"This book
shares the
story of Adel
H., an
Egyptologist,
who, as a

sixteen-year-
old boy, was
trapped for
days under
the Step
Pyramid of
Saqqara.
Based on
conversations
with Adel H.,
the author
tells of the
boy's search
for a way out

of the
underground
world, how the
boy roams
passageways
and chambers
and sees what
he calls
'impossible'
things of
which the
professional
world is
completely

unaware. Adel experiences uncanny events, a mixture of spirit realm and reality, that is described here for the first time. 'The story of Egypt,' Adel says, 'has two sides - the official one and the unknown one.'"

Technology of the Gods

Red Wheel/Weiser Erich von Däniken's monumental Chariots of the Gods changed the way generations have looked at mythology,

ancient history, and the possibility of advanced beings from other worlds visiting Earth. Now he tackles the history of Greece and again challenges our beliefs about how our civilization arose. Using painstaking archaeological research and evidence from the writings of Plato and Aristotle, he suggests that the Greek "myths" were, in fact, very much a reality, that the Greek "gods" were

actually extraterrestria I beings who arrived on Earth many thousands of years ago. Many of you may find von Däniken's conclusions astounding, but they are argued with such vigor and clarity that you'll be forced to consider the implications of his findings for mankind. Odyssey of the Gods includes new, eye-opening information about: A revolutionary interpretation of the sites and legends of

ancient Greece The conflict between "alien" gods and humans The true origin of centaurs, the Cyclops, and other "mythical" creatures A startling new explanation of the Atlantis legend

In Search of Ancient Gods

Red Wheel/Weiser Technology of the Gods lays out the mind-bending evidence that long-lost civilizations had attained and even exceeded our "modern" level of

advancement. Westerners have been taught that humankind has progressed along a straight-line path from the primitive past to the proficient present, but the hard, fast evidence (literally written in stone!) proves that the ancients had technologies we cannot even replicate today.

Twilight of the Gods Red Wheel/Weiser Research findings are presented to support the

author's theories and speculations about the validity of extraterrestrial intelligence. Chariots of the Gods? Berkley The father of the ancient alien theory with more than 65 million books sold reveals everything he has withheld for years. In all his years of service, why didn't Erich von Däniken ever doubt his theory that inhabitants of other planets had come into contact with humanity ages ago, and that they still

observe us today? How could von Däniken in all these years say firmly that the UFO phenomenon is real and that people are being abducted by aliens? Why does he repeatedly criticize the official historiography and our religions and thus accept scorn and hostility? The answers to these questions are: Because Erich von Däniken spoke to people who supported his theories.

Because people who saw UFOs or were kidnapped by aliens trusted him. And because experts and insiders inaugurated secrets known to only a few people. In this book, the now 81-year-old presents selected eyewitnesses and insiders for the first time, reveals secrets and stories that he has hitherto kept private, and presents reports and revelations that leave one speechless! *Chariots of the*

Gods
HarperCollins
We live in an age of information. But there are things in our prehistory "about which we do not have the faintest idea," writes best-selling author Erich von Däniken in his gripping new book, *Remnants of the Gods*. Stone structures erected by master builders, mysterious underground complexes, geometrically aligned stone circles, the breathtaking

pyramids of Egypt--who built them? And, perhaps more importantly, where did these builders obtain such incredible knowledge? Erich von Däniken shows in detail how whole countries were surveyed thousands of years ago. Hundreds of Stone Age holy places are located at equal distances from one another, forming giant squares and triangles. How was all of this possible?

Classic archaeology provides no answers to these questions. Worse still, it doesn't even appear to be interested. Are we all threatening to become "camp followers of disinterest," as Erich asks? Featuring more than 160 color photos and illustrations, Erich reveals the secrets of "impossible buildings" in Europe and the Mediterranean region, describes "crazy facts,"

and relentlessly exposes false doctrines. Remnants of the Gods will make even strident skeptics reconsider what they think they know of the past. *The Long Awaited Sequel to the Worldwide Best-seller Chariots of the Gods* Putnam Publishing Group The author of *Chariots of the Gods* presents astounding theories about alien contact with Earth from ancient history—updat

ed with new evidence from his research into formerly inaccessible sites Why do flying machines and astronauts appear in the artworks and sacred texts of all ancient cultures? What is the meaning of the immense earth drawings, impossible to view from the ground, that can be found all over the globe? How could prehistoric cultures have engraved diorite and other hard rock with such

incredible precision without the use of modern tools? In this mind-bending new book, Erich von Däniken—best selling author and expert on extraterrestrial influences on early civilization—draws on his latest research to update his astounding theory that the inhabitants of other planets have kept in contact with humankind since the earliest times.

