With over 60,000 copies in print, *Church Administration in the Black Perspective*, first published in 1976, has become a classic reference manual. African American pastors through the years have looked to this informational guide as a source for details on church structure, management, and organization. This resource addresses the particular needs of the pastor and church staff who have been charged with the responsibilities of administration in the black church context. Not only does this revised edition feature updated language, but it also includes fresh information in such areas as budgeting and the use of modern technology. The authors supply detailed information on creating a church budget, and discuss the role websites, computer technology, and cable access television can play in helping churches to carry out their mission. The book includes guidelines for effectively organizing church boards and committees, as well as details pertaining to overall church structure. The authors' perspectives are well grounded in the experience of the African American Christian community, as the text explores how the African heritage and slave experience have molded black church traditions. The authors bring to the writing of this book a blend of practical and academic experience. Book jacket.

Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an "everything you need to know" guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace.

Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

Educational leaders are seeing the increasing need for practical transformative models and theories to address academic, cultural, and socio-economic gaps separating learners at all levels of the educational system. *Applied Critical Leadership in Education* explores a leadership model arising from critical theory and critical pedagogy traditions that transforms status quo educational practices. Providing a range of diverse voices of practicing leaders from prekindergarten through higher education, explicit ties to theory and practice are drawn, making leadership for social justice accessible, feasible, and more practical for aspiring and practicing leaders alike. Features Included: Case Studies provide examples of applied critical leadership across early childhood education, elementary school, middle school, high school, district, and higher education levels. Theory to Research Applications offer frameworks and key research complementary to cases. *Checking In* presents questions to the reader to respond and further engage with the chapter content. *Opportunity Recognition and Critical Conversations* offer strategies to challenge assumptions of common practices and begin conversations around issues of social justice. *Backpack* includes online or print resources to supplement the material in each chapter. Appendix provides a comprehensive example of

qualitative case study research from design, to data collection, and analysis. *Applied Critical Leadership in Education* provides an innovative way for aspiring and practicing educational leaders to think about and apply leadership practice suited for the educational challenges of today that are necessary for change.

Pastor Willie M. Essibrah is a teacher of the Word of God, an Intercessor and a Counsellor blessed, with a strong passion for gospel outreach and helping plant new churches as well as strengthen them. He grew up from the Grace Outreach Churches in Ghana under the able leadership of the general overseer Rev. Michael Essel. While in England, he graduated with a Master of Science degree in Information Technology in E-commerce and also a Master degree in Business Administration - MBA. During which period he served with the Strong Tower Parish (now called Chapel of His Glory under Pastor Dara Shofoluwe) of the Redeemed Christian Church of God - RCCG as a Minister-in-charge of the Youth ministry, Singers Ministry and the Outreach Ministry. After migrating to Canada, pastor Essibrah accepted and committed some time towards serving in the Rhema Assemblies of God Church where he was ordained a pastor assisting the

resident pastor Dr. Nana Dankwa. Through the leading of the Holy Spirit, as well as prophetic declaration, Pastor Essibrah was chosen to assist Pastor Olufunke Egbuedo in planting a new RCCG Parish – The Lord’s Cedar in Ontario Brampton. Pastor Essibrah is married to Edith Akweley Essibrah (Dear) and currently blessed with three children – Aseda, Adom and Nkunyim. Their first child Nhyira was called to be with the Lord at the age of two on the 10th of March 2002. He lives happily with his family in Canada

Honor to the Great Head of the Church A Transformational Model for Church Leadership, Administration, and Management This Volume One of the Transformational Church Administration Series is support for the organized church to stay on Christ’s message of redemption He has set for the church. Its purpose is to share passion for a committed focus on God’s ordained purpose and mission for His church. Church leaders are encouraged throughout the volume to adhere to theological principles for continued devotion to God’s one true mission. That message is that Christ is God’s mission. Christ is God’s only mission for the church, the people of God. The church exists only as it participates in the “act of Christ.” Chapter by chapter, the book communicates the necessity to intentionally combine God’s divine mission as presented from biblical theology with practical applications of organizational leadership and management. The critical shift with this book apart for other resources highlighting the works of church administration is the acknowledgements that for the church to remain under the Lordship of Christ; the church must be in a continued pursuit to seek Jesus the Christ in all engagements of worship, administration, management and service. The Lord’s purpose of redemption from sin and death has to remain front and central in every ministry, in all programmatic formats, and every service project represented by the church. God’s call to redeem lost man unto salvation and discipleship is highlighted as functions to be grounded through participation in

service models and organization. Learners come to view leadership and administration from a scriptural context. As a result, leadership theories and principles of management accurately operate with results that brings edification to the glory of God in all matters of church leadership for administration.

