Patriots of African Descent in the Revolutionary War

Courier Corporation
Re-engaging the
African Diasporas: Pan-
Africanism in the Age
of Globalization is the
second volume in the
Kwame Nkrumah
International
Conference series, and
brings together twenty
selected papers
presented at the Third
Kwame Nkrumah
International
Conference held at
Kwantlen Polytechnic
University on August
19-21, 2014. Two
premises inform this
volume: (1) If the

history of slavery and its vestiges divided and continue to divide the continent and its Diasporas, modern technology should be harnessed to bridge that divide, and (2) the continent's development is a boon to the development of what the African Union has dubbed Africa's "Sixth Region". The book threads together papers that seek to give academic and intellectual impetus to tie the continent's development to that of the African Diaspora. The goal is to end the inertia and inward-looking on the part of scholars and academics in both Africa and "African International" or "Global Africa," and re-engage one another in more productive ways. By harnessing the

enormous resources available in our internet age and riding the cresting wave of globalization, the task of re-engagement will be vastly enhanced, and the debates and discussions in this volume will serve to facilitate this re-engagement. A main highlight of the conference was a special tribute to Nelson Mandela to honour his death in December, 2013 and celebrate 20 years of South African independence. In these papers, scholars examine Mandela's role in the transition of South Africa from a racist state to a democratic nation. They critically examine how the ANC's policies have impacted post-Apartheid South Africa and question what

alternatives remain for the future.

To date, war history has focused predominantly on the efforts of and impact of war on male participants. However, this limited focus disregards the complexity of gendered experiences with war and the military. The Oxford Handbook of Gender, War, and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of military culture, examining the varied ideals and practices that have socially differentiated men and women's wartime experiences. Covering the major periods in

warfare since the seventeenth century, The Handbook explores cultural representations of war and the interconnectedness of the military with civil society and its transformations.

From the publishing house that brought you the Who Was? books comes the next big series to make history approachable, engaging, and funny! The Thrifty Guide to the American Revolution provides useful information for the practical time traveler, like: • Where can I find a decent hotel room in colonial New England? Are major credit cards accepted? • How do I join the Boston Tea

Party without winding up in a British prison? • How can I score a lunch with Alexander Hamilton? This guide answers these fiery, burning questions with the marshmallows of information. There is handy advice on how to join Paul Revere's spy ring at the Green Dragon Tavern, how to enlist in General Washington's rebel army, and how to summon the strength to storm a British gun battery when you haven't eaten for three days. If you had a time travel machine and could take a vacation anywhere in history, this is the only guidebook you would need!

The Oxford Handbook of Contemporary Middle-Eastern and North African History critically examines the defining processes and structures of historical developments in North Africa and the Middle East over the past two centuries. The Handbook pays particular attention to countries that have leapt out of the political shadows of dominant and better-studied neighbours in the course of the unfolding uprisings in the Middle East and North Africa. These dramatic and interconnected developments have exposed the dearth of informative analysis available in surveys and textbooks, particularly on Tunisia, Libya, Yemen, Bahrain and Syria.

Running from Bondage tells the compelling stories of enslaved women, who comprised one-third of all runaways, and the ways in which they fled or attempted to flee bondage during and after the Revolutionary War. Karen Cook Bell's enlightening and original contribution to the study of slave resistance in eighteenth-century America explores the individual and collective lives of these women and girls of diverse circumstances, while also providing details about what led them to escape. She demonstrates that there were in fact two wars being waged during the Revolutionary Era: a political revolution for

independence from Great Britain and a social revolution for emancipation and equality in which Black women played an active role. Running from Bondage broadens and complicates how we study and teach this momentous event, one that emphasizes the chances taken by these 'Black founding mothers' and the important contributions they made to the cause of liberty.

Handbook of

Revolutionary China

covers the evolution of

Chinese society from

the roots of the

Republic of China in

the early 1900s until

the end of the Cultural Revolution in 1976. The chapters in this volume explain aspects of the process of revolution and how people adapted to the demands of the revolutionary situation. Exploring changes in political leadership, as well as transformation in culture, it compares the differences in experiences in urban and rural areas and contrasts rapid changes, such as the war with Japan and Communist 'liberation' with evolutionary developments, such as the gradual redefinition of public space. Taking a comprehensive approach, the themes covered include: • War, occupation and liberation • Religion and gender • Education, cities and travel. This is an

essential resource for students and scholars of Modern China, Republican China, Revolutionary China and Chinese Politics.

