From the team that brought you *The Obstacle Is the Way* and *Ego*

Is the Enemy, a daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. The *Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

Change Your Schedule, Change Your Life Allen & Unwin

In *How to Be Miserable*, psychologist Randy Paterson outlines 40 specific behaviors and habits, which—if followed—are sure to lead to a lifetime of unhappiness. On the other hand, if you do the opposite, you may yet join the ranks of happy people everywhere! There are stacks upon stacks of self-help books that will promise you love, happiness, and a fabulous life. But how can you pinpoint the exact behaviors that cause you to be miserable in the first place? Sometimes when we're depressed, or just sad or unhappy, our instincts tell us to do the opposite of what we should—such as focusing on the negative, dwelling on what we can't change, isolating ourselves from friends and loved ones, eating junk food, or overindulging in alcohol. Sound familiar? This tongue-in-cheek guide will help you identify the behaviors that make you unhappy and discover how you—and only you—are holding yourself back from a life of contentment. You'll learn to spot the tried-and-true traps that increase feelings of dissatisfaction, foster a lack of motivation, and detract from our quality of life—as well as ways to avoid them. So, get ready to live the life you want (or not?) This fun, irreverent guide will light the way.

Mastering Your Time Farrar, Straus and Giroux

Is it possible that Americans have more free time than they did thirty years ago? While few may believe it, research based on careful records of how we actually spend our time shows that we average more than an hour more free time per day than in the 1960s. Time-use experts John P. Robinson and Geoffrey Godbey received national attention when their controversial findings were first published in 1997. Now the book is updated, with a new chapter that includes results of the 1995&-1997 data from the Americans' Use of Time Project. &"Time for Life, an outstanding work of scholarship that manages to be highly readable, demands the attention of everyone interested in what's happening in today's society.&" &—Edward Cornish, *The Futurist* &"Time for Life . . . is excellent fodder for lively classroom discussions, not only about family time use, but about the ontological and epistemological assumptions in the prevailing post-positivist paradigm of family science.&" &—Alan J. Hawkins and Jeffrey Hill, *Journal of Marriage and the Family* &"Regardless of where you stand on this issue, Robinson and Godbey's arguments and data make for very interesting reading and open a cultural window on American society. . . . This is a piece of scholarship that should be read and its conclusions contemplated by people well outside the readership of this journal. . . . Time for Life is good social science research that should appeal to a broad audience.&" &—*Journal of Communication*

The Daily Stoic Penguin

AN INSTANT NEW YORK TIMES BESTSELLER "Provocative and appealing . . . well worth your extremely limited time." —Barbara Spindel, *The Wall Street Journal* The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged with advice on becoming more productive and efficient, and "life hacks" to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on "getting everything done," *Four Thousand Weeks* introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we've come to think about time aren't inescapable, unchanging truths, but choices we've made as individuals and as a society—and that we could do things differently.

Take Back Your Time Gildan Media LLC aka G&D Media "This book will help you own your calendar, block time for what matters most and reclaim your life." —Paula Rizzo, author of *Listful Living: A List-Making Journey to a Less Stressed You* You want more time to spend with family, to achieve big goals, and to simply enjoy life. Yet, there seem to be more and more things competing for your time, and more distractions interrupting your day. Craig Jarrow has spent many years testing time management tactics, tools, and systems and written hundreds of articles on productivity, goals, and organization. Through it all he's learned a simple truth: Time management should be easy, not complicated and unwieldy. And it shouldn't take up more of your precious time than it gives back! *Time Management Ninja* offers 21 rules that will show you an easier and more effective way to take control of your time and manage your busy life. Follow these simple

principles and get more done with less effort. It's no-stress, uncomplicated time management that works. "Read this book, apply its rules, and you'll find freedom." —Hyrum Smith, bestselling author of *Purposeful Retirement*

Finding More Time in Your Life Zondervan
From the New York Times bestselling authors of *Sprint* comes "a unique and engaging read about a proven habit framework [that] readers can apply to each day" (*Insider*, Best Books to Form New Habits). "If you want to achieve more (without going nuts), read this book."—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, "The best way to spend this time is by cramming it full of meetings!" or got to work in the morning and thought, "Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned "design sprint," Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. *Make Time* is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. *Make Time* isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone

who has ever thought, "If only there were more hours in the day..." *Make Time* will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.