Understanding God's Will (Revised) John Wiley & Sons

The greatest advances in science and technology, ever in the history of mankind, have been made in the last 70 to 80 years. Despite all these advances, mankind has not been able to solve the problems of wars and violence, famine, incurable diseases, population explosion, etc. Humanity in general is ignorant of the knowledge of God's will, it lacks the missing link. Sadly, there are many Christians, some zealously serving in ministry, but yet; they are so much ignorant of God's will for their lives. This book provides the author's own experience of how he came to understand God's will for him in ministry; having served for almost 10 years then. Are you suffering from insecurity, sickness, disease, depression, or you feel so empty and unfulfilled? Do you find yourself in ministry and leadership and you think your choice was a mistake? Understanding God's Will is the place to begin. It will break the shackle of ignorance and limitation and send your life overflowing to fulfillment.

While many introductory public administration textbooks contain a dedicated chapter on ethics, The Public Administration Profession is the first to utilize ethics as a lens for understanding the discipline. Analyses of the ASPA Code of Ethics are deftly woven into each chapter alongside complete coverage of the institutions, processes, concepts, persons, history, and typologies a student needs to gain a thorough grasp of public service as a field of study and practice. Features include: A significant focus on ‘public interests,’ non-profit management, hybrid-private organizations, contracting-out and collaborations, and public service at the state and local levels. A careful examination the role that religion may play in public servants’ decision-making, as well as the un-ignorable and growing role that faith-based organizations play in public administration and non-profit management at large. End-of-chapter ethics case studies, key concepts and persons, and dedicated ‘local community action steps’ in each chapter. Appendices dedicated to future public administration and non-profit career management, writing successful papers throughout a student’s career, and professional codes of ethics. A comprehensive suite of online supplements, including: lecture slides; quizzes and sample midterm and final examinations for undergraduate and graduate courses containing multiple choice, true-false, identifications, and essay questions; chapter outlines with suggestions for classroom discussion; and suggestions for use of appendices, e.g. how to successfully write a short term paper, a brief policy memo, resume, or a book review. Providing students with a comprehensive introduction to the subject while offering instructors an elegant new way to bring ethics prominently into the curriculum, The Public Administration Profession is an ideal introductory text for public administration and public affairs courses at the undergraduate or graduate level. This is the second book in the series of books that we edit on the Management of Medical Technology (MMT) published by Kluwer Academic Publishers. The first book *Managing Technology in Health Care* offered a broad-brushed view of the topics involved in the new and exciting area of MMT that we have launched. A group of distinguished scholars contributed to the first book. While working on the first book in the series, and on a variety of articles in MMT, we began to realize that there is an urgent need for a comprehensive and highly focused book which will introduce and define the area of MMT. In addition, we had just completed the two studies of MMT in American hospitals, and had a magnificent database fully analyzed. With three months left in the first author's sabbatical, and thanks to the encouragement from our editor at Kluwer, Gary Folven, we took to the task of writing this book. The merging in this book of the description of a new intellectual space, and the write-up of the results from our MMT studies have created a unique blend of very attractive reading material. The reader will find this book to be a fascinating adventure into a newly-created area of intellectual endeavor, coupled with findings about how the health care delivery system manages technology. Regardless of the reader's background, this book will certainly be of interest, as it links the medical and business frameworks.

The Book of Discipline sets forth the plan by which we United Methodists govern ourselves. It reflects our understanding of the Church and of what is expected of its laity and clergy as they seek to be effective witnesses in the world as a part of the whole body of Christ. The Discipline includes our church Constitution, our history, our doctrinal standards, and our mission to make disciples of Jesus Christ, as well as practical processes through which our congregations connect and support each other to reach the world.

