfall which occurs as a result of condensation of atmospheric moisture governed by the science of meteorology.

Babur Nama: Memories of Babur: V. 1&2

London : G. Allen & Unwin

First Farmers: the Origins of Agricultural Societies offers readers an understanding of the origins and histories of early agricultural populations in all parts of the world. Uses data from archaeology, comparative linguistics, and biological anthropology to cover developments over the past 12,000 years Examines the reasons for the multiple primary

origins of agriculture  
 Focuses on agricultural  
 origins in and  
 dispersals out of the  
 Middle East, central  
 Africa, China, New  
 Guinea, Mesoamerica  
 and the northern  
 Andes Covers the  
 origins and dispersals  
 of major language  
 families such as Indo-  
 European,  
 Austronesian, Sino-  
 Tibetan, Niger-Congo  
 and Uto-Aztecian  
**Successful Writing**  
 John Wiley & Sons  
 The new IELTS  
 preparation course  
 builds on the  
 successful elements of  
 the Ready for Series to  
 ensure students aiming  
 for IELTS bands 5 - 6.5  
 are ready for success!  
 All four key skills are  
 systematically  
 developed and  
 practised in each unit,  
 while in-depth exam  
 training is presented.

*Til va adabiёт ta "limi*  
 Cambridge University  
 Press  
 Incorporating the latest  
 scholarly research, the  
 third edition of A  
 History of the Ancient  
 Near East ca.  
 3000–323 BC presents  
 a comprehensive  
 overview of the  
 multicultural  
 civilizations of the  
 ancient Near East.  
 Integrates the most up-  
 to-date research, and  
 includes a richer  
 selection of  
 supplementary  
 materials Addresses  
 the wide variety of  
 political, social, and  
 cultural developments  
 in the ancient Near  
 East Updated features  
 include new “Key  
 Debate” boxes at the  
 end of each chapter to  
 engage students with  
 various perspectives  
 on a range of critical  
 issues; a

comprehensive timeline of events; and 46 new illustrations, including 12 color photos Features a new chapter addressing governance and continuity in the region during the Persian Empire Offers in-depth, accessible discussions of key texts and sources, including the Bible and the Epic of Gilgamesh

**Pinball, 1973** Oxford University Press, USA  
A study of the cities and states of South Asia between c.800BC and AD 250.

**The Making of Humanity** BoD – Books on Demand  
This is the first reference work in English ever to present a systematic coverage of the archaeology of this region from the earliest finds of the Palaeolithic period

through to the fourth century AD.

*The Grammar of Case*  
Tate Publishing(UK)

Filled with fascinating facts and stunning images, this single-volume reference to ancient Egypt introduces readers to this unique, sometimes startling culture.

Cultural Atlas of Ancient Egypt

Cambridge University Press

This is an account of the rise and fall of the civilization in the Nile Valley, covering the first human settlement (c 120,000 BC) to its conquest by Alexander the Great in 333 BC.

This is the first history of ancient Egypt for 25 years Brings together the very latest textual and archaeological evidence The index, bibliography and appendices make this

an invaluable reference tool New guide to further reading in English especially commissioned for the paperback edition

**A History of Ancient Egypt** Macmillan Elt

This work is written in Uzbek. This is for all Uzbeks in the world! O'zbek bolalar adabiyotidagi ilk ilmiy-fantastik asar! Mazkur asar voqealari koinotda kechuvchi o'tkir syujetlar asosiga qurilgan. Qissa qahramoni 12 yoshli Ahmad yaratgan juda noyob fazo kemasi yerlik olimlar qolib, o'zga sayyoraliklarning e'tiborini tortadi. Endi u o'zi bilmagan holda galaktikamizdagi yovuz kuchlar va yaxshilarning kurashiga aralashib qoladi... Asardan parcha - Ko''rib turganingizday

qurilmani odatiy raketa fazoga olib chiqadi, - Ahmad chizmalarni namoyish qildi. Chizmadagi suratlarga qarab bir nimani tushunish qiyin edi. Chunki unda turli matematik belgi va formulalar, geometrik shakllar g'ij-g'ij edi. Ammo bir qarashda bu narsalar judayam malakali muhandis tomonidan tuzilgan chizmaga o''xshab ketardi. - Uchar qurilma raketadan ajralib, - davom etdi qahramonimiz, - kichik energiya evaziga fazodagi gravitatsiya to''lqiniga tushib oladi. Gravitatsiya, ya'ni butun olam tortishish qonunlariga ko''ra buni amalga oshirish mumkin. Nyuton va Eynshteynning gravitatsiya haqidagi nazariyalari ham buni tasdiqlaydi.

