Stibbe and the emotional resonance of Eleanor Oliphant Is Completely Fine. Martha Friel just turned forty. Once, she worked at Vogue and planned to write a novel. Now, she creates internet content. She used to live in a pied-à-terre in Paris. Now she lives in a gated community in Oxford, the only person she knows without a PhD, a baby or both, in a house she hates but cannot bear to leave. But she must leave, now that her husband Patrick—the kind who cooks, throws her birthday parties, who loves her and has only ever wanted her to be happy—has just moved out. Because there’s something wrong with Martha, and has been for a long time. When she was seventeen, a little bomb went off in her brain and she was never the same. But countless doctors, endless therapy, every kind of drug later, she still doesn’t know what’s wrong, why she spends days unable to get out of bed or alienates both strangers and her loved ones with casually cruel remarks. And she has nowhere to go except her childhood home: a bohemian (dilapidated) townhouse in a romantic (rundown) part of

London—to live with her mother, a minorly important sculptor (and major drinker) and her father, a famous poet (though unpublished) and try to survive without the devoted, potty-mouthed sister who made all the chaos bearable back then, and is now too busy or too fed up to deal with her. But maybe, by starting over, Martha will get to write a better ending for herself—and she’ll find out that she’s not quite finished after all.

“Remarkable . . . With this book [Wolitzer] has surpassed herself.”—The New York Times Book Review
“A victory . . . The Interestings secures Wolitzer's place among the best novelists of her generation. . . . She's every bit as literary as Franzen or Eugenides. But the very human moments in her work hit you harder than the big ideas. This isn't women's fiction. It's everyone's.”—Entertainm

ent Weekly (A) The New York Times–bestselling novel by Meg Wolitzer that has been called “genius” (The Chicago Tribune), “wonderful” (Vanity Fair), “ambitious” (San Francisco Chronicle), and a “page-turner” (Cosmopolitan), which The New York Times Book Review says is “among the ranks of books like Jonathan Franzen’s *Freedom* and Jeffrey Eugenides’ *The Marriage Plot*.” The summer that Nixon resigns, six teenagers at a summer camp for the arts become inseparable. Decades later the bond remains powerful, but so much else has changed. In *The Interestings*, Wolitzer follows these characters from the height of youth through middle age, as their talents, fortunes, and degrees of satisfaction diverge. The kind of creativity that is rewarded at age fifteen is not always enough to propel someone through life at age thirty; not everyone can sustain, in adulthood, what seemed so special in adolescence. Jules Jacobson, an aspiring comic actress, eventually resigns herself to a more practical occupation and lifestyle. Her friend Jonah, a gifted musician, stops playing the guitar and

becomes an engineer. But Ethan and Ash, Jules's now-married best friends, become shockingly successful—true to their initial artistic dreams, with the wealth and access that allow those dreams to keep expanding. The friendships endure and even prosper, but also underscore the differences in their fates, in what their talents have become and the shapes their lives have taken. Wide in scope, ambitious, and populated by complex characters who come together and apart in a changing New York City, *The Interestings* explores the meaning of talent; the nature of envy; the roles of class, art, money, and power; and how all of it can shift and tilt precipitously over the course of a friendship and a life.

The Washington Post • and more! One summer. Two rivals. A plot twist they didn't see coming... Nora Stephens' life is books—she's read them all—and she is not that type of heroine. Not the plucky one, not the laidback dream girl, and especially not the sweetheart. In fact, the only people Nora is a heroine for are her clients, for whom she lands enormous deals as a cutthroat literary agent, and her beloved little sister Libby. Which is why she agrees to go to Sunshine Falls, North Carolina for the month of August when Libby begs her for a sisters' trip away—with visions of a small town transformation for Nora, who she's convinced needs to become the heroine in her own story. But instead of picnics in meadows, or run-ins with a handsome country doctor or bulging-forearmed bartender, Nora keeps bumping into Charlie Lastra, a bookish brooding editor from back in the city. It would be a meet-cute if not for the fact that they've met many times and it's never been cute. If Nora knows she's not an ideal heroine, Charlie knows he's nobody's hero, but as they are thrown together

again and again—in a series of coincidences no editor worth their salt would allow—what they discover might just unravel the carefully crafted stories they've written about themselves. *MEG: Purgatory* Pinnacle Books