Creating Efficiency for Effective Ministry Peterson's

We are living through a digital revolution which already touches every area of life and will continue to shape the future in as yet unforeseen ways. Digital technologies are an ordinary part of daily life, and yet they also present an unprecedented challenge to Christians to articulate a biblical, theological framework to navigate times of rapid change. The work of the French theologian Jacques Ellul is a theological time-bomb primed for times like these. Accounts of Ellul's career often divide off his sociology and theology, but this book argues that Ellul conceived a single project of bringing technology into confrontation with the Word of God, tackling the phenomenon he named technique, the pursuit of maximal power and efficiency implicit in the technological enterprise, with a profound depth of biblical and ethical insight. Centering himself on the apocalypse or revelation of Jesus Christ in history, Ellul offers a monumental, timely (though far from flawless) contribution to contemporary ethical debates about the uses and abuses of technologies. His work blazes a trail that Christians and all concerned for the future would do well to follow, as we avoid both the naivety of "technological neutrality" and the dread of "technological determinism."

Russia is not only vast, it is also culturally diverse, the core of an empire that spanned Eurasia. In addition to the majority Russian Orthodox and various other Christian groups, the Russian Federation includes large communities of Muslims, Jews, Buddhists, and members of other religious groups, some with ancient historical roots. All are in a state of ferment, and securing formal state recognition for specific communities is often daunting. This collection provides entry into the diversity of Russia's religious communities. Marjorie Mandelstam Balzer's introduction to the volume illuminates major political, social, and cultural-anthropological trends. The book is organized by religious tradition or identity, with further thematic perspectives on each set of readings. The authors include ethnologists, sociologists, political analysts, and religious leaders from many regions of the Federation. They analyze the changing dynamics of religion and politics within each community and in the context of the current drive to recentralize both political and religious authority in Moscow. Topical coverage extends from reassertions of Russian Orthodoxy to activities of Christian and Muslim missionaries to the revival of many other religions, including indigenous shamanic ones.

Communication has become an important theme and heuristic concept in practical theology for Roman Catholics during the ecumenical age. *Communication Habits for the Pilgrim Church* explains why the moral order is given priority in Vatican teaching about communication and the reasons for Catholic social teaching to make moral judgments about these new realities. Attention is given in the book to the historical context of Vatican Councils I and II. The first chapter shows that behind the pilgrim Church lies an emerging vision of the threefold ecclesial offices of priest, prophet, and king. Chapter two examines the text and context of the Second Vatican Council's pastoral decree «*Inter Mirifica*». Chapter three provides a documented history of the Vatican's Pontifical Council for Social Communication and its teachings. In chapter four we return to the threefold office and examine the contribution of Pope John Paul II. It includes an analysis of how the

politics of the Magisterium shapes Catholic social teaching. Chapter five develops major tenets of a critical analysis of the communication of the post-Vatican II Church: attention is given to the discursive aspects of religious authority, argumentation, bureaucratization, and market culture. Chapter six takes a step toward examining the pragmatics of contemporary Vatican teaching. For Roman Catholic moral theology, religious ethics is now deeply concerned with providing moral teaching and guidance on ethical questions raised by the social conditions of globalization and media communication. *Communication Habits for the Pilgrim Church* concludes that there are three basic sociological and theological aspects of the pilgrim Church. These include a ritual approach to religious communication, the generational experience of Catholics and their respective attitudes toward Church teaching, and the important link in the faith's praxis between reflexivity and forming habits of communication.

What's new about this third edition of the long respected and often used *Church Administration Handbook*? In addition to time and technological-sensitive updates to the basic organizational details, editor Bruce Powers writes: "The needs of people and churches have continued to change, with questions now being raised about the quality of congregational life, nature of leadership, and responsibility for ministry among all believers . . . As we have prepared this edition, we have sought to address five primary needs. 1. Leadership skills and administrative tools that can be adapted for use in a variety of contexts from traditional to contemporary, from rural to urban, and from unicultural to multicultural settings; 2. Spiritual formation that relates to all of life (from birth to death); 3. Mission consciousness (in community, regionally, nationally, and globally); 4. Ministry of all believers (particularly calling out and equipping vocational, bivocational, and lay ministers); and 5. Leadership competence (the ability to inspire, motivate, and equip the saints for the work of ministry)."
