This book reports findings of a three-nation study of public relations and communication management sponsored by the International Association of Business Communicators (IABC) Research Foundation. The Excellence Study provides communication managers and public relations practitioners with information critical to their own professional growth, and supplies organizations with tools that help them communicate more effectively and build beneficial relations with key publics. Communication excellence is a powerful idea of sweeping scope that applies to all organizations -- large or small -- that need to communicate effectively with publics on whom the organization's survival and growth depend. The essential elements of excellent communication are the same for corporations, not-for-profit organizations, government agencies, and professional/trade associations. And they are applicable on a global basis. The study identifies three spheres of communication excellence. These spheres consider the overall function and role of communication in organizations, and define the organization of this book. They are: \* the core or inner sphere of communication excellence -- the knowledge base of the communication department, \* the shared expectations of top communicators and senior managers about the function and role of communication, and \* the organization's culture -- the larger context that either nurtures or impedes communication excellence. This text also examines communication excellence as demonstrated in specific programs developed for specific publics.

Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis,

however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. World Development Report 2020: Trading for Development in the Age of Global Value Chains examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.

Revisi RPJMA untuk Rasionalisasi Target Pencapaian target adalah variabel terpenting dalam pembangunan. Penetapan target-target ini, sebagaimana termaktub dalam struktur dokumen perencanaan mulai dari RPJP, RPJMA, hingga Rencana Kerja (Renja), adalah proyeksi keberhasilan pembangunan yang harus diupayakan tercapai oleh SKPA sesuai dengan tupoksinya masing-masing. Sebagai proyeksi yang inheren dalam proses perencanaan pembangunan, maka tentu target-target pembangunan ini ditetapkan sebagai gambaran ideal. Ia menjadi ideal untuk dicapai dan diwujudkan untuk memastikan bahwa pembangunan berhasil membawa perubahan atau kemajuan ke arah yang lebih baik. Namun tentu dinamika pembangunan pada kenyataannya sering membawa implikasi perlunya langkah-langkah penyesuaian terhadap target-target capaian ini agar lebih achievable. Inilah dasar pikir perlunya dilakukan revisi terhadap target-target pembangunan Aceh sebagaimana termaktub dalam dokumen Rencana Pembangunan Jangka Menengah Aceh (2012-2017) dan yang tertera dalam Qanun Aceh No. 12 Tahun 2013. Ini adalah proses yang normal dan menjadi bagian dari evaluasi tahunan terhadap pencapaian target RPJMA. Ketika dinilai tidak mencapai target, maka perlu dievaluasi untuk dikaji ulang dan direvisi dengan target dan angka-angka yang lebih realistis tentu dengan melihat dan mempertimbangkan sumberdaya dan kemampuan yang kita miliki. Revisi RPJMA Aceh (2012-2017) di sisi lain sesungguhnya juga tidak dapat dipisahkan dari transisi pemerintahan di tingkat nasional yang kemudian melahirkan program atau kebijakan pembangunan baru yang menuntut penyesuaian di tingkat daerah-daerah. Jika kita bicara dasar hukum, maka langkah revisi ini sudah sesuai dengan Permendagri No. 54 Tahun 2010 Tentang Pelaksanaan Peraturan Pemerintah No. 8 Tahun 2008 Tentang Tahapan, Tatacara Penyusunan, Pengendalian, dan Evaluasi Pelaksanaan Rencana Pembangunan Daerah. Pada tahap selanjutnya hasil revisi akan disepakati bersama-sama antara eksekutif dan legislatif untuk kemudian ditetapkan dengan qanun.

Pancasila sebagai ideologi dan pandangan hidup bangsa, merupakan mahakarya Ir. Sukarno yang telah mengalami pengendapan selama beberapa dekade. Buku ini merupakan kumpulan berbagai pokok pikiran Bung Karno mengenai substantif Pancasila, yang beliau telah pikirkan sejak menjadi tapol di era kolonial. Intinya, Pancasila adalah titik keseimbangan antara ilmu dan amal, antara nasionalisme dan internasionalisme, antara asas demokrasi dan musyawarah/mufakat, serta antara pembangunan dan keadilan sosial. Uraian Bung Karno dalam buku ini membawa kita kepada pemahaman yang jernih dan hakiki mengenai cara bangsa Indonesia hidup di masa lalu, masa kini dan masa depan.

We are proudly presenting the proceedings of the 2nd International Conference on Social Sciences 2019 (ICSS 2019). It has focus on the relation of governance and sustainable development. The issue of governance, politics, policy and sustainable development is important today. Not only globally, but also Indonesia nationally to the local level. There are several important issues relating to this, both institutionally and the relationships between individuals and groups in supporting the agenda of sustainable development. More than 100 manuscripts were presented at this conference with more than 50 of them selected to be published in proceedings. We hope by this conference, discussions on the importance of sustainable development will increasingly become an important concern together. Brings better response from the government and social relations for development.

This book is the final product of the "excellence project"--a comprehensive research effort commissioned by the International Association of Business Communicators (IABC) Research Foundation. Going well beyond any of the previously published reports on the Excellence study, this book contains many new statistical analyses of the survey data and more details from the case studies. Discussing theory and data related to several ongoing discussions in the communication profession, this book answers the following questions: \*How can we show the value of public relations? \*What is the value of relationships? \*How do relationships affect reputation? \*What does it mean to practice communication strategically? \*How can we measure and evaluate the effects of public relations programs? \*Should communication programs be integrated? \*How does the new female majority in the profession affect communication Excellence? This book, as well as the research it reports, is the product of symmetrical communication and collaboration. As such, it is intended for scholars, applied researchers, students, and informed professionals who understand the value of research in developing a profession, such as public relations. Knowledge of quantitative and qualitative research methods will make it easier to understand the book; however, the results are interpreted in a way that makes the analyses understandable even to those with little or no knowledge of statistics and research methods.

This book begins with a review of 'decentralisation' in schools, highlighting the problem of how to increase school-level autonomy while ensuring an orderly delivery of high quality education for a whole country that is equitable across geographic, socioeconomic and cultural divisions. Case studies of school-based managed models in six countries are described, focusing on a radical system in place in Victoria, Australia. Leadership is a key function in school management reform, especially with respect to the delegation of financial management.

Scouting for Boys: A handbook for instruction in good citizenship is a book on Boy Scout training, published in various editions since 1908. Early editions were written and illustrated by Robert Baden-Powell with later editions being extensively rewritten by others. The book was originally a manual for self-instruction in observation, tracking and woodcraft skills as well as self-discipline and self-improvement, about the Empire and duty as citizens with an eclectic mix of anecdotes and unabashed personal observations and recollections. It is pervaded by a degree of moral proselytizing and references to the author's own exploits. It is based on his boyhood experiences, his experience

with the Mafeking Cadet Corps during the Second Boer War at the Siege of Mafeking, and on his experimental camp on Brownsea Island, England.
