 Cram ten hormonal teens into a spaceship and blast off: that's the premise for the ill-conceived reality show *Waste of Space*. The kids who are cast know everything about drama—and nothing about the fact that the production is fake. Hidden in a desert warehouse, their spaceship replica is equipped with state-of-the-art special effects dreamed up by the scientists partnering with the shady cable network airing the show. And it's a hit! Millions of viewers are transfixed. But then, suddenly, all communication is severed. Trapped and paranoid, the kids must figure out what to do when this reality show loses its grip on reality.

 #1 New York Times Bestseller NOW A MAJOR MOTION PICTURE Oscar Nominated For Best Picture and Best Adapted Screenplay Set amid the civil rights movement, the never-before-told true story of NASA's African-American female mathematicians who played a crucial role in America's space program. Before Neil Armstrong walked on the moon, a group of professionals worked as 'Human Computers', calculating the flight paths that would enable these historic achievements. Among these were a coterie of bright, talented African-American women. Segregated from their white counterparts, these 'colored computers' used pencil and paper to write the equations that would launch rockets, and astronauts, into space. Moving from World War II through NASA's golden age,

touching on the civil rights era, the Space Race, the Cold War, and the women's rights movement, *Hidden Figures* interweaves a rich history of mankind's greatest adventure with the intimate stories of five courageous women whose work forever changed the world.

 The 2003 Iraq war remains among the most mysterious armed conflicts of modernity. In *The Iraq War*, John Keegan offers a sharp and lucid appraisal of the military campaign, explaining just how the coalition forces defeated an Iraqi army twice its size and addressing such questions as whether Saddam Hussein ever possessed weapons of mass destruction and how it is possible to fight a war that is not, by any conventional measure, a war at all. Drawing on exclusive interviews with Donald Rumsfeld

and General Tommy Franks, Keegan retraces the steps that led to the showdown in Iraq, from the highlights of Hussein's murderous rule to the diplomatic crossfire that preceded the invasion. His account of the combat in the desert is unparalleled in its grasp of strategy and tactics. The result is an urgently needed and up-to-date book that adds immeasurably to our understanding of those twenty-one days of war and their long, uncertain aftermath.

Documents how 12 people, as part of a top-secret U.S. government program, traveled to the planet Serpo and lived there for 13 years • Based on the debriefing of the Serpo team and the diary of the expedition's commander • Explains how the aliens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems • Reveals how our government has an ongoing relationship with the Serpo aliens On July 16, 1965, a massive alien spacecraft from the Zeta Reticuli star system landed at the Nevada test site north of Las Vegas. Following a plan set in motion by President Kennedy in 1962, the alien visitors known as the Ebens welcomed 12 astronaut-trained military personnel aboard their craft for the 10-month journey to their home planet, Serpo, 39 light-years away. In November 2005, former and current members of the Defense Intelligence Agency--directed by Kennedy to organize the Serpo exchange program--came forward to reveal the operation, including details from the 3,000-page debriefing of the 7 members of the Serpo team who returned after 13 years on the planet. Working with the DIA originators of the Serpo project and the diary kept by the expedition's commanding officer, Len Kasten chronicles the complete journey of these cosmic pioneers, including their remarkable stories of life on an alien planet, superluminal space travel, and advanced knowledge of alien technologies. He reveals how the Ebens presented the U.S. with "The Yellow Book"--a complete history of the universe recorded holographically, allowing the reader to view actual scenes from pre-history to the present. He explains how the Ebens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems--knowledge still classified. Exposing the truth of human-alien interaction and interplanetary travel, Kasten reveals not only that the Ebens have returned to Earth eight times but also that our government continues to

have an ongoing relationship with them--a relationship with the potential to advance the human race into the future.

