HESS SKYLAR

The Dice Man Simon and Schuster
NEW YORK TIMES BESTSELLER • “Driving, wild and hilarious” (The Washington Post), here is the incredible “memoir” of the legendary actor, gambler, raconteur, and Saturday Night Live veteran. When Norm Macdonald, one of the greatest stand-up comics of all time, was approached to write a celebrity memoir, he flatly refused, calling the genre “one step below instruction manuals.” Norm then promptly took a two-year hiatus from stand-up comedy to live on a farm in northern Canada. When he emerged he had under his arm a manuscript, a genre-smashing book about comedy, tragedy, love, loss, war, and redemption.

When asked if this was the celebrity memoir, Norm replied, “Call it anything you damn like.”

This is a book about Mark E. Smith and The Fall - or more precisely, their ever-influential world. The Fall were so many things, so many worlds; if you got it (and not everyone did), they represented everything. 'To 50,000 Fall Fans: please buy this inspired & inspiring, profound & provocative, beautiful & bonkers Book of Revelations, choc-stock-full of loving Acts by true Apostles, simultaneously both the scrapbook you wished you'd

kept and a portal to futures & pasts, known & unknown, & a Fantastic Celebration of this Nation's Saving Grace.' DAVID PEACE 'Mind blowing... brilliant.' TIM BURGESS 'A container sized treasure trove bursting at the hinges with strangeness and wonder . . . I strongly advise you to buy it.' MAXINE PEAKE This is not a book about a rock band. This is not even a book about Mark E Smith. This is a book about The Fall group - or more precisely, their world. Over a prolific forty-year career, the Fall created a world that was influential, idiosyncratic and fiercely original - and defied simple categorisation. Their frontman and lyricist Mark E. Smith spun opaque tales that resisted conventional understanding; the Fall's worldview was an education in its own right. Who wouldn't want to be armed with a working knowledge of M. R. James, shipping-dock procedures, contemporary dance, Manchester City and Can? The group inspired and shaped the lives of those who listened to and tried to make sense of their work. Bringing together previously unseen artwork, rare ephemera and handwritten material, alongside essays by a slate of fans, EXCAVATE! is a vivid, definitive record - an illumination of the dark corners of the Fall's wonderful and frightening world.

The Devil's Dice (a DI Meg Dalton Thriller, Book 1) Abrams #1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. One Toss of the Dice: The Incredible Story of How a Poem Made Us Modern Macmillan

Published anonymously in 1824, this gothic mystery novel was written by Scottish author James Hogg. *The Private Memoirs and Confessions of a Justified Sinner* was published as if it were the presentation of a century-old document. The unnamed editor offers the reader a long introduction before presenting the document written by the sinner himself.

The Great Revolt Harper Collins

"The 21st Century Man" reveals insider secrets that men in midlife and beyond need to recover, rebuild, and maintain their physical, mental, emotional, and sexual health. This is the book that all men will want after turning 40 to feel great, look good, and have better physical intimacy for the rest of their lives. Contributors include specialists from all fields of medicine and men's health. Authors include experts and board-certified physicians in cardiology, oncology and cancer genetics, vascular health, orthopedics, chiropractic, pain medicine, an infectious disease specialist, an ear-nose-and throat-physician, a podiatrist, a hand surgeon (writing on how to protect your hands), and a physician in sleep medicine, as well as experts in the emerging fields of sexual health and rejuvenation medicine. Lifestyle takes center stage in six chapters with practical options on weight loss and improving the quality of nutrition. Another six chapters focus on re-engaging in exercise without injury through strategies that begin with low-impact workouts or sports, stretching, yoga, or high-tech interventions. In terms of quality of life and mental health, the book offers practical, actionable steps from professionals on life coaching, family therapy, psychology, and parenting, as well as sexual healing and intimate wellness. The book also provides a clear recap of the latest research on

reversing early dementia and protecting brain health. For midlife men working in a highly competitive job market, there are chapters on antiaging, rejuvenation medicine, hormone therapy, and plastic surgery.

When the fuzzy indeterminacy of quantum mechanics overthrew the orderly world of Isaac Newton, Albert Einstein and Erwin Schrödinger were at the forefront of the revolution. Neither man was ever satisfied with the standard interpretation of quantum mechanics, however, and both rebelled against what they considered the most preposterous aspect of quantum mechanics: its randomness. Einstein famously quipped that God does not play dice with the universe, and Schrödinger constructed his famous fable of a cat that was neither alive nor dead not to explain quantum mechanics but to highlight the apparent absurdity of a theory gone wrong. But these two giants did more than just criticize: they fought back, seeking a Theory of Everything that would make the universe seem sensible again. In *Einstein's Dice and Schrödinger's Cat*, physicist Paul Halpern tells the little-known story of how Einstein and Schrödinger searched, first as collaborators and then as competitors, for a theory that

transcended quantum weirdness. This story of their quest—which ultimately failed—provides readers with new insights into the history of physics and the lives and work of two scientists whose obsessions drove its progress. Today, much of modern physics remains focused on the search for a Theory of Everything. As Halpern explains, the recent discovery of the Higgs Boson makes the Standard Model—the closest thing we have to a unified theory—nearly complete. And while Einstein and Schrödinger failed in their attempt to explain everything in the cosmos through pure geometry, the development of string theory has, in its own quantum way, brought this idea back into vogue. As in so many things, even when they were wrong, Einstein and Schrödinger couldn't help but get a great deal right.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