The war of the American Revolution Oxford University Press

Many children do not know that African indentured servants, as well as free blacks and slaves, all assisted in the founding of our nation. There were

between 5,000 to 20,000 patriots of African and Native American descent who served in the Continental Forces under the command of General George Washington. The stunning new picture book *Patriots of African Descent in the Revolutionary War: Part 1* is historical fiction, told by the family historian to his great-grandson about their family's military and patriotic service as African-Americans during the Revolutionary War. The two are direct descendants of two patriots. One was a free black man, Sergeant Isaac Brown, who served in the 7th, 11th and 15th Virginia Regiments of the Continental Line. Readers ages

eight and older will be fascinated as they learn about our country's forgotten patriots. Marion T. Lane is a retired public school educator. Originally from Philadelphia, she now resides in Bucks County, Pennsylvania. Her next book is titled *More Than One Ancestry*. "I am one of the few African-American members of the National Society of the Daughters of the American Revolution and the Society of Descendants of Washington's Army at Valley Forge." Military Science for Revolutionaries Lulu Press, Inc

A Guide to the Battles of the American Revolution is the first comprehensive account of every engagement of the Revolution, a war that began with a brief skirmish at Lexington Green on April 19, 1775, and concluded on the battlefield at the Siege of Yorktown in October 1781. In between were six long years of bitter fighting on land and at sea. The wide variety of combats blanketed the North American continent from Canada to the Southern colonies, from the winding coastal lowlands to the Appalachian Mountains, and from the North Atlantic to the Caribbean. Unlike existing accounts, A Guide to the Battles of the American

Revolution presents each engagement in a unique way. Each battle entry offers a wide and rich but consistent template of information to make it easy for readers to find exactly what they are seeking. Every entry begins with introductory details including the date of the battle, its location, commanders, opposing forces, terrain, weather, and time of day. The detailed body of each entry offers both a Colonial and British perspective of the unfolding military situation, a detailed and unbiased account of what actually transpired, a discussion of numbers and losses, an assessment of the consequences of the battle, and suggestions for further reading.

Many of the entries are supported and enriched by original maps and photos. Fresh, scholarly, informative, and entertaining, A Guide to the Battles of the American Revolution will be welcomed by historians and general enthusiasts everywhere.

"While New Englanders like to think of the American Revolution as 'their' war, more battles for colonial independence were fought in South Carolina than in any other area. This nicely crafted work is a guide

to 45 engagements waged in the Palmetto State."--James I. Roberston, Jr., author of *Civil War Sites in Virginia: A Tour Guide and Stonewall Jackson: The Man, The Soldier, The Legend* Did you know that more Revolutionary War battles took place in South Carolina than in any other state? Approximately 250 armed conflicts took place in the Palmetto State, though some historians estimate that figure to be closer to 300. *South Carolina's Revolutionary War Battlefields* takes you to the very spot where some of the most pivotal and exciting engagements occurred. See Hanging Rock, where a thirteen-year-old Andrew Jackson served as

messenger, and the former Waxhaws settlement, where the British colonel Banastre Tarleton massacred the surrendering Patriots. Visit Camden, Cowpens, and Kings Mountain, considered three of the most decisive battles of the Revolutionary War. Each of this guide's 45 chapters focuses on a single battle, giving precise directions for driving and hiking to the site. After a description of the action, a summary lists the commanders' names and the number of fatalities and casualties on both sides.

The revolution in Nicaragua was unique in that a large percentage of the

combatants were women. The Role of Female Combatants in the Nicaraguan Revolution and Counter Revolutionary War is a study of these women and those who fought in the Contra counter revolution on the Atlantic Coast. This book is a qualitative study based on 85 interviews with female ex-combatants in the revolution and counter revolution from the 1960s to the end of the 1980s, as well as field observations in Nicaragua and the autonomous regions of the Atlantic Coast. It explores the reasons why women fought, the sacrifices they made, their treatment by male combatants, and their insights into the impact of the revolution and counter-revolution on today's

Nicaragua. The analytical approach draws from political psychology, social identity dynamics such as nationalism and indigenous identities, and the role of liberation theology in the willingness of the female revolutionaries to risk their lives. Researchers and students of Gender Studies, Latin American and Latino Studies, and Political History will find this an illuminating account of the Nicaraguan Revolution and counter revolution, which until now has been rarely shared. *A Revolutionary Tactic of Urban Terrorism* Courier Corporation
A new biography of Ghana's Kwame Nkrumah, one of the most influential political figures in

twentieth-century African history. As the first prime minister and president of the West African state of Ghana, Kwame Nkrumah helped shape the global narrative of African decolonization. After leading Ghana to independence in 1957, Nkrumah articulated a political vision that aimed to free the country and the continent—politically, socially, economically, and culturally—from the vestiges of European colonial rule, laying the groundwork for a future in which Africans had a voice as equals on the international stage. Nkrumah spent his childhood in the maturing Gold Coast colonial state. During the interwar and wartime periods he was studying in the

United States. He emerged in the postwar era as one of the foremost activists behind the 1945 Manchester Pan-African Congress and the demand for an immediate end to colonial rule. Jeffrey Ahlman's biography plots Nkrumah's life across several intersecting networks: colonial, postcolonial, diasporic, national, Cold War, and pan-African. In these contexts, Ahlman portrays Nkrumah not only as an influential political leader and thinker but also as a

charismatic, dynamic, and complicated individual seeking to make sense of a world in transition.
