The story tells of the efforts of a nervous and excitable man who starts to propose to an attractive young woman, but who gets into a tremendous quarrel over a boundary line.

Cambridge Igcse Biology
Samuel French, Inc.
This highly respected and valued textbook has been the book of choice for Cambridge IGCSE students since its publication. This second edition, complete with CD-ROM, continues to provide comprehensive, up-to-date coverage of the core and extended curriculum topics specified in the Cambridge IGCSE Biology syllabus. The book is supported by a CD-ROM containing extensive revision and exam practice questions, background information and reference material.
IGCSE Biology Hodder Education

This clear and stimulating text has been revised to match the latest IGCSE syllabus exactly and provides all aspects of the IGCSE course in a single text. Straightforward language makes it accessible to students of all abilities. Each chapter contains a Edexcel International GCSE (9-1) Biology Student Book (Edexcel International GCSE (9-1)) Hodder Education

This book provides two thousand multiple choice questions on human anatomy and physiology, separated into 40 categories. The answer to

each question is accompanied by an explanation. Each category has an introduction to set the scene for the questions to come. However not all possible information is provided within these Introductions, so an Anatomy and Physiology textbook is an indispensable aid to understanding the answers. The questions have been used in examinations for undergraduate introductory courses and as such reflect the focus of these particular courses and are pitched at the level to challenge students that are beginning their training in anatomy and physiology. The questions and answer combinations are to be used both by teachers, to select questions for their next examinations, and by students, when studying for an upcoming test. Students enrolled in the courses for which these questions were written include nursing, midwifery, paramedic, physiotherapy, occupational therapy, nutrition & dietetics, health sciences and students taking an anatomy and physiology course as an elective.
