Imagine—what if you had access to a simple yes-or-no answer to any question you wished to ask? A demonstrably true answer. Any question . . . think about it.— from the Foreword We think we live by forces we control, but in fact we are governed by power from unrevealed sources, power over which we have no control.— from the author's Preface The universe holds its breath as we choose, instant by instant, which pathway to follow; for the universe, the very essence of life itself, is highly conscious. Every act, thought, and choice adds to a permanent mosaic; our decisions ripple through the universe of consciousness to affect the lives of all.— from Power vs. Force "[A] beautiful gift of writing . . . [You] spread joy, love, and compassion through what you write. The fruit of these three is peace, as you know . . ."— Mother Teresa ". . . particularly timely . . . a significant contribution to understanding and dealing with the problems we face today."— Lee Iacocca "I especially appreciate [the] research and presentation on the attractor patterns of business . . ."— Sam Walton "Overwhelming! A masterpiece! A lifetime work!"— Sheldon Deal, President, International College of Applied Kinesiology

Is it possible to heal by thought alone—without drugs or surgery? The truth is that it happens more often than you might expect. In *You Are the Placebo*, Dr. Joe Dispenza shares numerous documented cases of those who reversed cancer, heart disease, depression, crippling arthritis, and even the tremors of Parkinson's disease by believing in a placebo. Similarly, Dr. Joe tells of how others have gotten sick and even died the victims of a hex or voodoo curse—or after being misdiagnosed with a fatal illness. Belief can be so strong that pharmaceutical companies use double- and triple-blind randomized studies to try to exclude the power of the mind over the body when evaluating new drugs. Dr. Joe does more than simply explore the history and the physiology of the placebo effect. He asks the question: "Is it possible to teach the principles of the placebo, and without relying on any external substance, produce the same internal changes in a person's health and ultimately in his or her life?" Then he shares scientific evidence (including color brain scans) of amazing healings from his workshops, in which participants learn his model of personal transformation, based on practical applications of the so-called placebo effect. The book ends with a "how-to" meditation for changing beliefs and perceptions that hold us back—the first step in healing. *You Are the Placebo* combines the latest research in neuroscience, biology, psychology, hypnosis, behavioral conditioning, and quantum physics to demystify the workings of the placebo effect . . . and show how the seemingly impossible can become possible. *A Handbook for Constructive Living* Hay House, Inc

The significantly expanded and updated new edition of a widely used text on reinforcement learning, one of the most active research areas in artificial intelligence. Reinforcement learning, one of the most active research areas in artificial intelligence, is a computational approach to learning

whereby an agent tries to maximize the total amount of reward it receives while interacting with a complex, uncertain environment. In Reinforcement Learning, Richard Sutton and Andrew Barto provide a clear and simple account of the field's key ideas and algorithms. This second edition has been significantly expanded and updated, presenting new topics and updating coverage of other topics. Like the first edition, this second edition focuses on core online learning algorithms, with the more mathematical material set off in shaded boxes. Part I covers as much of reinforcement learning as possible without going beyond the tabular case for which exact solutions can be found. Many algorithms presented in this part are new to the second edition, including UCB, Expected Sarsa, and Double Learning. Part II extends these ideas to function approximation, with new sections on such topics as artificial neural networks and the Fourier basis, and offers expanded treatment of off-policy learning and policy-gradient methods. Part III has new chapters on reinforcement learning's relationships to psychology and neuroscience, as well as an updated case-studies chapter including AlphaGo and AlphaGo Zero, Atari game playing, and IBM Watson's wagering strategy. The final chapter discusses the future societal impacts of reinforcement learning.

The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world's major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness returns to the exploration of the ego's expressions and inherent limitations and gives detailed explanations and instructions on how to transcend them. As with the reading of Dr. Hawkins' previous books, the reader's level of consciousness is advanced as a consequence of exposure to the information itself. This opens up avenues to the relief of suffering for oneself and others, which fulfills the purpose of the work and the intention to facilitate the reader's own Enlightenment.

Reveals a breakthrough in documenting a new era of human knowledge. Only in the last decade has a science of Truth emerged that, for the first time in human history, enables the discernment of truth from falsehood. Presented are discoveries of an enormous amount of crucial and significant information of great importance to mankind. Truth and Reality, Dr. Hawkins states, have no secrets, and everything that exists now or in the past—even a thought—is identifiable and calibratable from the omnipresent field of Consciousness itself.

The Power of Love University of Hawaii Press

This, the eighth book in a progressive series based on the revelations of consciousness research, resulted from a group of lectures given by the author at the request of the original publisher of A Course in Miracles, along with members of several self-help groups, including Alcoholics Anonymous, ACIM, Attitudinal Healing Centers, other recovery groups, and a number of clinicians. Our society lives with constant stress, anxiety, fear, pain, suffering, depression, and worry. Alcoholism, drug addiction, obesity, sexual problems, and cancer are constantly in the news. Mankind in general has had very little information about how to address life's challenges without resorting to drugs, surgery, or counseling. In this book, you will learn why the body may not respond to traditional medical approaches. Specific instructions and guidelines are provided that can result in complete healing from any disease. The importance of including spiritual practices in one's healing and recovery program is explained, along with how easy it is to incorporate them in the process. Healing and Recovery provides clinically proven self-healing methods that will enable you to take charge of your health and live a happy, healthy, and fulfilling life.

