LANE JAMAL

Are postcolonies haunted more by criminal violence than other nation-states? The usual answer is yes. In *Law and Disorder in the Postcolony*, Jean and John Comaroff and a group of respected theorists show that the question is misplaced: that the predicament of postcolonies arises from their place in a world order dominated by new modes of governance, new sorts of empires, new species of wealth—an order that criminalizes poverty and race, entraps the “south” in relations of corruption, and displaces politics into the realms of the market, criminal economies, and the courts. As these essays make plain, however, there is another side to postcoloniality: while postcolonies live in states of endemic disorder, many of them fetishize the law, its ways and its means. How is the coincidence of disorder with a fixation on legalities to be explained? *Law and Disorder in the Postcolony* addresses this question, entering into critical dialogue with such theorists as Benjamin, Agamben, and Bayart. In the process, it also demonstrates how postcolonies have become crucial sites for the production of contemporary theory, not least because they are harbingers of a global future under construction.

This book gathers the very best academic research to date on prison regimes in Latin America and the Caribbean. Grounded in solid ethnographic work, each chapter explores the informal dynamics of prisons in diverse territories and countries of the region – Venezuela, Brazil, Bolivia, Honduras, Nicaragua, Colombia, Puerto Rico, Dominican Republic – while theorizing how

day-to-day life for the incarcerated has been forged in tandem between prison facilities and the outside world. The editors and contributors to this volume ask: how have fastest-rising incarceration rates in the world affected civilians’ lives in different national contexts? How do groups of prisoners form broader and more integrated ‘carceral communities’ across day-to-day relations of exchange and reciprocity with guards, lawyers, family, associates, and assorted neighbors? What differences exist between carceral communities from one national context to another? Last but not least, how do carceral communities, contrary to popular opinion, necessarily become a productive force for the good and welfare of incarcerated subjects, in addition to being a potential source of troubling violence and insecurity? This edited collection represents the most rigorous scholarship to date on the prison regimes of Latin America and the Caribbean, exploring the methodological value of ethnographic reflexivity inside prisons and theorizing how daily life for the incarcerated challenges preconceptions of prisoner subjectivity, so-called prison gangs, and bio-political order. Autor de *Estação Carandiru*, Drauzio Varella mostra neste livro que também sabe escrever para crianças. Neto de imigrantes espanhóis e portugueses, ele relembra aqui alguns episódios de sua infância, quando era um menino que brincava e brigava nas ruas do Brás. Um tempo em que os moleques iam pescar no Tietê, levavam bicada de galo, ouviam futebol no rádio e corriam atrás de balão. Um dos episódios que surpreendem o leitor de

hoje é a primeira vez que Drauzio foi ao médico, já com seis anos de idade. Saiu de lá com um tratamento de injeções de penicilina, trinta dias de repouso absoluto e uma dieta de tempo de guerra—seis dias sem comer, dos quais os três primeiros sem beber. Apesar das diferenças que marcam as duas épocas, o autor, de certa forma, foi um menino igual aos de agora, pois a maneira como as crianças sentem as alegrias e as tristezas não mudou.

Time Out São Paulo Manchester University Press

Market society is producing more crime around the world. More acts are being defined as crimes. Ever increasing numbers of people are classified as criminals and more are being locked up in prison. With globalization, the crime and punishment problem is no longer insulated from pressures beyond national borders. The rich may retreat behind their expensive security into gated communities, but the poor are more and more at the mercy of criminals and corrupt policing. Yet, Vivien Stern argues, the trends towards more criminalization and more imprisonment are not making for more effective crime control or safer communities. This important book demonstrates that the prospects for the future are serious unless NGOs and reformers join in a new movement for reform that gives more control of justice policy back to communities and neighbourhoods.

This unique collection explores the complex issue of vigilantism, how it is represented in popular culture, and what is its impact on behavior and the implications for the rule of law. The book is a transnational investigation across a range of eleven different jurisdictions, including accounts of the Anglophone world (Australia, Britain, Canada, and the United States), European experiences (Germany, Greece, Italy, Poland, and Portugal), and

South American jurisdictions (Argentina and Brazil). The essays, written by prominent international scholars in law, sociology, criminology, and media studies, present data, historical and recent examples of vigilantism; examine the national Laws and jurisprudence; and focus on the broad theme of vigilante justice in popular culture (literature, films, television). *Vigilante Justice in Society and Popular Culture* sheds light on this topic offering a detailed look beyond the Anglophone world. This collection will enrich the debate by adding the opportunity for comparison which has been largely lacking in scholarly debate. As such, it will appeal not only to scholars of law, sociology, criminology, and media studies, but also to all those who are engaged with these topics alike.

The searing novel on which the internationally acclaimed hit film was based. "A Scarface-like urban epic . . . punctuated with lyricism and longing" (Publishers Weekly). *City of God* is a gritty, gorgeous tour de force from one of Brazil's most notorious slums. *Cidade de Deus*: a place where the streets are awash with narcotics, where violence can erupt at any moment over drugs, money, and love—but also a place where the samba beat rocks till dawn, where the women are the most beautiful on earth, and where one young man wants to escape his background and become a photographer. When *City of God* erupted on screens worldwide, it became one of the most critically and commercially successful foreign films of recent years. But few were aware of the story behind the film. Written by Paulo Lins, who grew up in the favela (shantytown) *Cidade de Deus* in Rio de Janeiro and who spent years researching its gang history, *City of God* began life as a coruscating, harrowing novelistic account of twenty years in the illicit pursuits of the youth gangs born from the favela. "With plot devices sometimes as minimal as the dawning of a new day, *City of God* seems more like a mosaic than a novel, but it's a mosaic with unforgettably vibrant colors." —Booklist

