In a problem analysis exercise aimed at vehicle crime, crime mapping was used to help direct the analysis, identify problem areas, and explore the causes of vehicle crime in these areas. Importantly, this analysis also made use of linking spatial information with temporal information to support effective resource deployment.

Crime Mapping and Analysis - GIS Lounge

All the latest breaking UK and world news with in-depth comment and analysis, pictures and videos from MailOnline and the Daily Mail.

[Crime Mapping And Analysis Using](#)

Crime mapping is used by analysts in law enforcement agencies to map, visualize, and analyze crime incident patterns. It is a key component of crime analysis and the CompStat policing strategy. Mapping crime, using Geographic Information Systems, allows crime analysts to identify crime hot spots, along with other trends and patterns.

[Crime Mapping: Improving Performance](#)

Crime analysts use crime mapping and analysis to help law enforcement management (e.g. the police chief) to make better decisions, target resources, and formulate strategies, as well as for tactical analysis (e.g. crime forecasting, geographic profiling).
