In a hierarchy, every employee rises to the level of their own incompetence. This simple maxim, defined by this classic book over 40 years ago, has become a beacon of truth in the world of work. From the civil service to multinational companies to hospital management, it explains why things constantly go wrong: promotion up a hierarchy inevitably leads to over-promotion and incompetence. Through barbed anecdotes and wry humour the authors define the problem and show how anyone, whether at the top or bottom of the career ladder, can avoid its pitfalls. Or, indeed, avoid promotion entirely! [The Quick and Dirty Secrets for Any Serious Recruitment and Search Business Owner who Wants to Attract a Rush of Clients and Candidates with](#)

LinkedIn. John Wiley & Sons Incorporated Of the roughly 6.97 billion people on Earth today, approximately 2 billion of them are under 20 years old. Millennials have a lot of reputations these days, but powerful, smart, and affective are not usually the adjectives used to describe them. Jared Kleinert and Stacey Ferreira want to change that and empower these young people to follow their dreams, set goals, and achieve success. Both young successful entrepreneurs themselves, they believe in breaking down age barriers to make a difference. Jared, best-known as the Founder and CEO of Synergist, and Stacey, best-known as the Co-Founder of MySocialCloud.com met in 2012 at the Under 20 Thiel Fellowship Summit. After speaking with their equally impressive peers, they

realized that these 2 billion young voices have inspiring stories to share with the world and they wanted to bring them to life through 2 Billion Under 20. Jared and Stacey also decided to start an online community, [www.2BillionUnder20.com](http://www.2BillionUnder20.com) where young people could help each other grow and develop their dreams into reality. They've curated an anthology of amazing stories from their peers. Contributors like Paige McKenzie who started her own YouTube channel at the age of 16 that now has more than 55 million views and Jack Andraka who created an early detection Pancreatic cancer test at age 14 have joined forces to show the world that age is just a number.

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The

report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

A Pulitzer Prize Finalist, this powerful elegy for our disappearing coast “captures nature with precise words that

almost amount to poetry” (The New York Times). Hailed as “the book on climate change and sea levels that was missing” (Chicago Tribune), *Rising* is both a highly original work of lyric reportage and a haunting meditation on how to let go of the places we love. With every record-breaking hurricane, it grows clearer that climate change is neither imagined nor distant—and that rising seas are transforming the coastline of the United States in irrevocable ways. In *Rising*, Elizabeth Rush guides readers through these dramatic changes, from the Gulf Coast to Miami, and from New York City to the Bay Area. For many of the plants, animals, and humans in these places, the options are stark: retreat or perish. Rush sheds light on the unfolding crises through firsthand testimonials—a Staten

Islander who lost her father during Sandy, the remaining holdouts of a Native American community on a drowning Isle de Jean Charles, a neighborhood in Pensacola settled by escaped slaves hundreds of years ago—woven together with profiles of wildlife biologists, activists, and other members of these vulnerable communities. Bookseller's Alliance as a SUMMER 2018 OKRA PICK Modern Mrs. Darcy Fall Lineup Set in modern day Oxford, Mississippi, on the Ole Miss campus, bestselling author Lisa Patton's RUSH is a story about women—from both ends of the social ladder—discovering their voices and their empowerment. Cali Watkins possesses all the qualities sororities are looking for in a potential new member. She's kind and intelligent, makes friends easily, even plans to someday run for governor. But her resume lacks a vital ingredient. Pedigree. Without family money Cali's chances of sorority membership are already thin, but she has an even bigger problem. If anyone discovers the dark family secrets she's hiding, she'll be dropped from Rush in an instant. When

Lilith Whitmore, the well-heeled House Corp President of Alpha Delta Beta, one of the premiere sororities on campus, appoints recent empty-nester Wilda to the Rush Advisory Board, Wilda can hardly believe her luck. What's more, Lilith suggests their daughters, both incoming freshman, room together. What Wilda doesn't know is that it's all part of Lilith's plan to ensure her own daughter receives an Alpha Delt bid—no matter what. For twenty-five years, Miss Pearl—as her “babies” like to call her—has been housekeeper and a second mother to the Alpha Delt girls, even though it reminds her of a painful part of her past she'll never forget. When an opportunity for promotion arises, it seems a natural fit. But Lilith Whitmore slams her Prada heel down

fast, crushing Miss Pearl's hopes of a better future. When Wilda and the girls find out, they devise a plan destined to change Alpha Delta Beta—and maybe the entire Greek system—forever. Achingly poignant, yet laugh-out-loud funny, RUSH takes a sharp nuanced look at a centuries-old tradition while exploring the complex, intimate relationships between mothers and daughters and female friends. Brimming with heart and hope for a better tomorrow, RUSH is an uplifting novel universal to us all.

The ultimate playbook for using artificial intelligence to communicate effectively, build teams, and win customers Not long ago, we imagined a hyper-connected world full of trust and openness—a world where effortless communication would bring about a new understanding between people everywhere. Judging

from our current environment, this vision of the future may have been overly optimistic. With infinite channels and countless voices flooding them with messages, most people have become highly skeptical and guarded by necessity. As a result, communication is much harder than ever before. Despite the unprecedented connectivity enabled by modern technology, we are far less likely to trust and to invest the time needed to build strong relationships. How can we use technology to reverse this trend? A groundbreaking new branch of artificial intelligence—Personality AI—may be the answer. Combining traditional machine learning, data analytics, and behavioral psychology, Personality AI helps professional communicators tear down

walls, establish trust with their audiences, and utilize data to build meaningful relationships, strengthen empathy, and win more customers. Predicting Personality is a practical, real-world playbook for any individual or business whose success hinges on the ability to communicate effectively and build teams.
