BURNS STERLING

City of Dragons Springer

February, 1940. In San Francisco's Chinatown, fireworks explode as the city celebrates Chinese New Year with a Rice Bowl Party, a three day-and-night carnival designed to raise money and support for China war relief. Miranda Corbie is a 33-year-old private investigator who stumbles upon the fatally shot body of Eddie Takahashi. The Chamber of Commerce wants it covered up. The cops acquiesce. All Miranda wants is justice--whatever it costs. From Chinatown tenements, to a tattered tailor's shop in Little Osaka, to a high-class bordello draped in Southern Gothic, she shakes down the city--her city--seeking the truth. An outstanding series debut.

Babel Panpac Education Pte Ltd

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive

and relevant.

Continued Rise of the Cloud Arkose Press

This book captures the state of the art in cloud technologies, infrastructures, and service delivery and deployment models. The work provides guidance and case studies on the development of cloud-based services and infrastructures from an international selection of expert researchers and practitioners. Features: presents a focus on security and access control mechanisms for cloud environments, analyses standards and brokerage services, and investigates the role of certification for cloud adoption; evaluates cloud ERP, suggests a framework for implementing “big

data” science, and proposes an approach for cloud interoperability; reviews existing elasticity management solutions, discusses the relationship between cloud management and governance, and describes the development of a cloud service capability assessment model; examines cloud applications in higher education, including the use of knowledge-as-a-service in the provision of education, and cloud-based e-learning for students with disabilities.
