"Mary Ellen Mark fell in love with the Indian circus in 1969, during her first trip to India. As she watched a huge hippopotamus walk around the ring with its mouth wide open, wearing a pink tutu, she was struck by the beauty and innocence of the show. She returned to India many times, and in 1989 and 1990 she devoted six months to photographing eighteen circuses, following them around the continent by train, plane, van, and auto-rickshaw. Secretive, highly competitive, and each a closed, self-sufficient society, the circuses embody what Mark calls "a poetry and a craziness that are still uncorrupted, and honest, and pure.""

"Beautifully printed in tritone, this remarkable collection of photographs captures the texture of circus life outside of the ring - exhausting, humorous, poignant, and often bizarre - as well as the affection and devotion that the performers have for each other and their animals." "Indian Circus is documentary photography at its finest. The photographs are not only compelling portraits of the performers, but also eloquent and poetic narratives about life in the Indian circus."--BOOK JACKET. A Passage to America: Notes of an Adopted Son is an anecdotal autobiography of Prof. Joseph M. Cheruvellil, a naturalized citizen of the United States. Submerged in this long narrative is a social history of three

generations from British subjects in India to Baby Boomers and Millennials in America. Prof. Cheruvellil, who taught many years at St. Johns University in New York, is a Catholic in religion, a Hindu in culture, a conservative in politics, and an eclectic in taste. The book abounds with succinct comments on the major issues and potentates of the world from a global perspective.

Education is its primary theme, geography and history its guides, and myths and legends its images.

Ritual Art of India Chronicle Books (CA) Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the

Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th and 23rd respectively, of every month, from Prasanthi Nilayam. This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language THUS SPAKE SAI... Discoursing during the launch of Sanathana Sarathi... From this day, our Sanathana Sarathi will lead to victory the cohorts of truth - the Vedas, the Sastras and similar scriptures of all faiths, against the forces of the ego such as injustice, falsehood, immorality and cruelty. This is the reason why it has emerged. This Sarathi will fight in order to establish world prosperity. It is bound to sound the paean of triumph when universal Ananda is achieved.

Where the Rain is Born Routledge
This book studies digital feminist activism in contemporary India. It provides a close and comprehensive analysis of the postmillennial digital moment in India which has given rise to new modes of women's digital dissent. The volume examines how anti-rape narratives, Feminichy scandals, #MeToo

movements, and menstrual activisms, amongst a host of other performative feminist dissent and their discursive medialities create 'affective digital feminisms' which both break with and continue the residual and emergent practices within feminisms in India. It looks at digital womanspeak from India and focuses on vernacular forms of dissent, through which the author aims to decolonize feminist imaginaries from their moorings in the West. The author explores new digital, cultural, and social geographies where politically untamed women use their precarity to unsettle deep sexist structures and mount a gendered critique of the political economy of the nation state. An important contribution to the study of feminism in India, the volume will be useful for students and researchers of gender and women's studies, cultural studies, digital sociology, intersectional feminism, transnational feminism, digital humanities, and South Asian studies. It will also be appeal to readers interested in the history of women's dissent in India.

This edited volume represents a joint effort by international experts to analyze the prevalence and nature of gender-based domestic violence across the globe and how it is dealt with at both national and international levels. With studies being conducted in 20 different countries and 4 distinct regions, the contributors to this volume shed light on the ways in which contextual particularities shape the practices and strategies of addressing the socio-

cultural and legal problem of gender-based domestic violence in the countries or regions where they do research. Special attention is devoted to developing countries where there is a lack of a consistent legal definition of gender-based domestic violence and where violence against women is widely considered a private matter. The authors of the chapters share a common goal of raising public awareness of the significance in nuanced local experiences of women and other individuals from gender and sexual minority groups facing gender-based violence. Furthermore, the authors attend, analytically, to the newly emerging, overlapping influences of COVID-19 and global warming. Their research findings acknowledge and provide a detailed account of how the two ecological and socio-economic crises can combine to produce economic devastation, disconnect victims from necessary social services and assistance, and create a large degree of panic and uncertainty. In addition, they intend to offer insights into next steps to not only adjust existing public policies, legislation, and social services to the ever-changing national and global contexts, but also to make new ones. The book is intended for a wide range of scholars (both professors and students) and practitioners in a large number of areas, including but not limited to criminal justice, criminology, law, human rights, social justice, social work, nursing, sociology, and political or public affairs.

