HVAC Equations, Data,  
and Rules of Thumb  
presents a wealth of  
state-of-the-art HVAC  
design information and  
guidance, ranging from air  
distribution to piping  
systems to plant  
equipment. This popular  
reference has now been  
fully updated to reflect  
the construction  
industry's new single body

of codes and  
standards.HVAC  
Equations, Data, and  
Rules of Thumb, 2nd Ed.In  
the sample office building  
above, you would use the  
110,000 ft2 value in the  
HVAC Rule of Thumb  
Calculator. If you have  
multiple floors, then add  
up all the air conditioned  
area for all floors and  
insert a single number for  
the HVAC Building Area  
value. The floor input is  
only used to calculate
