The field of
contract
research and
manufacturing
broadly

encompasses
those services
in the
pharmaceutic
al and
biotechnology
sectors that
require
extensive
research and
development
and large-
scale
manufacturing
facilities. The
field has great
potential for
growth in the
Indian
outsourcing
industry,

which is world-renowned for its provision of cheap and highly-skilled services. Contract research and manufacturing services (CRAMS) in India provides a detailed account of the current scenario in India and the advantages that the Indian outsourcing industry can offer in the field of CRAMS. Following an overview of the services and their emergence in India, chapters in

the book begin by discussing the legal and regulatory scenario and major concerns and issues. In the latter part of the book, topics covered include service agreements, dispute resolution and contract negotiations, followed by a discussion of the outlook for CRAMS in India and some concluding remarks. Several appendices are included, offering a list of major

players in the field and various forms for use in licence applications. Simple and accessible presentation using tables, charts and diagrams Practical tips from leading practitioners Inclusion of relevant case laws and other legal considerations

This book was first published in 2006. It is estimated that up to sixty percent of the world's money may be located offshore, where half of all financial transactions are said to take place; however, there is a perception that secrecy about offshore is encouraged to obfuscate tax evasion and money laundering. McCann provides a detailed analysis of the global offshore environment, outlining the extent of the information available and how that information might be used in assessing the quality of individual jurisdictions, as well as examining whether some of the perceptions about 'offshore' are valid. He analyses the ongoing work of the Financial Stability Forum, the Financial Action Task Force, the International Monetary Fund, the World Bank, and the Organisation for Economic Cooperation and Development. The book also offers some suggestions as to what the future might hold for offshore finance.

Tax Notes International Mauritius Business Law Handbook Volume 1 Strategic Information and Basic Laws

In 2008, the then SEBI Chairman C B Bhavé's detachment from his

Dharma as 'the market watchdog' opened the door for data theft at the National Stock Exchange (NSE), India's largest asset pool. It also led to the installation of defective Co-location (COLO) trading infrastructure at NSE, by an unofficial decree, which gave a select few brokers preferential access to equity derivatives. Fast-moving trading bots, deep-rooted nexus between

enterprising PhD scholars Ajay Shah and Susan Thomas, economists, top dollar earning executives, politicians, bureaucrats and salivating brokers were at play. In 2015, SEBI was woken up by a whistleblower, who described the contours of a front-running market operation perpetrated for over five years involving the use of COLO and High-Frequency Trading.

Surprisingly, SEBI never scrutinized NSE's COLO grid – an omission of duty – before the whistleblower highlighted the skulduggery. Harshad Mehta and Ketan Parekh are considered the 'formidable villains' for exploiting the systemic loopholes to manipulate share prices. Once the Demigods of Dalal Street, the rogue stock traders attracted such severe crack-

down from government investigative agencies that could shock even the most hardened criminals. But a scandal of much larger magnitude involving data theft at NSE and the Multi Commodity Exchange, that Mehta and Parekh could ever rev-up, has largely remained a mystery. The author's path-breaking investigative journalism fleshes out the meticulous planning and organization behind the

COLO scam, the dark drama involving SEBI probe and its loosely-knit final verdict.

 A Global Overview of International Tax Disputes on DTC This book is a unique publication that gives a global overview of international tax disputes in respect of double tax conventions and thereby fills a gap in the area of tax treaty case law. It covers the 32 most important tax treaty cases that were decided

around the world in 2019. The systematic structure of each chapter allows for the easy and efficient study and comparison of the various methods adopted for applying and interpreting tax treaties in different cases. With the continuously increasing importance of tax treaties, "Tax Treaty Case Law around the Globe 2020" is a valuable reference tool for anyone interested in

tax treaty case law, including tax practitioners, multinational businesses, policymakers, tax administrators, judges and academics