Gravitatsiya butun olamni harakatlantirib turadigan ko''rinmas kuchdir. Fazoda esa gravitatsiyaning xuddi daryoga o''xshash to''lqinlari bor. Mening kemam ana shu to''lqinga tushib olsa bas, fazoning istalgan nuqtasiga katta tezlikda uchib ketaveradi. - U shunday deb monitorda o''zining hisob-kitoblari tushirilgan chizmani ko''rsata boshladi. - Kvant fizikasining asoslari shuni ko''rsatadiki... - Shoshma, bolakay! - Ahmadning gapini ko''zoynak taqqan hakam to''xtatdi. - To''g''risi, bu chizmalar va sening gaplaringga tushunib bo''lmayapti. Sodda qilib aytganda, bu kema fazoda o''z-o''zidan, hech qanday raketa dvigatelsiz

harakatlanadi, shundaymi? - Xuddi shunday! Mana, bizning Yer sayyoramiz ham Quyosh atrofida hech qanday dvigatelsiz soniyasiga 30 km tezlik bilan uchib yuradi-ku. Bu to''ppochadan otilgan o''qdan 100-marta tezroq degani, axir! Endi tanlovga yig'ilganlarning bari bir-biriga o''ychan qarab qolishgandi. Zalda "Mushtdek bolaning qulog'imizga lag'mon ilishini qarang", "Sal xayolparast bola ekanmi?", "G'irt bo''lmagan gap" kabi pichir-pichirlar ko''payib qoldi. Ba'zilar esa Ahmadga hayrat bilan boqar, ularni uchar qurilma emas balki o''n ikki yoshli bolaning iqtidori ajablantirar edi. - Men hozirda uchar qurilmaning bir

gravitatsiya to'liqinidan boshqa bir to'liqinga o'tib, o'z yo'nalishini o'zgartirishi masalasida izlanyapman. - Buning iloji yo'q! - dedi baland ovozda o'tirganlar orasida birov. Eng oxirgi qatordan kelgan bu ovoz egasini izlab hamma orqaga qaradi. Bu bo'ylari past, judayam ozg'in va xunuk bir odam edi. - Bolakay, nisbiylik nazariyasiga ko'ra, sen aytgan qurilmani fazoga uchirish mumkin, - tushuntira boshladi pakana odam. - Lekin uni boshqarib bo'lmay qoladi. Aniqrog'i, yerlik muhandislarning malakasi hali bunday qurilma yaratishga o'zlik qiladi. O'zicha bilag'onlik qilayotgan bu g'alati odamga hamma taajjublanib qarab qoldi. Bolalar esa

yaxshi boshlangan tanlovning bunaqa tus olganiga ko'nika olmay qovoqlarini uyib olishgandi. - Nega endi?! - e'tiroz bildirdi Ahmad. - Nega desang, yerliklar atom fizikasi va gravitatsiya asoslarini hali unchalik tushunishmaydi. Balki ellik yoki yuz yildan so'ng bu boradagi bilimlaringiz ortib qolar... - Bo'ldi, bas qilinglar, - asabiy holda gapni bo'ldi ko'zoynakli hakam - yerliklar, yerliklar, deysiz... Nima, siz osmondan tushganmisiz?! Hakam shunday dediyu bir nuqtaga qarab, qotib qoldi. Chunki hozirgina odamlar orasida unga angrayib qarab turgan mahmadona odam xuddi yer yutganday g'oyib bo'lgandi. U ko'zoynagini yechib, ko'zlarini ishqalab

tag'in razm soldi -  
pakana odam  
haqiqatan ham yo''q  
edi. Hakam chuqur  
xo''rsinib joyiga  
o''tirarkan, stol ustidagi  
suvga qo''lini uzatib  
bir-ikki qultum suv  
ichdi. So''ng ayb ish  
qilib qo''ygan boladay  
boshini egib o''tirib  
qoldi.

*Atlas of the United  
States* John Wiley &  
Sons

Ptolemy's *Almagest* is  
one of the most  
influential scientific  
works in history. A  
masterpiece of  
technical exposition, it  
was the basic textbook  
of astronomy for more  
than a thousand years,  
and still is the main  
source for our  
knowledge of ancient  
astronomy. This  
translation, based on  
the standard Greek  
text of Heiberg, makes  
the work accessible to

English readers in an  
intelligible and reliable  
form. It contains  
numerous corrections  
derived from medieval  
Arabic translations and  
extensive footnotes  
that take account of  
the great progress in  
understanding the  
work made in this  
century, due to the  
discovery of  
Babylonian records and  
other researches. It is  
designed to stand by  
itself as an  
interpretation of the  
original, but it will also  
be useful as an aid to  
reading the Greek text.

□□

This 1997 book views the substantive achievements of the Middle Ages as they relate to early modern science.

**The Civilisation of the Renaissance in Italy** Routledge

The new IELTS preparation course builds on the successful elements of the Ready for Series to ensure students aiming

for IELTS bands 5 - 6.5 are ready for success! All four key skills are systematically developed and practised in each unit, while in-depth exam training is presented.

**A History of the Ancient Near East, ca. 3000-323 BC**  
Cambridge University Press

This text prepares students for the IELTS test at B1 (foundation level). It is designed to introduce students to the critical thinking required for IELTS and provide strategies and skills to maximise their score.

*The Lure of the East*  
Rutgers University Press

A study of the different roles which nouns play in the event or state expressed by the verb or adjective with which they are associated.

The book explores within the framework of transformational-generative grammar the 'localist hypothesis', which asserts that all the roles for nouns involve basically the notions of location and direction. Indus Civilization Sites in India Anaheim University British Orientalist Painting will explore the responses of British artists to the cultures and landscapes of the Near and Middle East between 1780 and 1930, offering vital historical and cultural perspectives on the challenging questions of the 'Orient' and its representation in British art. It will bring together over 120 paintings, prints and drawings of bazaars, public baths, domestic interiors and religious

sites, and all the major genres, themes and preoccupations of Orientalism in British art will be considered. Several exceptional and rarely seen paintings by John Frederick Lewis, Edward Lear, David Wilkie, Richard Dadd, Lord Leighton, and William Holman Hunt, will be shown, as well as significant works by many less familiar names.