A lethal virus is awoken on an abandoned spaceship in this incredibly fast-paced, claustrophobic thriller. They thought the ship would be their salvation. Zahra knew every detail of the plan. House of Wisdom, a massive exploration vessel, had been abandoned by the government of Earth a decade earlier, when a deadly virus broke out and killed everyone on board in a matter of hours. But now it could belong to her people if they were bold enough to take it. All they needed to do was kidnap Jaswinder Bhattacharya--the sole survivor of the tragedy, and the last person whose genetic signature would allow entry to the spaceship. But what Zahra and her crew could not know was what waited for them on the ship--a terrifying secret buried by the government. A threat to all of humanity that lay sleeping alongside the orbiting dead. And then they woke it up. *Survival Guns* HarperCollins Australia NEW YORK TIMES BESTSELLER • The author of *The Talent Code* unlocks the secrets of highly successful groups and provides tomorrow's leaders with the tools to build a cohesive, motivated culture. One Nation, the NRA and \$20 million -- inside journalism's most audacious sting By the mastermind who infiltrated the NRA and One Nation and based on the award-winning documentary seen on ABC TV In 2019, the ABC aired an explosive investigative documentary entitled *How to Sell a Massacre*. The result of an audacious three-year infiltration of the US National Rifle Association, the documentary revealed how One Nation solicited donations of up to \$20 million from the NRA, promising in return to use the balance of power to soften gun laws in Australia. Masterminded by veteran Australian journalist Peter Charley, the elaborate sting saw Australian businessman Rodger Muller go undercover as the head of a fake Australian pro-gun advocacy group. But the tactics used by Charley to expose both One Nation and the NRA drew criticism from some. Now in his book *How to Sell a Massacre*, Peter Charley gives an inside account of the sting, drawing on more than 40 years' reporting to explore how journalism has changed and to make sense of why -- in a post-truth environment -- he felt it necessary to set a trap to catch the truth. Charley draws on previously unreleased transcripts of covertly recorded meetings between the NRA and One Nation to give graphic details of the undercover operation. At the same time, he reflects on a long and distinguished career and how the role and methods of journalism have had to change and adapt in a post-truth world. Set during the period of Donald Trump's rise to power and the US's worst mass shootings, including Las Vegas and Orlando, *How to Sell a Massacre* reads like a pacy spy thriller with a deadly truth at its heart: that an Australian political party would seek foreign money in a bid to seize power and destroy the gun laws that keep Australians safe.

The Hitchhiker's Guide to the Galaxy meets the joy and glamour of Eurovision in bestselling author Catherynne M. Valente's science fiction spectacle, where sentient races compete for glory in a galactic musical contest...and the stakes are as high as the fate of planet Earth. A century ago, the Sentience Wars tore the galaxy apart and nearly ended the entire concept of intelligent space-faring life. In the aftermath, a curious tradition was invented—something to cheer up everyone who was left and bring the shattered worlds together in the spirit of peace, unity, and understanding. Once every cycle, the great galactic civilizations gather for the Metagalactic Grand Prix—part gladiatorial contest, part beauty pageant, part concert extravaganza, and part continuation of the wars of the past. Species far and wide compete in feats of song, dance and/or whatever facsimile of these can be performed by various creatures who may or may not possess, in the traditional sense, feet, mouths, larynxes, or faces. And if a new species

should wish to be counted among the high and the mighty, if a new planet has produced some savage group of animals, machines, or algae that claim to be, against all odds, sentient? Well, then they will have to compete. And if they fail? Sudden extermination for their entire species. This year, though, humankind has discovered the enormous universe. And while they expected to discover a grand drama of diplomacy, gunships, wormholes, and stoic councils of aliens, they have instead found glitter, lipstick, and electric guitars. Mankind will not get to fight for its destiny—they must sing. Decibel Jones and the Absolute Zeroes have been chosen to represent their planet on the greatest stage in the galaxy. And the fate of Earth lies in their ability to rock.

The Night Stalkers, officially known as the 160th Special Operations Aviation Regiment, are the best helicopter pilots and crews in the world. These are the crews who fly America's top special operations units to combat. They can reach any target, plus or minus 30 seconds, as they take pride in saying. The Battle of Mogadishu, the Osama bin Laden mission, and the Abu Bakr al-Baghdadi raid are just some of their exploits that have made it through to the public. When you hear about special operations troops doing something incredible on the ground, it's almost always because 160th SOAR pilots like Gregory "Gravy" Coker flew them in, provided air support, and whisked them back out -- all under cover of darkness. Alexander Hollings writes - "The 160th Special Operations Aviation Regiment, commonly called the Night Stalkers, are widely considered to be among the best military aviators on the planet. Coker's new book, "Death Waits in the Dark: Six Guns Don't Miss" promises to give us a glimpse into this elite and secretive world, and came with some help from Sandboxx's own resident Delta Force legend, George E.
