ASHLEY ACEVEDO

The Power Broker Penguin

Merchant, industrialist and explorer Trassan Kressind has an audacious plan – combining the might of magic and iron in the heart of a great ship to navigate an uncrossed ocean, seeking the city of the extinct Morfaan to uncover the secrets of their lost sciences. Ambition runs strongly in the Kressind family, and for each of Trassan's siblings fate beckons. Soldier Rel is banished to a vital frontier, bureaucrat Garten balances responsibility with family loyalty, sister Katriona is determined to carve herself a place in a world of men, outcast Guis struggles to contain the energies of his soul, while priest Aarin dabbles in forbidden sorcery. The world is in turmoil as new money brings new power, and the old social order crumbles. And as mankind's arts grow stronger, a terror from the ancient past awakens... This highly original fantasy depicts a unique world, where tired gods walk industrial streets and the tide's rise and fall is extreme enough to swamp continents. Magic collides with science to create a rich backdrop for intrigue and adventure in the opening book of this epic saga.

How to Plan & Build Bookcases, Cabinets & Shelves Houghton Mifflin Harcourt

Introduces principles of desk and bookcase design, shows how to make drawers, pigeonholes, tambours, secret compartments, shelves and doors,

and suggests a variety of projects.

F. D. R. City Lights Books

Freedom Libraries: The Untold Story of Libraries for African-Americans in the South. As the Civil Rights Movement exploded across the United States, the media of the time was able to show the rest of the world images of horrific racial violence. And while some of the bravest people of the 20th century risked their lives for the right to simply order a cheeseburger, ride a bus, or use a clean water fountain, there was another virtually unheard of struggle—this one for the right to read. Although illegal, racial segregation was strictly enforced in a number of American states, and public libraries were not immune. Numerous libraries were desegregated on paper only: there would be no cards given to African-Americans, no books for them read, and no furniture for them to use. It was these exact conditions that helped create Freedom Libraries. Over eighty of these parallel libraries appeared in the Deep South, staffed by civil rights voter registration workers. While the grassroots nature of the libraries meant they varied in size and quality, all of them created the first encounter many African-Americans had with a library. Terror, bombings, and eventually murder would be visited on the Freedom Libraries—with people giving up their lives so others could read a library book. This book delves into how these libraries were the heart of the Civil Rights Movement, and the remarkable courage of the people who used them. They would forever change libraries and librarianship, even as they helped the greater movement change the society these libraries belonged to. Photographs of the libraries bring this little-known part of American history to life.

The Bell Tolls for No One Rodale Books

The audacious first novel from the award-winning and bestselling author of *Boy, Snow, Bird* and *What Is Not Yours Is Not Yours* • “Oyeyemi brilliantly conjures up the raw emotions and playground banter of childhood. . . . A masterly first novel.”—The New York Times Book Review “Remarkable. . . . As original as it is unsettling, *The Icarus Girl* runs straight at the heart of what it means to belong.”—O, The Oprah Magazine Jessamy “Jess” Harrison, age eight, is the child of an English father and a Nigerian mother. Possessed of an extraordinary imagination, she has a hard time fitting in at school. It is only when she visits Nigeria for the first time that she makes a friend who understands her: a ragged little girl named TillyTilly. But soon TillyTilly’s visits become more disturbing, until Jess realizes she doesn’t actually know who her friend is at all. Drawing on Nigerian mythology, Helen Oyeyemi presents a striking variation on the classic literary theme of doubles — both real and spiritual — in this lyrical and bold debut.