Close to 60 percent of young people who went to church as teens drop out after high school. Now the bestselling author of unChristian trains his researcher's eye on these young believers. Where Kinnaman's first book unChristian showed the world what outsiders aged 16-29 think of Christianity, You Lost Me shows why younger Christians aged 16-29 are leaving the church and rethinking their faith. Based on new research, You Lost Me shows pastors, church leaders, and parents how we have failed to equip young people to live "in but not of" the world and how this has serious long-term consequences. More importantly, Kinnaman offers ideas on how to help young people develop and maintain a vibrant faith that they embrace over a lifetime.

Learn to let go of the illusions of the ego and discover the real you with this collection of inspiring quotes on the ego, mind, and spiritual enlightenment from human-consciousness expert Dr. David R. Hawkins. Are you willing to let go of seeing yourself as the ego believes you to be? Are you willing to go further, to know that the ego itself is an illusion? In this book, select teachings from Dr. David R. Hawkins's extensive body of work will guide you in the process of realization, surrender, and transformation. When we let go of the old ways of thinking, our attachments, and the false promises of the ego, we discover the truth that we are one with All. Features classic passages, including: • It is not really necessary to subdue the ego, but merely to stop identifying with it. • Every life experience, no matter how "tragic," contains a hidden lesson. When we discover and acknowledge the hidden gift that is there, a healing takes place. • Enlightenment is not a condition to be obtained; it is merely a certainty to be surrendered to, for the Self is already one's Reality. It is the Self that is attracting one to spiritual information. • To be enlightened merely means that consciousness has realized its most inner, innate quality as nonlinear subjectivity and its capacity for awareness. • The only energy that has more power than the strength of the collective ego is that of Spiritual Truth. "This book is small in size, but it can have a massive impact on your life. It will take you through the process of a total transformation of consciousness—if you choose to apply its teachings deeply within yourself." — From the Introduction by Fran Grace, Ph.D.

A dystopian thriller follows a boy and girl on the run from a town where all thoughts can be heard – and the passage to manhood embodies a horrible secret. Todd Hewitt is the only boy in a town of men. Ever since the settlers were infected with the Noise germ, Todd can hear everything the men think, and they hear everything he thinks. Todd is just a month away from becoming a man, but in the midst of the cacophony, he knows that the town is hiding something from him -- something so awful Todd is forced to flee with only his dog, whose simple, loyal voice he hears too. With hostile men from the town in pursuit, the two stumble upon a strange and eerily silent creature: a girl. Who is she? Why wasn't she killed by the germ like all the females on New World? Propelled by Todd's gritty narration, readers are in for a white-knuckle journey in which a boy on the cusp of manhood must unlearn everything he knows in order to figure out who he truly is.

Dissolving the Ego, Realizing the Self Hay House, Inc

I concludes the presentation of a long-predicted major advance in critical human knowledge. It explains and describes the very substrate and essence of consciousness as it evolved from its primordial appearance as life on earth on up through evolution as the human ego, and hence, to the ego's transcendence as the spiritual Reality of Enlightenment and the Presence of Divinity. On the referenced Scale of the Levels of consciousness, which calibrates the levels of Truth from 1 to 1,000, Power versus Force calibrates at 850, The Eye of the I at 980, and the final volume of the trilogy, I, calibrates at a conclusive 999.8. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates the reader's understanding and comprehension. As with the reading of Power versus Force or The Eye of the I, the reader's level of consciousness increases measurably as a consequence of exposure to this material itself, which is presented from a catalytic, powerful field of context and exposition. Conflict is resolved within the mind of the student by means of recontextualization, which solves the dilemma. Argument and adversity are resolvable by identifying the positionalities of the ego which are the basis of human suffering.

The Eye of the I Hay House, Inc

Letting Go describes a simple and effective means by which to let go of the obstacles to Enlightenment and become free of negativity. During the many decades of the author's clinical psychiatric practice, the primary aim was to seek the most effective ways to relieve human suffering in all of its many forms. The inner mechanism of surrender was found to be of great practical benefit and is described in this book. Dr Hawkins's previous books focused on advanced states of awareness and Enlightenment. Over the years, thousands of students had asked for a practical technique by which to

remove the inner blocks to happiness, love, joy, success, health and, ultimately, Enlightenment. This book provides a mechanism for letting go of those blocks. The mechanism of surrender that Dr Hawkins describes can be done in the midst of everyday life. The book is equally useful for all dimensions of human life: physical health, creativity, financial success, emotional healing, vocational fulfillment, relationships, sexuality and spiritual growth. It is an invaluable resource for all professionals who work in the areas of mental health, psychology, medicine, self-help, addiction recovery and spiritual development.

This is the second volume of a trilogy that began with *Power vs. Force* and will be completed in the year 2002 by the publication of the third volume entitled *I: Reality and Subjectivity*. *The Eye of the I* (which calibrates at 950) is more advanced than *Power vs. Force* (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. *The Eye of the I* is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.
