111.980 2295cc - Diesel CDI:4 Cal Types
611.980 2148cc |Owners edition. This
Owners Edition - Workshop Manual
covers the following Mercedes-Benz Vito
and V-Class petrol and diesel powered
vehicles spanning model years 2000 to
2003. The petrol model 113 with 130
b.h.p. engine (type 111) and the three
diesel models 108 CDI, 110 CDI and 112
CDI, all fitted with the latest common rail
2.2 litre diesel engines. Depending on
the version, the power units have
outputs of 82 b.h.p., 102 b.h.p. and 122
b.h.p. respectively. In Sections 0 and 1
can be found further details of the
various models and engines dealt with
here. This manual has been written for
the practical owner who wants to
maintain their vehicle in first-class
condition and carry out the bulk of their
own servicing and repairs.
Comprehensive step-by-step instructions
are provided for service and overhaul
operations to guide the reader through

what might otherwise be unfamiliar and
complicated tasks and hundreds of
illustrations are included to amplify the
text. With the aid of this manual, many
aspects of service, overhaul and repair
are within the scope of an owner with a
reasonable degree of mechanical
aptitude. Some operations however
demand more skill. Other jobs require
the use of special tools and in some
cases, testing facilities and techniques
that are not generally available. Only
you can judge whether a job is within
your capabilities. We do however try to
assist the reader to come to an informed
decision. Whilst every effort has been
made to ensure that the information
provided is correct, it is obviously not
possible to guarantee complete freedom
from errors or omissions. Information to
be found in the driver's handbook is not
necessarily duplicated here and it is not
possible within this volume to cover
every aspect to be found in the
manufacturer's own workshop manual
which is of much greater size and
complexity. However, it should be
consulted if more detailed information is
needed. Always remember that you are
responsible for your own safety and that
of others when working with you on a
vehicle. Take particular care with safety-
related systems like the brakes and
steering and seek professional advice if
in any doubt. Never work under a vehicle
unless it is properly supported (a single
jack is not enough). Take care with
power tools, also regard as potentially
harmful fuel, lubricants, solvents and
sealers which should always be stored in
labelled, sealed containers. Always
obtain your spare parts from an officially
appointed Mercedes-Benz dealer. With
care and common sense, the practical
owner can make an excellent job of
maintenance and overhaul. The benefits

include money saved and the satisfaction of work well done. You will be adding to your knowledge too, knowing more about the vehicle you own will help you to make logical decisions about what needs to be done, even if it does in some instances have to go into a professional repair shop. The Mercedes-Benz Vito and V-Class vehicles are built with care and precision. With regular care and maintenance they will provide long, reliable and faithful service.
