By examining nearly sixty works, Fabienne Moore traces the prehistory of the French prose poem, demonstrating that the disquiet of some eighteenth-century writers with the Enlightenment gave rise to the genre nearly a century before it is habitually supposed to have existed. In the throes of momentous scientific, philosophical, and socioeconomic changes, Enlightenment authors turned to the past to revive sources such as Homer, the pastoral, Ossian, the Bible, and primitive eloquence, favoring music to construct alternatives to the world of reason. The result, Moore argues, were prose poems, including Flon's *Les Aventures de*

Tmaque, Montesquieu's *Le Temple de Gnide*, Rousseau's *Le Lte d'Ephraïm*, Chateaubriand's *Atala*, as well as many lesser-known texts, most of which remain out of print. Moore's treatment of Bible criticism and eighteenth-century religious reform movements reveal the often-neglected spiritual side of Enlightenment culture, and tracks its contribution to the period's reflection about language and poetic invention. Moore includes in appendices four unusual texts adjudicating the merits of prose poems, making evidence of their controversial nature now accessible to readers.

The ultimate reference for Triumph lovers and fans of British motorcycles, *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019.

Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various

iterations, went on to build some of the most iconic motorcycles of all time. Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* also features important non-production models and factory racing and

speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan should be without!

The Triumph Motor Company is known around the world for its iconic sports cars. The hugely popular TR

series, Spitfires, and GT-6s represent the quintessential British sports car; rugged good looks were combined with performance and economy at a price everyone could afford. These sports cars are always in demand and prized by British car collectors, racers, and open-air motoring enthusiasts. Triumph understood the connection between competition success and sales success and was able to parlay rally and road racing wins into the best-selling sports cars in the world, particularly in the United States during the 1950s and 1960s. The Works competition cars notched victories at Le Mans, Sebring, the Monte Carlo rally, and many others and

inspired privateers to take their cars to the track. Every model came from a bloodline of racing. Triumph historian G. William Krause reviews every model in the sports car lineup. He covers the history, design evolution, and performance specifications from the first sports cars in the 1930s through the final cars built in 1981. Throughout Triumph's history a number of pivotal moments could have significantly changed the company's fortunes. This book also looks at the "what if" cars that never made it into production, including photos. Although they have not been built for more than three decades, their mark on sports car history is undeniable. Whether

you're a fan of the spartan brutes of the 1950s or the refined comfort and performance of the last TRs, you will find the backstory of your favorites here. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}
