Like other languages, Latin contained certain words its speakers considered obscene as well as a rich stock of sexual euphemism and metaphor. Our sources for this information range from surviving graffiti to literary works with a marked sexual content. Yet despite its manifest literary and linguistic interest, the sexual vocabulary of Latin has remained uninvestigated by scholars. J. A. Adams's pioneering and unique reference work collects for the first time evidence of Latin obscenities and sexual euphemisms drawn from both literary and nonliterary sources from the early Republic to about the fourth century A.D. Separate chapters treat each of the sexual parts of the body and the terminology used to describe sexual acts. General topics include the influence of Greek language on Latin, changes in the Latin vocabulary over time (including the evolution of sexual words into general terms of abuse), and lexical differences among various literary genres. *Scholarship between Europe and the Levant* Scott Foresman &

In Exsilium is a unique travelogue in the form of poems that arose from over twenty years of voluntary exile. At a very young age, the author had been addicted to travelling, playing the saxophone and writing. He combined these passions in life in this fascinating book that provides insight into his life's adventures. His poetry is very visual and varies from being euphoric to being frightening. His symbolic use of color is like a 'red thread' that connects everything. One section of *In Exsilium* gives a different twist to his work and contributes to the international appeal of this restless poet. Gerard was born in Cornieje's Heerenberg in the year 1962. To his parents' despair, he began traveling at the age of fourteen by hitchhiking from England to France. It was also at that time that he started writing poems. After many years of wandering as a saxophonist, he currently lives in Spain with his wife Claire and sons, Max and Moritz. He is a presenter for The Learning Partnership and continues to travel around the world for his work.

Cornelius Nepos, Life of Hannibal BRILL

The Acts of the Apostles is an unjustly under-read text of the New Testament. Its story is by now old news. From its humble beginnings as a sect within Judaism, Christianity survived its first uncertain decades and emerged as one of the most important world religions. Yet bypassing Acts because we know the ending misses out on the unfolding drama of the time. The first apostles struggled against the Jewish authorities and even quarreled among themselves, often with an acrimony that modern Christians find unsettling. We should think of the earliest decades of Christianity as a white hot crucible of conflict rather than a flower quietly unfolding and blooming. Putting this text in the hands of intermediate Latin students allows them to build on their years of study of a difficult language with a reading that is not only well within their grasp but is also of enduring importance.

This book addresses the question of whether there are continuities in Latin spanning the period from the early Republic through to the Romance languages. It is often maintained that various usages admitted by early comedy were rejected later by the literary language but continued in speech, to resurface centuries later in the written record (and in Romance). Are there certain similarities between early and late Latin all that they seem, or might they be superficial, reflecting different phenomena at different periods? Most of the chapters, on numerous syntactic and other topics and using different methodologies, have a long chronological range. All attempt to identify patterns of change that might undermine any theory of submerged continuity. The patterns found are summarised in a concluding chapter. The volume addresses classicists with an interest in any of the different periods of Latin, and Romance linguists.

Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the

epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

The Dream of Scipio Bristol Classical Press

This book contains over fifty passages of Latin from 200 BC to AD 900, each with translation and linguistic commentary. It is not intended as an elementary reader (though suitable for university courses), but as an illustrative history of Latin covering more than a millennium, with almost every century represented.

Conventional histories cite constructions out of context, whereas this work gives a sense of the period, genre, stylistic aims and idiosyncrasies of specific passages. 'Informal' texts, particularly if they portray talk, reflect linguistic variety and change better than texts adhering to classicising norms. Some of the texts are recent discoveries or little known. Writing tablets are well represented, as are literary and technical texts down to the early medieval period, when striking changes appear. The commentaries identify innovations, discontinuities and phenomena of long duration. Readers will learn much about the diversity and development of Latin.

In 1638, a small book of no more than 92 pages in octavo was published "appresso Gioanne Calleoni" under the title "Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice." It was dedicated to the Doge of Venice and his counsellors, who are labelled "lovers of Truth." The author of the book was a certain Simone (Simḥa) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto's political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are "wellsuited for trade," much more so than others (such as "foreigners," for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto's argument is that this talent could be put at the service of the Venetian government in order to maintain - or, more accurately, recover - its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism's alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential

to point out Luzzatto's resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto's texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.

A concise history of the Roman Empire published in the fourth century, from the creation of Rome through Valens' accession. The book, translated by John Selby Watson, tells the story of Rome's early monarchy and republic till the time of Constantine and his successors to the death of Jovian (364 AD). Flavius Eutropius was a Roman historian who lived during the second part of the fourth century. He served as the city's secretary (magister memoriae), traveled with Emperor Julian (361-363) on his operations against Persia, and continued to live until the reign of Valens (364-378), to whom he dedicated the *Breviarium historiae Romanae* (the *Breviarium of Roman History*), which is also the point at which the history of that work comes to an end.

Trebia. Trasimene. Cannae. With three stunning victories, Hannibal humbled Rome and nearly shattered its empire. Even today Hannibal's brilliant, if ultimately unsuccessful, campaign against Rome during the Second Punic War (218-202 BC) make him one of history's most celebrated military leaders. This biography by Cornelius Nepos (c. 100-27 BC) sketches Hannibal's life from the time he began traveling with his father's army as a young boy, through his sixteen-year invasion of Italy and his tumultuous political career in Carthage, to his perilous exile and eventual suicide in the East. As Rome completed its bloody transition from dysfunctional republic to stable monarchy, Nepos labored to complete an innovative and influential collection of concise biographies. Putting aside the detailed, chronological accounts of military campaigns and political machinations that characterized most writing about history, Nepos surveyed Roman and Greek history for distinguished men who excelled in a range of prestigious occupations. In the exploits and achievements of these illustrious men, Nepos hoped that his readers would find models for the honorable conduct of their own lives. Although most of Nepos' works have been lost, we are fortunate to have his biography of Hannibal. Nepos offers a surprisingly balanced portrayal of a man that most Roman authors vilified as the most monstrous foe that Rome had ever faced. Nepos' straightforward style and his preference for common vocabulary make *Life of Hannibal* accessible for those who are just beginning to read continuous Latin prose, while the historical interest of the subject make it compelling for readers of every ability.

A prominent lawyer and administrator, Pliny (c. AD 61-113) was also a prolific letter-writer, who numbered among his correspondents such eminent figures as Tacitus, Suetonius and the Emperor Trajan, as well as a wide circle of friends and family. His lively and very personal letters address an astonishing range of topics, from a deeply moving account of his uncle's death in the eruption that engulfed Pompeii, to observations on the early Christians - 'a desperate sort of cult carried to extravagant lengths' - from descriptions of everyday life in Rome, with its scandals and court cases, to Pliny's life in the country.

Colloquia Personarum Bloomsbury Publishing

This anthology is designed to meet the needs of Latin students today, acknowledging present constraints on their study-time. It adopts the authors' approach of their "Ecce Romani" series. To enable students to read Latin reasonably quickly, generous assistance is given with vocabulary and explanatory notes placed next to the Latin text. The meaning of difficult sentences and phrases is usually explained by literal translation rather than complex grammatical explanation, though reference is frequently

made to the authors' modern grammar book "The Latin Language". An 'overview' technique helps students unravel complex sentences. Extracts are drawn from Cicero's speeches, letters and philosophical writings, thus illustrating his mastery of styles. They are also chosen to provide an interesting contemporary view of a highly significant phase of Roman history, and linked by simple historical background notes. 'Points for Discussion' highlight stylistic features, showing how Cicero's thinking on moral and social issues remains relevant to modern times.
