The Manual No Real Guy Should Be
Without Motor oil, beer, and charcoal--
that's what real men are made of. A real
man should be able to swap out the car's
spark plugs and change its oil as his
freshly caught fish smokes on open flame--
all while shotgunning a beer. For how-to
instructions on these and other equally

manly activities, you need How to Back Up
a Trailer. It's the ultimate guide to
everything you better know how to do, like
rotate your car's tires and change its
brake pads, swing a bat like a homerun
hitter, build and light a campfire during a
rainstorm, install an electrical outlet in
your home, and tap a keg for the perfect
beer flow. Read it. Learn it. Live it. With
How to Back Up a Trailer, you'll never have
to stop and ask for directions again.

Packed with full-color illustrations and photos, it covers all the basics: from individual explanations of the boat, trailer, and towing vehicle to a complete discussion of how they work together. You'll find out about common problems and how to anticipate the things that can--and sometimes will--go wrong. There's an on-the-road checklist, information on maintenance, and advice on accessories. With this knowledge, you'll be able to boat safely and efficiently wherever a launch ramp's available.

Official Gazette of the United States Patent Office Rod Young

"After five decades, twenty books, and countless columns, [John Gierach] is still a master," (Forbes) and his newest book only confirms this assessment, along with his recent induction into the Flyfishing Hall of Fame. In *A Fly Rod of Your Own*, Gierach brings his ever-sharp sense of humor and keen eye for observation to the fishing life and, for that matter, life in general. Known for his witty, trenchant observations about fly-fishing, Gierach's "deceptively laconic

prose masks an accomplished storyteller...his alert and slightly off-kilter observations place him in the general neighborhood of Mark Twain and James Thurber" (Publishers Weekly). *A Fly Rod of Your Own* transports readers to streams and rivers from Maine to Montana, and as always, Gierach's fishing trips become the inspiration for his pointed observations on everything from the psychology of fishing ("Fishing is still an oddly passive-aggressive business that depends on the prey being the aggressor"); why even the most veteran fisherman will muff his cast whenever he's being filmed or photographed; the inevitable accumulation of more gear than one could ever need ("Nature abhors an empty pocket. So does the tackle industry"); or the qualities shared by the best guides ("the generosity of a teacher, the craftiness of a psychiatrist, and the enthusiasm of a cheerleader with a kind of Vulcan detachment"). As Gierach likes to say, "fly-fishing is a continuous process that you learn to love for its own sake. Those who fish already get it, and those who don't couldn't care less, so don't waste your breath on someone who

doesn't fish." *A Fly Rod of Your Own* is an ode to those who fish that "brings a skeptical, wry voice to the peril and promise of twenty-first-century fishing" (Booklist).