In this fifth installment of the New York Times bestselling MEG series, *Nightstalkers* picks up where *MEG: Hell's Aquarium* left off. Bela and Lizzy, the dominant Megalodon siblings from Angel's brood, have escaped the Tanaka Institute to roam the Salish Sea in British Columbia. While Jonas Taylor and his friend Mac attempt to either recapture or kill the "sisters," Jonas's son, David, embarks on his own adventure, motivated by revenge. Having witnessed his girlfriend's gruesome death, David has joined a Dubai Prince's ocean expedition, tracking the 120-foot, hundred-ton Liopleurodon that escaped from the Panthalassa Sea. Haunted by night terrors, David repeatedly risks his life to lure the Lio and other prehistoric sea creatures into the fleet's nets, while battling his own suicidal demons. Steve Alten weaves these storylines

together in a page-turning thriller that culminates in a final showdown between the most dangerous predators ever to inhabit the planet. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Meg Movie Tie In

HarperCollins

Thirteen-year-old Natalie Gallagher is trying to escape: from her parents' ugly divorce, and from the vicious cyber-bullying of her former best friend.

Adrift, confused, she is a girl trying to find her way in a world that seems to either neglect or despise her. Her salvation arrives in an unlikely form:

Bridget O'Connell, an Irish maid working for a wealthy Boston family.

The catch? Bridget lives only in the pages of a dusty old 1920s diary Natalie unearthed in her mother's basement. But

the life she describes is as troubling -- and mysterious -- as the one Natalie is trying to navigate herself, almost a century later. I am writing this down because this is my story. There were only ever two people who knew my secret, and both are gone before me. Who was Bridget, and what became of her? Natalie escapes into the diary, eager to unlock its secrets, and reluctantly accepts the help of library archivist Kathleen Lynch, a widow with her own painful secret: she's estranged from her only daughter. Kathleen sees in Natalie traces of the daughter she has lost, and in Bridget, another spirited young woman at risk. What could an Irish immigrant domestic servant from the 1920s teach them both? As the troubles of a very modern world close in around them, and Natalie's torments at school escalate, the faded pages of Bridget's journal unite the lonely girl and the unhappy widow . . . and might even change their lives forever.

Kwan Wilson was a high school basketball star living in San Diego when a tragic accident changed his life in ways no one

could predict. He only looked at his phone for a few seconds, but that was all the time it took to crash his car into a telephone pole, the impact killing his mother while severing his spinal cord and paralyzing him from the waist down. After the accident his father, Admiral Douglas Wilson, sends him away to live with his maternal grandmother in South Florida. Kwan's new principal, anticipating his depression and isolation, tells him about an internship working at a genetics lab in Miami that's testing shark stem cells on rats in an effort to cure cancer and repair spinal injuries. Kwan declines—until he learns the beautiful Anya Patel is an intern at the lab. The good news is that the stem cells are curing their rat subjects; the bad news is it alters their DNA so much it kills them. When a promising breakthrough is made, Kwan risks his life and injects himself with the experimental stem cells—altering his destiny and the lives of millions in the process.

Both suspenseful and deeply moving, *Carolina Moonset* is an engrossing novel about family, memories both golden and terrible, and secrets too dangerous to stay hidden forever, from New York Times bestselling and Emmy Award-winning author, Matt Goldman. Joey Green has returned to Beaufort, South Carolina, with its palmettos and shrimp boats, to look after his ailing father, who is succumbing to dementia, while his overstressed mother takes a break. Marshall Green's short-term memory has all but evaporated, but, as if in compensation, his oldest memories are more vivid than ever. His mind keeps slipping backwards in time, retreating into long-ago yesterdays of growing up in Beaufort as a boy. At first this seems like a blessing of sorts, with the past providing a refuge from a shrinking future, but Joey grows increasingly anxious as his father's hallucinatory arguments with figures from his youth begin to hint at deadly secrets, scandals, and suspicions long buried and forgotten. Resurfacing from decades past are mysteries that still have the power to

shatter lives—and change everything Joey thought he knew. Especially when a new murder brings the police to his door... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Turnout Tor Books
The author's tribute to the 18th-century New England farmhouse she called home: "[A] tender and often poignant book by a woman of many insights" (The New York Times Book Review). In *Plant Dreaming Deep*, Sarton shares an intensely personal account of transforming a house into a home. She begins with an introduction to the enchanting village of Nelson, where she first meets her house. Sarton finds she must "dream the house alive" inside herself before taking the major step of signing the deed. She paints the walls white in order to catch the light and searches for the precise shade of yellow for the kitchen floor. She discovers peace and beauty in solitude, whether she is toiling in the garden or writing at her desk. This is a loving, beautifully crafted memoir illuminated by themes of friendship, love, nature, and the struggles of the creative life. This ebook features an extended biography of May Sarton.