Tomorrowland Basic Books

Whether you're building from scratch or installing straight from the store, this is the only book you'll need to make sure your shelves, cabinets, and built-ins look professional and well integrated in your home or office. First you have to know what you want. An amazing photo gallery helps you with that decision. Then you'll find an overview of the tools, materials, and techniques you'll be using. From here, you'll go one of two ways—building them yourself or installing ready-mades—and this book gives equal attention to both. Step-by-step instructions guide you through the installation process so your ready-made shelves look like they were created by a custom carpenter. For the do-it-yourself builder, there's more than enough guidance to make shelves and cabinets that could earn the praise of a master craftsman. Whichever way you choose, instructions are illustrated with color photographs and diagrams. Projects include entertainment centers and bookshelves, plus kitchen, bathroom, and utility room storage cabinets.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Newsweek/The Daily Beast • The Huffington Post • Kansas City Star • Time Out New York • Kirkus Reviews This extraordinary collection of personal correspondence has all the hallmarks of Kurt Vonnegut’s fiction. Written over a sixty-year period, these letters, the vast majority of them never before published, are funny, moving, and full of the same uncanny wisdom that has endeared his work to readers worldwide. Included in this comprehensive volume: the letter a twenty-two-year-old Vonnegut wrote home immediately upon being freed from a German POW camp, recounting the ghastly firebombing of Dresden that would be the subject of his masterpiece *Slaughterhouse-Five*; wry dispatches from Vonnegut’s years as a struggling writer slowly finding an audience and then dealing with sudden international fame in middle age; righteously angry letters of protest to local school boards that tried to ban his work; intimate remembrances penned to high school classmates, fellow veterans, friends, and family; and letters of commiseration and encouragement to such contemporaries as Gail Godwin, Günter Grass, and Bernard Malamud. Vonnegut’s unmediated observations on science, art, and commerce prove to be just as inventive as any found in his novels—from a crackpot scheme for manufacturing “atomic” bow ties to a tongue-in-cheek proposal that publishers be allowed to trade authors like baseball players. (“Knopf, for example, might give John Updike’s contract to Simon and Schuster, and receive Joan Didion’s contract in return.”) Taken together, these letters add considerable depth to our understanding of this one-of-a-kind literary icon, in both his public and private lives. Each letter brims with the mordant humor and openhearted humanism upon which he built his legend. And virtually every page contains a quotable nugget that will make its way into the permanent Vonnegut lexicon. • On a job he had as a young man: “Hell is running an elevator throughout eternity in a building with only six floors.” • To a relative who calls him a “great literary figure”: “I am an American fad—of a slightly higher order than the hula hoop.” • To his daughter Nanny: “Most letters from a parent contain a parent’s own lost dreams disguised as good advice.” • To Norman Mailer: “I am cuter than you are.” Sometimes biting and ironical, sometimes achingly sweet, and always alive with the unique point of view that made him the true cultural heir to Mark Twain, these letters comprise the autobiography Kurt Vonnegut never wrote. Praise for Kurt Vonnegut: Letters “Splendidly assembled . . . familiar, funny, cranky . . . chronicling [Vonnegut’s] life in real time.”—Kurt Andersen, The New York Times Book Review “[This collection is] by turns hilarious, heartbreaking and mundane. . . . Vonnegut himself is a near-perfect example of the same flawed, wonderful humanity that he loved and despaired over his entire life.”—NPR “Congenial, whimsical and often insightful missives . . . one of [Vonnegut’s] very best.”—Newsday “These letters display all the hallmarks of Vonnegut’s fiction—smart, hilarious and heartbreaking.”—The New York Times Book Review

Bookshelf Design Taunton Press

The completely revised "All New Built-Ins Idea Book" showcases a wide range of built-in and storage possibilities. A handy visual clip file, it's full of fresh ideas for creating rooms that are both functional and stylish.

[Trust Me, I'm Lying](#) Random House Digital, Inc.

The cult classic that predicted the rise of fake news—revised and updated for the post-Trump, post-Gawker age. Hailed as “astonishing and disturbing” by the Financial Times and “essential reading” by TechCrunch at its original publication, former American Apparel marketing director Ryan Holiday’s first book sounded a prescient alarm about the dangers of fake news. It’s all the more relevant today. *Trust Me, I’m Lying* was the first book to blow the lid off the speed and force at which rumors travel online—and get “traded up” the media ecosystem until they become real headlines and generate real responses in the real world. The culprit? Marketers and professional media manipulators, encouraged by the toxic economics of the news business. Whenever you see a malicious online rumor costs a company millions, politically motivated fake news driving elections, a product or

celebrity zooming from total obscurity to viral sensation, or anonymously sourced articles becoming national conversation, someone is behind it.

