intertwines
the subjects of
dental
hygiene and
dental therapy
to provide a
comprehensiv
e resource for

students of
these courses,
as well as
those studying
new degree
programmes
in oral health
science. The
Clinical
Textbook of
Dental
Hygiene and
Therapy is
designed as a

dedicated companion text for these disciplines and should enable students to streamline their primary reading. Following course developments and an expansion in the remit of both hygienists and therapists, this book is written not only for students, but also as a revision aid for those already in practice. Interactive questions on a companion website allow the reader to

test their knowledge and understanding. The opening section of the book is dedicated to relevant oral sciences: anatomy; histology; embryology; oral medicine and pathology. The clinical section contains fourteen chapters which provide coverage of the core syllabus for dental hygiene and therapy. The final section is dedicated to primary dental care services

and law, ethics and professionalism. FEATURES

- Provides unique combined coverage of the subjects of dental hygiene and dental therapy
- Emphasises the clinical domain and reflects role expansion
- Highly illustrated in full colour throughout
- Includes expert contributions from dental hygienists, therapists, and dentists
- Dedicated companion website at www.wiley.co