There are tons of seminars, books, and movies on how to become a millionaire! I am happy that the book has come among them to become a good manager. Along with making a homegrown manager, this book also fulfills the need of the individual, society, and the country. The book has presented many topics that can make any person's life successful like 'How long to protest?' 'Don't lose your temper on the job!' 'Whoever comes into the team is the best; how to extract the best from him?' Simple sentences like 'bringing your work in front of the senior officer without arrogance,' etc. destroy the prejudice by

shaking the mind. Without 'Desi Manager', India cannot make a permanent place in the leading economic countries of the world. This is the demand of today's time and as long as there is a demand for managers, the book will be required.

In a coastline as long and diverse as India's, fish inhabit the heart of many worlds — food of course, but also culture, commerce, sport, history and society. Journeying along the edge of the peninsula, Samanth Subramanian reports upon a kaleidoscope of extraordinary stories. In nine essays, *Following Fish* conducts rich journalistic investigations: among others, of the famed fish treatment for asthmatics in Hyderabad; of the preparation and the process of eating West Bengal's prized hilsa; of the ancient art of building fishing boats in Gujarat; of the fiery cuisine and the singular spirit of Kerala's toddy shops; of the food and the lives of Mumbai's first peoples; of the history of an old Catholic fishing community in Tamil Nadu; of the hunt for the world's fastest fish near Goa. Throughout his travels, Subramanian observes the cosmopolitanism and diverse influences absorbed by India's coastal societies, the withdrawing of traditional fishermen from their craft, the corresponding growth of fishing as pure and voluminous commerce, and the

degradation of waters and beaches from over-fishing. Pulsating with pleasure, adventure and discovery, and tempered by nostalgia and loss, *Following Fish* speaks as eloquently to the armchair traveler as to lovers of the sea and its lore.

Based on a large number of interviews with women politicians of many generations and women who have entered the three-tier Panchayati Raj institutions since the mid-1990s in Kerala, this book tries to initiate fresh debate on the impact of the large-scale induction of women into the institutions of local self-government in India. The State of Kerala has been hailed as a success story in accommodating gender concerns in local-level planning and political decentralisation; this conclusion has been based on relatively simple evaluative exercises that ask whether women of diverse backgrounds have gained entry into formal institutions of governance or not. This book seeks to place political decentralisation and its possibilities for women within the historical and contemporary contexts. Against the popular assumption that the liberal feminist promise made by the state will be delivered, say, once the noxious influence of male relatives is removed, the book points to the multiple social forces that shape possibilities and hindrances for women, and reshape gender divisions in the political field. The book thus pays attention to women in both local governance and politics. Secondly, it examines how women have utilised, extended, survived within or subverted these spaces. In the present context in which fifty per cent of the seats in the institutions of local self-government are being reserved for women, and there exists considerable skepticism about reservations for women in the Parliament, this book offers reflections on both local governance and 'high' politics. Photography's prominence in the representation and experience of India in contemporary and historical times has not guaranteed it a position of sustained attention in research and scholarship. For a technology as all pervasive as photography, and a country as colossal as India, this scenario is somewhat of an anomaly. Photography in India explores elements of the past, present and future of photography in the context of India through speculation and reflection on photography as an artistic, documentary and everyday practice. The perspectives of writers, theorists, curators and artists are selectively brought to bear upon known as well as previously unseen photographic archives, together with changes in photographic practice that have been synchronous with contemporary India's rapid urban and rural transformation and the technological shift from chemistry and light to programming and algorithms. Essential reading for anyone interested in Indian photography, this book binds insights into a history of photography

with its contemporary development, consolidating wide-ranging thinking on the topic and setting the agenda for future research.
