Syndrome. Carpal  
tunnel syndrome is  
caused by pressure on  
your median nerve.  
This nerve gives you  
feeling in your thumb  
and all your fingers  
except your pinky.  
When it goes through  
your wrist, it passes  
through the carpal  
tunnel -- a narrow path  
that's made of bone  
and  
ligament.Symptoms of  
Carpal Tunnel  
Syndrome: What It  
Feels LikeDiagnosis.  
For example, because  
the median nerve  
doesn't provide  
sensation to your little  
finger, symptoms in  
that finger may  
indicate a problem  
other than carpal  
tunnel syndrome.  
Carpal tunnel  
syndrome symptoms  
usually occur include  
while holding a phone  
or a newspaper,

gripping a steering wheel, or waking up during the night. Carpal tunnel syndrome - Diagnosis and treatment - Mayo Clinic Conquering Carpal Tunnel Syndrome and Other Repetitive Strain Injuries A Self-Care Program by Sharon Butler 9781572240391 (Paperback, 1996) Delivery US shipping is usually within 11 to 15 working days. Conquering Carpal Tunnel Syndrome : And Other Repetitive ... Carpal tunnel syndrome (CTS) occurs when the median nerve, which runs from the forearm into the palm of the hand, becomes pressed or squeezed at the wrist. The carpal tunnel—a narrow, rigid passageway of ligament and bones at

the base of the hand—houses the median nerve and the tendons that bend the fingers. Carpal Tunnel Syndrome Fact Sheet | National Institute of ... This book offers a complete self-care program for those at risk and those already suffering from one of the most common and most debilitating occupational injuries. Guided by symptom charts, you select the best exercises for the movement patterns required by your work and learn how to restore the range of motion to overworked hands and arms. Conquering Carpal Tunnel Syndrome and Other Repetitive ... Carpal tunnel syndrome occurs when the tunnel becomes narrowed or when tissues

surrounding the flexor tendons swell, putting pressure on the median nerve. These tissues are called the synovium. Normally, the synovium lubricates the tendons, making it easier to move your fingers. Carpal Tunnel Syndrome - Symptoms and Treatment ...Carpal tunnel syndrome is a condition that causes numbness, tingling and other symptoms in the hand and arm. Carpal tunnel syndrome is caused by a compressed nerve in the carpal tunnel, a narrow passageway on the palm side of your wrist. Carpal tunnel syndrome - Symptoms and causes - Mayo Clinic Carpal tunnel syndrome. Carpal tunnel syndrome ( CTS) is a medical condition

due to compression of the median nerve as it travels through the wrist at the carpal tunnel. The main symptoms are pain, numbness, and tingling, in the thumb, index finger, middle finger, and the thumb side of the ring fingers. Carpal tunnel syndrome - Wikipedia Find helpful customer reviews and review ratings for Conquering Carpal Tunnel Syndrome and Other Repetitive Strain Injuries: A Self-Care Program at Amazon.com.
