 From 1760 to 1869, four generations of one family from the Scottish Highlands sought their fortunes in the service of the East India Company. As they worked their way up through the ranks of the empire, the Baillie family

left numerous footprints in India and recorded their fascinating experiences in letters sent home to Scotland. Drawing on thorough research of the military, political, and economic events of the eighteenth and nineteenth centuries and an extensive collection of family letters that depict the lives and personalities of his ancestors, Alexander Charles Baillie brings the history of

British India to life. The compelling documents, lost for over a century with many reproduced here, reveal changing race relations and social attitudes, cultural tensions, military and civilian battles, economic pressures, and the rise and decline of the East India Company. The book focuses especially on two members of the family – William of Dunain, a military officer, and

John of Leys, a civil servant – whose numerous adventures and misadventures impart provocative clues about the workings of the empire and the daily lives of its most influential figures. An exciting, invaluable, and personalized glimpse into the past of India, Scotland, and the East India Company, *Call of Empire* will appeal to genealogy enthusiasts and social and

global historians. The Little Green Book of Irish Wisdom Skyhorse Publishing, Inc. Championship Extemping shares with aspiring extemp champions and their coaches the substance, style, and strategies the author used as he twice became a National Forensics League National Finals speaker in international extemp. This comprehensive guide to the NFL event of

extemp speaking is structured like an extemp speech. The introduction presents the author's extemp philosophy and thesis. The first main chapter concerns the substance of extemp, including analysis, thesis formation, and speech organization. It describes the types of knowledge requisite for championship extemping and presents best extemp practices as to research,

sourcing, and filing. In the second main chapter, the author addresses extemp stylistics, both presentation skills and artistic elements. This chapter includes a comprehensive discussion of speech "canning." It also includes the author's successful strategy for placing as a Nationals finalist. The third chapter presents strategies for all three levels of speech competition: local, national

circuit, and championship; this section and the appendices are crammed with specific, practical advice for speakers and coaches, including detailed indexes for extemp filing and the addresses to numerous relevant Websites. The conclusion makes sweeping suggestions for possible reforms of the event as currently practiced in the NFL. *Guerrilla Marketing for*

Writers Xlibris Corporation Ghosts of Newport plumbs the depths of Newport's history and reveals a host of chilling tales in which fact and folklore intertwine. Today's Newport attracts countless visitors from around the world; its streets are alive with art, culture, wealth and beauty. Yet the city harbors echoes of a dark and turbulent past, including a

variety of haunted sites: the Jailhouse Inn, Astor's Beechwood, the White Horse Tavern--America's oldest tavern--and many more. These stories show a side of Newport that history books alone could never tell, and help you peer past the city's gilded façade to discover dark secrets sure to spook and surprise. **The Leader on the Couch** iUniverse The Fourth Day is about multiple murders on the PGA Tour;

murders that have gone unsolved until Jim Balfour becomes obsessed with finding answers. A former Tour player, Balfours search leads him to suspect a serial killer is walking the fairways and he makes it his mission to convince the authorities he is right. When Balfours meddlesome actions become a threat to the killer and the lifestyle he loves, he retaliates as only he can. The retaliation

and its fallout far exceeds any and all of Balfours naive expectations. The Fourth Day deals with the pursuit of closure its costs and its implications. **Championship Extemping** Simon and Schuster Stem cells are the building blocks for all other cells in an organism. The human body has about 200 different types of cells and any of those cells can be produced by a stem cell. This fact emphasizes the

significance of stem cells in transplantatio nal medicine, regenerative therapy and bioengineerin g. Whether embryonic or adult, these cells can be used for the successful treatment of a wide range of diseases that were not treatable before, such as osteogenesis imperfecta in children, different forms of leukemias, acute myocardial infarction, some neural damages and diseases, etc.

Bioengineering, e.g. successful manipulation of these cells with multipotential capacity of differentiation toward appropriate patterns and precise quantity, are the prerequisites for successful outcome and treatment. By combining in vivo and in vitro techniques, it is now possible to manage the wide spectrum of tissue damages and organ diseases. Although the

stem-cell therapy is not a response to all the questions, it provides more and more answers every day. Stem Cells and Tissue Engineering is a concise review on the functional, phenotypic, regenerative, transplantational and curative aspects of a stem cell's entity. It is critical and encouraging at the same time, providing truthful and appropriate samples from the practice

and research that can lead toward optimal use of this immense source of adjuvant and curative therapy in human pathology. Written by a clinician and a researcher, who are currently teaching what they are doing, it is recommended as a teaching tool along with an original textbook. *The Man on the Roman Candle* S. Chand Publishing Two irrepensible young U.S.

Navy carrier pilots, while flying a night combat mission over the Adriatic Sea, (circa 2007), are struck by lightning and subsequently collide. One ejects from his stricken airplane and the other ditches his in the water. They wash ashore separately and reunite the following day on a wild Albanian mountainside. In the ensuing week they are pursued by an Albanian Army search party while a U.S.