The Carandiru House of Detention, in the teeming city of São Paulo, was the largest and most crowded prison in Latin America. Known as the 'Old House', it was also highly unusual in the way it was governed. Closed to the outside world, and even largely to the wardens, it was run almost entirely by the inmates themselves, who created a unique society complete with politics,

hierarchies and a system of justice. In 1989, at the height of the AIDS epidemic in Brazil, with only a handful of physicians attempting to treat an inmate population of over 7,000, the medical situation at Carandiru was dire. A city doctor, Drauzio Varella, volunteered his time at Carandiru over the course of thirteen years, in an effort to combat the rampant disease. As he gained the inmates' trust he was given access to their society, where he was overwhelmed by the profound humanity and freedom of spirit shown by these men, despite their terrible crimes and the inhuman conditions in which they lived. *Lockdown* is Varella's powerful depiction of life on the inside, wherein he recounts the prisoners' colourful and surprising stories. The book ends with the massacre by the police of the prisoners that ultimately brought down the 'Old House'.

Law and Disorder in the Postcolony Zed Books Ltd.

Studying the case of Latin American cinema, this book analyzes one of the most public - and most exportable- forms of postcolonial national culture to argue that millennial era globalization demands entirely new frameworks for thinking about the relationship between politics, culture, and economic policies. Concerns that globalization would bring the downfall of national culture were common in the 1990s as economies across the globe began implementing neoliberal, free market policies and abolishing state protections for culture industries. Simultaneously, new technologies and the increased mobility of people and information caused others to see globalization as an era of heightened connectivity and progressive contact. Twenty-five years later, we are now able to examine the actual impact of globalization on local and regional cultures, especially those of postcolonial societies. Tracing the full life-cycle of films and studying blockbusters like *City of God*, *Motorcycle Diaries*, and *Children of Men* this book argues that neoliberal globalization has created a highly ambivalent space for cultural expression, one willing to market against itself as long as the stories sell. The result is an innovative and ground-breaking text suited to scholars interested in globalization studies, Latin-American studies and film studies.

O rio Negro é um grande espelho. Suas águas refletem as árvores das margens e as nuvens do céu. Muito largo, ele contém os dois maiores arquipélagos fluviais do mundo, e, também comprido, nasce na Venezuela, entra no Brasil e corta a Floresta Amazônica por mais de mil quilômetros. Drauzio Varella já viajou por esse importante rio brasileiro inúmeras vezes, no barco Escola da natureza, colhendo plantas da região que pudessem ser transformadas em medicamentos. Neste livro, o autor mergulha no terreno da fantasia e do folclore e relata o que aconteceu certo dia em que, em uma de suas viagens, adormeceu sozinho numa rede do convés do barco, entretido com as estrelas e a lua cheia...

Violence without Guilt UNC Press Books

"Like Brazilian society, documentary filmmaking is undergoing transformation, becoming an increasingly inclusive and diverse field, intervening in the ongoing struggle for social justice and equal distribution of power. As the first English-language monograph to focus on this body of work, this book examines the ways in which contemporary documentaries explore the borders between centers and margins, visibilities and invisibilities, silences and speech, and forms of authority and their contestation. Centered on an eclectic cluster of documentaries - from ethnographic documentaries and indigenous videos to films concerned with social and criminal justice, including first-person, essayistic films - this book brings into view the transformations of both Brazilian society and filmmaking, ultimately examining the genre's preoccupation with archival content"--

Em Por um fio, está de volta o narrador sensível e cuidadoso de Estação Carandiru, que, contando histórias reais, reflete sobre o impacto da perspectiva da morte no comportamento de pacientes e seus familiares. Drauzio Varella especializou-se em oncologia numa época em que o câncer era visto com tanto horror que nem sequer se pronunciava essa palavra - dizia-se "aquela doença" - e desde então convive cotidianamente com doentes graves. Em Por

um fio, ele relata histórias que põem o leitor diante de questões delicadas, difíceis mesmo para quem lida com elas em sua rotina profissional. De um lado, a reação dos que se descobrem doentes, que vai da surpresa à revolta, do desespero ao silêncio e à aceitação. Do outro, a atitude dos parentes, que varia da dedicação incondicional à pura mesquinha, da solidariedade ao abandono. E Drauzio conta ainda episódios surpreendentes de mudança de vida, como se a visão da morte fosse quase uma libertação, um divisor de águas que confere novo sentido ao porvir.

Backed by Brazil's wealthy agribusiness groups, a growing evangelical movement, and an emboldened military and police force, Jair Bolsonaro took office in 2019. Driven by the former army captain's brand of controversial, aggressive rhetoric, the divisive presidential campaign saw fake news and misinformation shared with Bolsonaro's tens of millions of social media followers. Bolsonaro promised simple solutions to Brazil's rising violent crime, falling living standards and widespread corruption, but

what has emerged is Latin America's most right-wing president since the military dictatorships of the 1970s. Famous for his racist, homophobic and sexist beliefs and his disregard for human rights, the so-called 'Trump of the Tropics' has established a reputation based on his polemical, sensationalist statements. Written by a journalist with decades of experience in the field, *Beef, Bible and bullets* is a compelling account of the origins of Brazil's unique brand of right-wing populism. Lapper offers the first major assessment of the Bolsonaro government and the growing tensions between extremist and moderate conservatives. [Prisons and Prison Systems](#) Springer