Often someone like Ryan Holiday. As he explains, “I wrote this book to explain how media manipulators work, how to spot their fingerprints, how to fight them, and how (if you must) to emulate their tactics. Why am I giving away these secrets? Because I’m tired of a world where trolls hijack debates, marketers help write the news, opinion masquerades as fact, algorithms drive everything to extremes, and no one is accountable for any of it. I’m pulling back the curtain because it’s time the public understands how things really work. What you choose to do with this information is up to you.”

na Simon and Schuster

Having the right storage for your home is as important as having the right furniture or the right curtains. It's this behind-the-scenes design and organization that, ultimately, creates a stylish, peaceful, and organized space. This book presents inventive strategies for planning, designing, and organizing your storage in all the crucial areas including family rooms, kids' rooms, and home offices. Fast fixes, storage tricks, and Feng Shui principles all help to get your storage right.

PULITZER PRIZE WINNER • A modern American classic, this huge and galvanizing biography of Robert Moses reveals not only the saga of one man’s incredible accumulation of power but the story of his shaping (and mis-shaping) of twentieth-century New York. One of the Modern Library’s hundred greatest books of the twentieth century, Robert Caro’s monumental book makes public what few outsiders knew: that Robert Moses was the single most powerful man of his time in the City and in the State of New York. And in telling the Moses story, Caro both opens up to an unprecedented degree the way in which politics really happens—the way things really get done in America’s City Halls and Statehouses—and brings to light a bonanza of vital information about such national figures as Alfred E. Smith and Franklin D. Roosevelt (and the genesis of their blood feud), about Fiorello La Guardia, John V. Lindsay and Nelson Rockefeller. But *The Power Broker* is first and foremost a brilliant multidimensional portrait of a man—an extraordinary man who, denied power within the normal framework of the democratic process, stepped outside that framework to grasp power sufficient to shape a great city and to hold sway over the very texture of millions of lives. We see how Moses began: the handsome, intellectual young heir to the world of Our Crowd, an idealist. How, rebuffed by the entrenched political establishment, he fought for the power to accomplish his ideals. How he first created a miraculous flowering of parks and parkways, playlands and beaches—and then ultimately brought down on the city the smog-choked aridity of our urban landscape, the endless miles of (never sufficient) highway, the hopeless sprawl of Long Island, the massive failures of public housing, and countless other barriers to humane living. How, inevitably, the accumulation of power became an end in itself. Moses built an empire and lived like an emperor. He was held in fear—his dossiers could disgorge the dark secret of anyone who opposed him. He was, he claimed, above politics, above deals; and through decade after decade, the newspapers and the public believed. Meanwhile, he was developing his public authorities into a fourth branch of government known as “Triborough”—a government whose records were closed to the public, whose policies and plans were decided not by voters or elected officials but solely by Moses—an immense economic force directing pressure on labor unions, on banks, on all the city’s political and economic institutions, and on the press, and on the Church. He doled out millions of dollars’ worth of legal fees, insurance commissions, lucrative contracts on the basis of who could best pay him back in the only coin he coveted: power. He dominated the politics and politicians of his time—without ever having been elected to any office. He was, in essence, above our democratic system. Robert Moses held power in the state for 44 years, through the governorships of Smith, Roosevelt, Lehman, Dewey, Harriman and Rockefeller, and in the city for 34 years, through the mayoralties of La Guardia, O’Dwyer, Impellitteri, Wagner and Lindsay. He personally conceived and carried through public works costing 27 billion dollars—he was undoubtedly America’s greatest builder. This is how he built and dominated New York—before, finally, he was stripped of his reputation (by the press) and his power (by Nelson Rockefeller). But his work, and his will, had been done.