Navy SEAL Team, operating from a submarine, tries to rescue them. The first rescue attempt succeeds but only because one of the pilots sacrifices himself by drawing fire from the Albanian forces. He is captured in the shoot-out. The second rescue attempt is successful and the two battle-hardened young men redeem themselves by their heroic actions. For

their efforts they receive a field promotion at a special Whitehouse award ceremony. *Kempo-Jitsu Pre 1900 Martial Art* Lulu.com "If we could have scored one more run than the White Sox in each game, I think we would have won the series"---so opined Boston manager Terry Francona. Sharp observations such as this have brightened the Red Sox

Nation through the years. "All literary men are Red Sox fans," said John Cheever. And while the Red Sox made it to the top of the baseball world in 2004 after a long and tortured history, presidential hopeful John Kerry remarked, "If anything prepares you to be president, it's being a Red Sox fan"--- even though he ultimately failed to reach his goal. The franchise that has gone from dynasty to

dud and back to dynasty has inspired its share of comments from pundits and wisecrackers, legends and toffs. And the Sox have had their own world-class quipsters and philosophers, from Cy Young, Bill Lee, and Ted Williams to Jimmy Piersall and Manny Ramirez. Collected here are the best-known, wittiest, pithiest, and most entertaining writings, quotes, and quips relating

to the Red Sox, accompanied by a rich collection of historic and modern photographs. [Breakthrough Power for Christians: A Daily Guide to an Extraordinary Life](#) Author House Alice Chesterfield is a woman pursued. Having survived an attack that left her scarred and her father dead, she is never free from the fear and memories of the man who is responsible.

Texas seems to be an answer to Alice's prayers, and when she has the opportunity to relocate to a ranch near Dallas, Robert Barnett captures her attention. Unlike any man Alice has ever known, Robert doesn't worry about the obstacles that stand in their way--and he hardly seems to notice the scar she bears. But there are storm clouds gathering; devastating information

about her family comes to light, threatening Alice's peaceful sanctuary. Disillusioned, Alice must learn to place her trust in God as she seeks a measure of peace for her future...and for her heart. *A Moment in Time (Lone Star Brides Book #2)* David Young Are upstart competitors taking deadly aim at your company's products and markets? Richard A. D'Aveni, author of the

famous attacker's handbook Hypercompetition, presents counterrevolutionary strategies and tactics that any industry leader or established company can use to defend itself against revolutionaries, disrupters, or hypercompetitors. The secret lies in making the rules, not breaking them, D'Aveni says, because rule makers still rule. Arguing that "profits and prosperity

come not from revolution but stability and orderly change," D'Aveni presents a commanding framework that will enable any resource-rich or clever defender to gain Strategic Supremacy by being first to define the playing field. D'Aveni demonstrates how global powerhouses such as Disney, Microsoft, and Procter & Gamble have achieved preeminence by reconceptualiz

ing their product portfolios as powerful competitive arsenals he calls "spheres of influence." Essentially a new way to compete by restructuring portfolios around a core geographic/pr oduct market, spheres enable any company to influence the behavior and positioning of rivals. In immensely readable prose, D'Aveni describes how prevailing spheres of influence can be used to create legal

business equivalents to a "concert of powers" and other industry structures that mix cooperation with competition. Just one of the potent functions of a corporate sphere, D'Aveni shows, is to contain competitors of equal size (as NBC contained ABC). Spheres can also be used to stabilize an entire industry's global power system. A glance at the detailed table of contents

will provide a sense of the wealth of new information contained in this essential handbook of global warfare, including "how-to" tools the reader will need to measure and map the pattern of competitive pressure in any industry and to interpret the meaning and strategic implications of these pressure patterns for his or her position within the industry's power hierarchy.

This official account of the crisis in the Persian Gulf traces the Canadian Forces commitment to the Gulf region in response to Iraqi aggression in 1990-1991. Written by two officers who served in the Persian Gulf during the period of hostilities in 1991, this official account is the fruit of four years of detailed research. Based upon their personal

experiences, numerous interviews, and unrestricted access to official papers, they have produced a candid account of value for both the military professional and the interested civilian. In January 1991, the Chief of Defence Staff authorized the Director of History to post Major Jean Morin as field historian to the staff of the Commander, Canadian Forces Middle East (Commodore

Ken Summers). It was the first time since the Korean War that a historical officer had been posted to the staff of a Canadian commander overseas. Despite the proven benefits of emotional intelligence, organizational life has typically been hostile to the inner world of feeling. Rationality is deemed superior to feeling, which can contaminate judgment. But

without feeling there is no passion, and no action. This book sets out to change people and organizations for the better, by revealing the 'dark side' of leadership behaviour and its impact on performance. Tapping into the startling parallels between the journey to emotional intelligence, the process of

psychoanalysis, the practice of leadership coaching and the Zen journey to enlightenment, renowned thinker Manfred Kets de Vries helps executives, consultants, and coaches to peel back the layers of self-deception and reveal how inner personality - largely hard-wired since early childhood -

affects the way they lead and manage others. *Maverick for Life* AuthorHouse This is a book of inspirational quotes, collected by Author Melanie Young for nearly forty years. These quotes are either inspirational, humorous, thought provoking, or all three.
