KAISER SPENCE

Popular Mechanics Dorrance Publishing
 The Cold War between the USA and Cuba gets very hot — and sexy — in José Latour's latest gripping and atmospheric thriller. In the rest of the world, the Cold War is over, but the one between the United States and Cuba is kept stoked by both governments — and by the spies they keep in business. Colonel Victoria Valiente, one of the most respected officers in the General Directorate of Intelligence, is the Havana-based spymaster of greater Miami. An apparently faithful servant of the revolution, she is middle-aged, frumpy, with an IQ off the charts and a libido to match. But her husband has convinced her that Castro's regime is corrupt and moribund, and that they must defect. Buoyed by \$2.7 million that he steals electronically and salts away in an online bank, the couple sails to Key West. They have no idea that the FBI is on to them. The G-men have coerced Elliot

Steill, a Cuban exile living in Miami (and the hero of Latour's previous novel, *Outcast*), into betraying his former compadres. This crafted, erotically charged novel culminates in an electrifying showdown, offering an inside view into the regime's darkest corners while shedding light on contemporary Cuba.

National Automotive Sampling System Crashworthiness Data Systems, 1993-1995 Lulu.com

A bewitching memoir about the lures, torments, and rewards of making and performing music in the indie rock world Dean Wareham's seminal bands Galaxie 500 and Luna have long been adored by a devoted cult following and extolled by rock critics. Now he brings us the blunt, heartbreaking, and wickedly charismatic account of his personal journey through the music world—the artistry and the hustle, the effortless success and the high living, as well as the bitter pills and self-inflicted wounds. It captures, unsparingly, what has happened to the entire ecosystem of popular music over a time of radical change, when categories such as "indie" and "alternative" meant nothing to those creating the music, but everything to the major labels

willing to pay for it. Black Postcards is a must-have for Wareham's many fans, anyone who has ever been in a band, or the listeners who have taken an interest in the indie rock scene over the last twenty years.

Chevrolet Astro & GMC Safari Boating4x4x, Pickups, and Vans Buying Guide 1995

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

2000- Haynes Manuals N. America, Incorporated

The Verge of Psychosis is a look into the uncovered diary of delusional aspiring actor Trott Felipe, who chronicles his first year in Hollywood, pursuing his dream. Unfortunately, he's a \$%#*&^@ idiot. Trott's story starts off like that of any other aspiring-actor-moving-from-Iowa-to-Hollywood-type. You know stapling headshots to trees in Studio Exec's neighborhoods, attending mobile acting classes on short school buses, getting assaulted for wearing camouflage, and getting kicked out of Lakers games. But what makes Trott stand out in a crowd? Well nothing really, except for his mind, but not in a good way. Trott's driven, yet clueless. He's outgoing, yet totally secluded. How do you become secluded in Hollywood you ask? Trott finds a way, just as he does with everything in life. But unfortunately, with all of the compromising, "open-mindedness" and talking to inanimate objects, he doesn't realize he is slowly slipping into psychosis...and things could turn fatal...for everybody.