[Incredible Hulk](#) C&T Publishing Inc

In this fresh, fun, and unique book, design consultant and Today show lifestyle expert Elizabeth Mayhew shares essential insider tips for making any space stylish and timeless in a snap. Forget expensive fixes or labor-intensive endeavors, Flip! for Decorating can show you how to redecorate with what you have on hand, or with the simple purchases you’ll need to create the room of your dreams. Flip through the upper right hand pages, and watch four rooms receive an instant makeover! Inside you’ll discover: • step-by-step instructions for decorating the four most commonly used rooms: living room, dining room, family room, and bedroom • the fundamentals of color, including no-fail wall and trim colors, when to use wallpaper instead of paint, and the facts on different paint finishes • the ways to treat a window, from Venetian blinds and Roman shades to simple curtains—and the secrets to making a window appear taller or wider • the art of picking the perfect sofa, chairs, tables, and lighting • strategies on how to prioritize your decorating decisions Flip! for Decorating also features time-saving “reality checks,” handy shopping tips, and easy and informative sidebars that will give you instant solutions if you’re stumped, stymied, or need to add a quick jolt of style to virtually any room in your home. With this amazing, practical book, decorating is so easy you’ll flip!

The Icarus Girl Penguin

From the self-illustrated, unpublished work written in 1947 to hardboiled contributions to 1980s adult magazines, *The Bells Tolls for No One* presents the entire range of Bukowski’s talent as a short story writer, from straight-up genre stories to postmodern blurring of fact and fiction. An informative introduction by editor David Stephen Calonne provides historical context for these seemingly scandalous and chaotic tales, revealing the hidden hand of the master at the top of his form. “The uncollected gutbucket ramblings of the grand dirty old man of Los Angeles letters have been gathered in this characteristically filthy, funny compilation . . . Bukowkski’s gift was a sense for the raunchy absurdity of life, his writing a grumble that might turn into a belly laugh or a racking cough but that always throbbed with vital energy.”—Kirkus Reviews Born in Andernach, Germany, and raised in Los Angeles, Charles Bukowski published his first story when he was twenty-four and began writing poetry at the age of thirty-five. His first book of poetry was published in 1959; he would eventually publish more than forty-five books of poetry and prose. He died of leukemia in San Pedro, California on March 9, 1994. David Stephen Calonne is the author of several books and has edited three previous collections of the uncollected work of Charles Bukowski for *City Lights*: *Absence of the Hero*, *Portions from a Wine-Stained Notebook*, and *More Notes of a Dirty Old Man*.

Taunton's All New Built-ins Idea Book Marvel

In Volume One of the Authors' Snarkopaedia, sentences have been painstakingly crafted together using nouns, verbs and other words, bringing you paragraphs of text. These paragraphs flow into pages of expert tips, advice and insight for authors at all levels of the publication food chain. Any book can claim to offer this type of information, but they can't give you what sets the Indies Unlimited Authors' Snarkopaedia above the rest: the "je ne sais squat" of the high decorated staff of the Snarkology Department at the Indies Unlimited Online Academy. Their groundbreaking and empirical research over the years sheds new and snarkified light on subjects ranging from book publishing and marketing to the nuts and bolts of writing and technology. If you like information to grab you by the throat and smack you in the face, the Indies Unlimited Authors' Snarkopaedia is the reference book for you.

Bruce Banner attempts to find some peace in the isolated interior of Alaska, where humanity is safe from the Hulk's rampages. It seems to be working--until Nick Fury shows up with a proposition that Banner just can't turn down.

My Ideal Bookshelf Macmillan

Bookshelves in the Age of the COVID-19 Pandemic provides the first detailed scholarly investigation of the cultural phenomenon of bookshelves (and the social practices around them) since the start of the pandemic in March 2020. With a foreword by Lydia Pyne, author of *Bookshelf* (2016), the volume brings together 17 scholars from 6 countries (Australia, Canada, Germany, the Netherlands, the UK, and the USA) with expertise in literary studies, book history, publishing, visual arts, and pedagogy to critically examine the role of bookshelves during the current pandemic. This volume interrogates the complex relationship between the physical book and its digital manifestation via online platforms, a relationship brought to

widespread public and scholarly attention by the global shift to working from home and the rise of online pedagogy. It also goes beyond the (digital) bookshelf to consider bookselling, book accessibility, and pandemic reading habits.

Flip! for Decorating Sendpoints

In this collection of 25 articles from *Fine Homebuilding* and *Fine Woodworking*, America's most accomplished carpenters and woodworkers contribute their advice on building sturdy cabinets, built-ins, and bookcases.
