A leading philosopher takes a mind-bending journey through virtual worlds, illuminating the nature of reality and our place within it. Virtual reality is genuine reality; that's the central thesis of Reality+. In a highly original work of "technophilosophy," David J. Chalmers gives a compelling analysis of our technological future. He argues that virtual worlds are not second-class worlds, and that we can live a meaningful life in virtual reality. We may even be in a virtual world already. Along the way, Chalmers conducts a grand tour of big ideas in philosophy and science. He uses virtual reality technology to offer a new perspective on long-established philosophical questions. How do we know that there's an external world? Is there a god? What is the nature of reality? What's the relation between mind and body? How can we lead a good life? All of these questions are illuminated or transformed by Chalmers' mind-bending analysis. Studded with illustrations that bring philosophical issues to life, Reality+ is a major statement that will shape discussion of philosophy, science, and technology for years to come.

No need to hop on a plane to the East Coast! California has beautiful fall foliage, especially in the Sierra Nevada, which glows red and golden every year with aspens, cottonwoods, dogwoods, maples, and oaks. This compact, lively guide shows visitors where and how to capture the best images of turning leaves in the eastern Sierra, Tahoe, and Yosemite, as well as destinations off the beaten track. Mitchell's advice is suitable for photographers of all levels, whether tourists who want to share their experience with friends or professionals seeking advice for dealing with the special challenges of fall photography. More than a manual of technical considerations, though, California's Fall Color encourages us to be overwhelmed by beauty--to take home an image containing the color but, just as importantly, the essence of that sublime feeling.

"With precise, stunning photographs and a distinctly literary narrative that tells the story of the forest ecosystem along the way, The Living Forest is an invitation to join in the eloquence of seeing." —Sierra Magazine From the leaves and branches of the canopy to the roots and soil of the understory, the forest is a complex, interconnected ecosystem filled with plants, birds, mammals, insects, and fungi. Some of it is easily discovered, but many parts remain difficult or impossible for the human eye to see. Until now. The Living Forest is a visual journey that immerses you deep into the woods. The wide-ranging photography by Robert Llewellyn celebrates the small and the large, the living and the dead, and the seen and the unseen. You'll discover close-up images of owls, hawks, and turtles; aerial photographs that show herons in flight; and time-lapse imagery that reveals the slow change of leaves. In an ideal blend of art and scholarship, the 300 awe-inspiring photographs are supported by lyrical essays from Joan Maloof detailing the science behind the wonder.

The Cat in the Hat Amherst Media

Shortlisted for the James Tait Black Prize for Biography Longlisted for The Orwell Prize for Political Writing An electric portrait of the artist as a young woman that asks how a writer finds her voice in a society that prefers women to be silent, from the author of *Orwell's Roses In Recollections of My Nonexistence*, Rebecca Solnit describes her formation as a writer and as a feminist in 1980s San Francisco, in an atmosphere of gender violence on the street and throughout society and the exclusion of women from cultural arenas. She tells of being poor, hopeful, and adrift in the city that became her great teacher, and of the small apartment that, when she was nineteen, became the home in which she transformed herself. She explores the forces that liberated her as a person and as a writer--books themselves; the gay community that presented a new model of what else gender, family, and joy could mean; and her eventual arrival in the spacious landscapes and overlooked conflicts of the American West. Beyond being a memoir, Solnit's book is also a passionate argument: that women are not just impacted by personal experience, but by membership in a society where violence against women pervades. Looking back, she describes how she came to recognize that her own experiences of harassment and menace were inseparable from the systemic problem of who has a voice, or rather who is heard and respected and who is silenced--and how she was galvanized to use her own voice for change.
