Even after a rise in gay and Black representation and production on TV in the 1990s, the sitcom became a "generic closet," restricting Black gay characters with narrative tropes. Drawing from 20 interviews with credited episode writers, key show-

runners, and Black gay men, *The Generic Closet* situates Black-cast sitcoms as a unique genre that uses Black gay characters in service of the series' heterosexual main cast. Alfred L. Martin, Jr., argues that the Black community is considered to be antigay due to misrepresentation by shows that aired during the family viewing hour and that were written for the imagined, "traditional" Black family. Martin considers audience reception, industrial production practices, and authorship to unpack the claim that Black gay characters are written into Black-cast sitcoms such as *Moesha*, *Good News*, and *Let's Stay Together* in order to closet Black gayness. By exploring how systems of power produce ideologies about Black gayness, *The Generic Closet* deconstructs the concept of a monolithic Black audience and investigates whether this generic closet still exists.

*A Journey's End Novel* Bloomsbury Publishing

The author is a hermit! A lifetime underachiever: A person who learned that you make it in life by hard work, smarts and chance. Who understands that there are no accidents or luck in life; there are only mistakes, opportunities and preparation. The author does not believe in marriage or relationships because he doesn't want to share 50/ 50 with no one. He only believes in intercourse and the feelings for the moment. It doesn't matter how a woman looks. That's because the author is more interested in the act and the person than the physical features. The author doesn't want his picture in the book because he rather be recognized for his works not his face. And he wants you to know in the end where to find happiness. It's not in a mate. They could leave you one day. It's in your babies.
