Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. Covering the essentials of fund accounting, this flexible book introduces the reader to the basic accounting principles at work in both governmental and not-for-profit organizations. This brief book divides most of the chapters into independent sections, which may be covered as separate units. The information on state and local government financial reporting has been updated for coverage of the new financial reporting model, the reporting entity, and financial condition analysis. New examples have been added to more clearly describe the nature of lease accounting. The module on pension trust funds has been rewritten to reflect new GASB pronouncements in a simpler format. New material was added on the measurement of pension costs and other post-employment benefits. For accountants wishing to increase or refresh their knowledge of government and not-for-profit accounting or public budgeting.

Using a consistent, logical, and step-by-step approach, **MEDICAL TERMINOLOGY: A LIVING LANGUAGE**, 5/e introduces students to the anatomy and physiology of body systems and the corresponding medical terms related to them. For each body system, broad coverage of anatomy, physiology, pathology, diagnostic procedures, treatment procedures, and pharmacology is provided. The author emphasizes both terms built from Latin and Greek word parts, and modern English terms, helping students develop a full working word part vocabulary they can use to interpret any new term. This edition contains many new terms, and has been reorganized for more efficient learning. To eliminate confusion, Word Building tables have been removed from each chapter and the terms have been distributed throughout the pathology, diagnostic procedure, and treatment procedure tables, where they are more immediately relevant to students.
