On March 2, 1965, "The Sound of Music" was released in the United States and the love affair between moviegoers and the classic Rodgers and Hammerstein musical was on. Rarely has a film captured the love and imagination of the moviegoing public in the way that "The Sound of Music" did as it blended history, music, Austrian location filming, heartfelt emotion and the yodeling of Julie Andrews into a monster hit. Now, Tom Santopietro has written the ultimate "Sound of Music" fan book with all the inside dope from behind the scenes stories of the filming in Austria and Hollywood to new interviews with Johannes von Trapp and others. Santopietro looks back at the real life story of Maria von Trapp, goes on to chronicle the sensational success of the Broadway musical, and recounts the story of the near cancellation of the film when the "Cleopatra" bankrupted 20th Century Fox. We all know that Julie Andrews and Christopher Plummer played Maria and Captain Von Trapp, but who else had been considered? Tom Santopietro knows and will tell all while providing a historian's critical analysis of the careers of director Robert Wise and screenwriter Ernest Lehman, a look at the critical controversy which greeted the movie, the film's relationship to the turbulent 1960s and the super stardom which engulfed Julie Andrews. Tom Santopietro's "The Story of 'The Sound of Music'" is book for everyone who cherishes this American classic.

'Evocatively written and charming' - Countryfile 'The January Man is a book that makes you want to pull on your boots, grab a map and get out there' - Country Life The January Man is the story of a year of walks that was inspired by a song, Dave Goulder's 'The

January Man'. Month by month, season by season and region by region, Christopher Somerville walks the British Isles, following routes that continually bring his father to mind. As he travels the country - from the winter floodlands of the River Severn to the lambing pastures of Nidderdale, the towering seabird cliffs on the Shetland Isle of Foula in June and the ancient oaks of Sherwood Forest in autumn - he describes the history, wildlife, landscapes and people he encounters, down back lanes and old paths, in rain and fair weather. This exquisitely written account of the British countryside not only inspires us to don our boots and explore the 140,000 miles of footpaths across the British Isles, but also illustrates how, on long-distance walks, we can come to an understanding of ourselves and our fellow walkers. Over the hills and along the byways, Christopher Somerville examines what moulded the men of his father's generation - so reticent about their wartime experiences, so self-effacing, upright and dutiful - as he searches for 'the man inside the man' that his own father really was.

Undead Ends is about how we imagine humanness and survival in the aftermath of disaster. This book frames modern British and American apocalypse films as sites of interpretive struggle. It asks what, exactly, is ending? Whose dreams of starting over take center stage, and why? And how do these films, sometimes in spite of themselves, make room to dream of new beginnings that don't just reboot the world we know? Trimble argues that contemporary apocalypse films aren't so much envisioning The End of the world as the end of a particular world; not The End of

humanness but, rather, the end of Man. Through readings of *The Road*, *I Am Legend*, *28 Days Later*, *28 Weeks Later*, *Children of Men*, and *Beasts of the Southern Wild*, this book demonstrates that popular stories of apocalypse can trouble, rather than reproduce, Man's story of humanness. With some creative re-reading, they can even unfold towards unexpected futures. Mainstream apocalypse films are, in short, an occasion to imagine a world After Man.

Few landscapes are as striking as that of the Hebrides, the hundreds of small islands that speckle the waters off Scotland's northwest coast. The jagged, rocky cliffs and roiling waves serve as a reminder of the islands' dramatic geological history, inspiring awe and dread in those drawn there. With Britain at their back and facing the Atlantic, the Hebrides were at the center of ancient shipping routes and have a remarkable cultural history as well, as a meeting place for countless cultures that interacted with a long, rich Gaelic tradition. After years of hearing about Scotland as a place deeply interwoven with the story of her family, Madeleine Bunting was driven to see for herself this place so symbolic and full of history. Most people travel in search of the unfamiliar, to leave behind the comfort of what's known to explore some suitably far-flung corner of the globe. From the first pages, it's clear that Madeleine Bunting's *Love of Country* marks a different kind of journey—one where all paths lead to a closer understanding of home, but a home bigger than Bunting's corner of Britain, the drizzly, busy streets of London with their scream of sirens and high-rise developments crowding the sky. Over six years, Bunting returned again and again to the Hebrides, fascinated by the question of what it means to belong there, a question that on these islands has been fraught with tenacious resistance and sometimes tragedy. With great sensitivity, she takes readers through the Hebrides' history of dispossession and displacement, a history that can be understood only in the context of Britain's imperial past, and she shows how the Hebrides have been repeatedly used to define and imagine Britain. In recent years, the relationship between Britain and Scotland has been subject to its most testing scrutiny, and Bunting's travels became a way to reflect on what might be lost and what new possibilities might lie ahead. For all who have

wondered how it might feel to stand face-out at the edge of home, *Love of Country* is a revelatory journey through one of the world's most remote, beautiful landscapes that encourages us to think of the many identities we wear as we walk our paths, and how it is possible to belong to many places while at the same time not wholly belonging to any.

Imagine a world in which classes are divided not by wealth or religion but by how much each group can remember. Monos, the majority, have only one day's worth of memory; elite Duos have two. “An unforgettable story of music, loss and hope. Fans of High Fidelity, meet your next quirky love story.”—People NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE TIMES (UK) AND THE WASHINGTON POST It is 1988. On a dead-end street in a run-down suburb there is a music shop that stands small and brightly lit, jam-packed with records of every kind. Like a beacon, the shop attracts the lonely, the sleepless, and the adrift; Frank, the shop's owner, has a way of connecting his customers with just the piece of music they need. Then, one day, into his shop comes a beautiful young woman, Ilse Brauchmann, who asks Frank to teach her about music. Terrified of real closeness, Frank feels compelled to turn and run, yet he is drawn to this strangely still, mysterious woman with eyes as black as vinyl. But Ilse is not what she seems, and Frank has old wounds that threaten to reopen, as well as a past it seems he will never leave behind. Can a man who is so in tune with other people's needs be so incapable of connecting with the one person who might save him? The journey that these two quirky, wonderful characters make in order to overcome their emotional baggage speaks to the healing power of music—and love—in this poignant, ultimately joyful work of fiction. Praise for The Music Shop “Captures the sheer,

transformative joy of romance.”—The Washington Post “Love, friendship, and especially the healing powers of music all rise together into a triumphant crescendo. . . . This lovely novel is as satisfying and enlightening as the music that suffuses its every page.”—The Boston Globe “Magnificent . . . If you love words, if you love music, if you love love, this [novel] will be without question one of the year's best.”—BookPage (Top Pick in Fiction) “Joyce has a knack for quickly sketching characters in a way that makes them stick. [The Music Shop] will surprise you.”—Minneapolis Star Tribune “Rachel Joyce has established a reputation for novels that celebrate the dignity and courage of ordinary people and the resilience of the human spirit. . . . But what really elevates The Music Shop is Joyce's detailed knowledge of—and passion for—music.”—The Guardian *From Stoke Mandeville to Stratford* Rutgers University Press Forests cover approximately 26% of the world's land surface area and represent a distinct biotic community. They interact with water and soil in a variety of ways, providing canopy surfaces which trap precipitation and allow evaporation back into the atmosphere, thus regulating how much water reaches the forest floor as through fall, as well as pull water from the soil for transpiration. The discipline "forest hydrology" has been developed throughout the 20th century. During that time human intervention in natural landscapes has increased, and land use and management practices have intensified. The book will be useful for graduate students, professionals, land managers, practitioners, and researchers with a good understanding of the basic principles of hydrology and hydrologic processes.
