HTML Pigeon Management | Poultry U The racing bird circles closer, distinctly different from the wild pigeons that flew past earlier. This pigeon is small and streamlined, built to race. It has flown nearly 450km since being released that morning and is the first of 16 birds expected to clock back in at Kingslea Lofts today. Breeding a million-dollar bird - Farmer's Weekly Pigeon racing is the sport of releasing specially trained racing pigeons, which then return to their homes over

a carefully measured distance. The time it takes the animal to cover the specified distance is measured and the bird's rate of travel is calculated and compared with all of the other pigeons in the race to determine which animal returned at the highest speed. Pigeon racing - Wikipedia Fanciers have, over the years, developed different methods of racing pigeons, each having as its main objective the improved performance of their pigeons. At one time the natural system of racing, where the pigeons are mated and then flown whilst they are breeding or feeding youngsters, was the only system known.
