Excerpt from The Cruise of the Tomas Barrera: The Narrative of a Scientific Expedition to Western Cuba and the Colorados Reefs, With Observations on the Geology, Fauna, and Flora of the Region
 The following chapters are an expansion of a diary and field notes written every evening during our cruise. There are likely some errors in the conclusions set forth, for no student of nature is infallible. It is the province of each generation of naturalists to correct the mistakes of the past. To all the members of the expedition - especially to Dr. Carlos de la Torre - and to various specialists of the U. S. National Museum staff, I am indebted for valuable assistance. To Mr. C. T. Simpson I owe thanks for the identification of plants. Finally I wish to express my gratitude to Dr. Bartsch for his keen interest as well as his aid. The large amount of material collected by the expedition is now being critically studied and the results will eventually be published in the Smithsonian Reports. The Copelands did what many of us can only dream of -- one gloomy Canadian Winter they decided to pack up, rent out their home, buy a boat and go travelling. Liza, her husband Andy and their young children left their regular lifestyle to go sailing on their 40-foot boat 'Bagheera' for two years. They found their new life so exhilarating they stayed away for six years, completing a circumnavigation of the world and visiting 82 countries. This is the sequel to the best-selling 'Just Cruising'. Here their journey continues from Australia to Indonesia, Singapore, Malaysia, Thailand, The Andaman Islands, Sri Lanka, India, the Maldives, the Seychelles, down the East African coast to Madagascar, around the Cape of Good Hope, then back through the Caribbean and Cuba to Florida. Often sailing to remote and little known destinations, the book recounts some of the Copeland's richest, most exotic cruising and travelling adventures, including their greatest challenges at sea. It also includes a 'How-to' section and glossary.

Frank Virgintino, author of numerous Free Cruising Guides for the Caribbean, has been working on

"A Thinking Man's Guide to Voyaging South" for almost a year. Roughly 200 pages long, the Guide addresses everything North American sailors need to know to get to the Caribbean safely through a discussion of various routes from North America to the Caribbean as well as a discussion of the entire Caribbean - which the author breaks down into four quadrants. The author hopes that the Guide will allow for a clearer understanding of the entire Caribbean as well as the various routes that can be employed. Not only does it cover routes to the Caribbean from N. America and cruising routes around the Caribbean, it also looks at all aspects of preparation, weather and Gulf Stream information, safety and security and local knowledge and advice imparted by someone who has cruised the Caribbean extensively for many years.

Cruising Guide to Cuba Sheridan House, Inc.

Change looms in Havana, Cuba's capital, a city electric with uncertainty yet cloaked in cliché, 90 miles from U.S. shores and off-limits to most Americans. Journalist Julia Cooke, who lived there at intervals over a period of five years, discovered a dynamic scene: baby-faced anarchists with Mohawks gelled with laundry soap, whiskey-drinking children of the elite, Santería trainees, pregnant prostitutes, university graduates planning to leave for the first country that will give them a visa. This last generation of Cubans raised under Fidel Castro animate life in a waning era of political stagnation as the rest of the world beckons: waiting out storms at rummy hurricane parties and attending raucous drag cabarets, planning ascendant music careers and black-market business ventures, trying to reconcile the undefined future with the urgent today. Eye-opening and politically prescient, *The Other Side of Paradise* offers a deep new understanding of a place that has so confounded and intrigued us.

Cruising Cuba Imray

This book explores the lessons learned from half a century of Caribbean cruise tourism; one of the most popular and profitable sectors of the tourism industry. The modern-day cruise industry dates from the 1960s when the three major cruise lines, Carnival, Royal Caribbean, and Norwegian, set up shop in Florida and began selling winter cruises to the Caribbean targeting American retirees. For geopolitical reasons, the US initially excluded cruises to Cuba. This changed in 2016, following the historic Obama-Castro agreement to move towards diplomatic, trade and travel normalization. Cuba quickly became the Caribbean's fastest growing cruise destination. This book considers the limited economic benefits of cruise tourism, its environmental and social impacts, and the effects of climate change, and "overtourism." Based on this analysis and case studies of key Caribbean and Mediterranean destinations, this book cautions against overdependence on cruise tourism and outlines reforms needed to bring more benefits and equity to Caribbean countries. It will be valuable to professionals, businesses, development agencies, NGOs, and academics interested in a sustainable cruise industry and the economic well-being of Caribbean island nations.

WATERWAY GUIDE CUBA Bluewater Books & Charts

Change the world one trip at a time. In this illuminating collection of stories and lessons from the road, acclaimed travel writer Rick Steves shares a powerful message that resonates now more than ever. With the world facing divisive and often frightening events, from Trump, Brexit, and Erdogan, to climate change, nativism, and populism, there's never been a more important time to travel. Rick believes the risks of travel are widely exaggerated, and that fear is for people who don't get out much. After years of living out of a suitcase, he still marvels at how different cultures find different truths to be self-evident. By sharing his experiences from Europe, Central America, Asia, and the Middle East, Rick shows how we can learn more about our own country by viewing it from afar. With gripping stories from Rick's decades of exploration, this fully revised edition of *Travel as a Political Act* is an antidote to the current climate of xenophobia. When we travel thoughtfully, we bring back the most beautiful souvenir of all: a broader perspective on the world that we all call home. All royalties from the sale of *Travel as a Political Act* are donated to support the work of Bread for the World, a non-partisan organization working to end hunger at home and abroad.
