This comprehensive and authoritative resource provides full, unabridged text of the complete Internal Revenue Code in two volumes. CCH offers this tax information in a timely and reliable manner that business and tax professionals have come to expect and appreciate. This Summer Edition of Internal Revenue Code reflects all new statutory tax changes through June 2007. CCH's Internal Revenue Code is presented in a reader-friendly format, with an expanded page size and larger type fonts for enhanced readability. And, it features a two-volume format to allow for a more legible single-column presentation of the Code provisions themselves. Reproduced is the complete Internal Revenue Code dealing with income, estate, gift, employment, and excise taxes, along with all the procedural and administrative provisions. Current text of the statutes are presented, and a history of each tax code section, or subsection if appropriate, is provided in the amendment notes. The amendment notes specifically identify the changes made by prior Acts and serve as a means of reconstructing the former text of a Code section or subsection if reference to prior law is required. The detailed Topical Index located at the end of both volumes reflects all matters covered, so researchers can quickly pinpoint any information needed, and rate tables are also helpfully included. CCH's easy-to-use format featuring larger page size with larger type fonts for enhanced readability and its detailed amendment notes and accuracy have proven beneficial year after year. Serious tax professionals who rely on the Code in the normal course of their work know they can count on CCH's Internal Revenue Code over any other volumes available. The CCH Code is also great tool for students in tax courses who need the latest Code provisions, and it has served for decades as a useful tool for new hires and for firm-wide distribution. This bound set remains very popular as a must-have

desktop reference in the new millenium--even for professionals and firms with extensive electronic tax resources who value the print Code as an easy-to-access and easy-to-read complement to their electronic libraries.

Preface 2012 edition: The United States Code is the official codification of the general and permanent laws of the United States. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First session, enacted between January 3, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office. -- John. A. Boehner, Speaker of the House of Representatives, Washington, D.C., January 15, 2013--Page VII. For Use in Preparing ... Returns Amer Law Inst