When his father lost his home and almost everything he owned in the Lloyds insurance meltdown, Darius Guppy swore revenge. He cold-bloodedly set out to restore the family fortune by swindling Lloyds out of \$1.8 million, with a daring scheme. He tricked Lloyds out of the money by pretending he had been robbed at gunpoint of a stash of precious stones. Lloyds paid up and Guppy - at the age of 25 - was a millionaire. Nearly two years later the law caught up with him. He was disgraced and sentenced to six years in jail. Now free, Guppy tells his story in this book. He reveals his wild adventures with Lordpencer, of gold smuggling in India, of dealings with gunmen in New York, and his passionate love for his wife Patricia.

In the tradition of *The Swerve* comes this thrilling, detective-like work of literary history that reveals how a poem created the world we live in today. It was, improbably, the forerunner of our digital age: a French poem about a shipwreck published in 1897 that, with its mind-bending possibilities of being read up and down, backward and forward, even sideways, launched modernism. Stéphane Mallarmé's "One Toss of the Dice," a daring, twenty-page epic of ruin and recovery, provided an epochal "tipping point," defining the spirit of the age and anticipating radical thinkers of the twentieth century, from Albert Einstein to T. S. Eliot. Celebrating its intrinsic influence on our

culture, renowned scholar R. Howard Bloch masterfully decodes the poem still considered among the most enigmatic ever written. In Bloch's shimmering portrait of Belle Époque Paris, Mallarmé stands as the spiritual giant of the era, gathering around him every Tuesday a luminous cast of characters including Émile Zola, Victor Hugo, Claude Monet, André Gide, Claude Debussy, Oscar Wilde, and even the future French prime minister Georges Clemenceau. A simple schoolteacher whose salons and prodigious literary talent won him the adoration of Paris's elite, Mallarmé achieved the reputation of France's greatest living poet. He was so beloved that mourners crowded along the Seine for his funeral in 1898, many refusing to depart until late into the night, leaving Auguste Renoir to ponder, "How long will it take for nature to make another such a mind?" Over a century later, the allure of Mallarmé's linguistic feat continues to ignite the imaginations of the world's greatest thinkers. Featuring a new, authoritative translation of the French poem by J. D. McClatchy, *One Toss of the Dice* reveals how a literary masterpiece launched the modernist movement, contributed to the rise of pop art, influenced modern Web design, and shaped the perceptual world we now inhabit. And as Alex Ross remarks in *The New Yorker*, "If you can crack [Mallarmé's] poems, it seems, you can crack the riddles of existence." In *One Toss of the Dice*, Bloch finally, and brilliantly, dissects one of literary history's greatest mysteries to reveal how a poem made us modern.

In the long, fabled history of Rome, never was there one more adored -- yet more feared -- than Gaius Julius Caesar. Invincible on the field of battle, he commands the love and loyalty of those who fight at his side and would gladly give their lives for his glory. Yet in Rome there are enemies everywhere orchestrating his downfall and disgrace. Fanatical rivals like Cato and Bibulus would tear Rome asunder just to destroy her greatest champion - - using their wiles, position, and false promises to seduce others into the fold: vacillating Cicero, the spineless Brutus ... even Pompey the Great, Caesar's former ally. But only ill fortune can come to the "Good Men" who underestimate Caesar. For Rome is his glorious destiny -- one that will impel him reluctantly to the banks of the Rubicon ... and beyond, into triumphant legend.

The "media" used to mean television, radio, newspapers, and magazines; but today it largely involves social media, which has swallowed up all of these other forms and is now controlled by a small group of Silicon Valley titans who decide what billions of

people are able to see and hear online.

The convergence of old technology and new has centralized unimaginable power into the hands of a few gigantic corporations that now dictate how we communicate with each other and perceive the outside world.

Media analyst Mark Dice details how the rise of social media that tipped the balance of power regarding the production and distribution of information has also resulted in a massive backlash from those conspiring to regain the influence they once held.

Now conservatives are experiencing widespread censorship as the tech giants scramble to put the genie back in the bottle.

The liberal media has launched an information war against President Trump and his supporters, and are using their monopolies to manipulate public opinion in order to further their aims of a socialist revolution.