- Assess for yourself the stunning

visual evidence presented in some 200 photographs.

- Examine previously unpublished testimony from expert informants.
- Discover new research undertaken by von Däniken after the opening up of previously inaccessible regions, such as the jungle city “Buritaca 200” in Colombia. Featuring profiles of Machu Picchu, the Nazca Lines, and other archaeological mysteries,

Impossible Truths shines a startling new light on the true relationship between alien species and humankind. Arrival of the Gods Penguin

Were human beings created by powers from outer space? Did extraterrestrials giants build the megaliths of Malta and the menhirs of Brittany? Was the Ark of the Covenant a machine built by the astronaut gods? In Signs of the Gods Erich von Däniken

travels far and wide around the globe to study the many strange phenomena that all point to one conclusion--- that many thousands of years ago, Earth was visited by a race of superhuman powers and intelligence. The questions he addresses along the way include: Why are the religious sites in Greece all laid out in the same geometrical pattern---a pattern which is repeated throughout

the world? Does the extraordinary longevity of the ancient Sumerian kings mean that the Land of the Two Rivers was ruled by a race of supermen? Could the first men have been produced by cloning? Do the great ruins of Zimbabwe point to an impossibly detailed knowledge of astronomy? Erich von Däniken's Chariots of the Gods provoked a worldwide storm of

controversy. In Signs of the Gods? he produces powerful arguments to support his theory of astronaut gods, with evidence that is difficult to explain any other way. Hear what he has to say with an open mind---and you may find yourself agreeing with him.

The Eyes of the Sphinx

Red Wheel/Weiser
Ten years after John Carter was transported back to Earth against his

will, he returns to Mars. Having been sent back to Earth before the birth of his child, Carter is desperate to reunite with his wife, Dejah, and meet their child. However, the reunion is forced to be postponed when Carter realizes that he materialized in an unfamiliar part of the planet. Known as the Valley Dor, Carter has landed in the Barsoomian afterlife, where no-one

is allowed to depart. But, when Carter's old friend, a Tharkian named Tars, embarks on a journey of pilgrimage to find Carter in the Valley Dor, the two share a jovial reunion. As the two are eager to leave the Valley Dor, they stumble upon a shocking discovery. The pair of friends are shaken by the finding of a new Martian race, the Therns, who are self-proclaimed gods. The Therns had been

deceiving the other Barsoomians for centuries, but are determined to cause even more damage. With run ins with armies, fierce battles, and valiant rescues, John Carter must once again overcome political turmoil to save his people and reunite with his family. Featuring heroic adventures and plot twists, *The Gods of Mars* by Edgar Rice Burroughs is a fun sequel to the classic

pulp fiction novel, *A Princess of Mars*. With themes of race and religion, Burroughs' *The Gods of Mars* proves to be as thought-provoking as it is exciting and fantastical. Praised for its descriptive prose, *The Gods of Mars* is a perfect exhibit of the imagination and talent of Edgar Rice Burroughs. This edition of *The Gods of Mars* by Edgar Rice Burroughs features a new, eye-catching cover

design and is printed in an easy-to-read font. With these accommodations, *The Gods of Mars* caters to a modern audience while preserving the original wonder and adventure of Edgar Rice Burroughs' work. [The God Theory Anchor](#) Erich von Dãxniken, whose books have enthralled millions of readers around the world, now presents astonishing new

confirmation for his revolutionary theories. From a mysterious system of caves and tunnels (filled with gold!) in Ecuador to the ancient ruins of Nan Madol in Micronesia (composed of basalt blocks impossible to transport without advanced technology) the author explores the inexplicable artifacts of bygone ages. Elucidating undeciphered writings and drawings in solid gold which take us back in time

to the Great Flood, he ultimately suggest an intergalactic battle of the gods whose losers retreated to, and settled, our earth. Includes an introduction and update by Ancient Aliens star David Hatcher Childress. First released in 1974, this classic book about an underground world in South America is back in print! 8-page color section. *Amazing Evidence of Extraterrestria I Contact*

All over the world there are fantastic ruins and objects that cannot be explained by conventional history, archaeology or religion. In the groundbreaking Chariots of the Gods, Erich von Daniken provides answers to these questions...why do religious texts often refer to Gods who descend from fiery chariots? Why do modern space launch sites look like constructions on the plains

of Nazca in Peru? Was God an astronaut? By looking at human history and the ruins of ancient civilisations with an open mind, Erich von Daniken offers a new solution to these eternal mysteries in Chariots of the Gods. Why, for instance, do the world's sacred books describe Gods who came down from the sky in fiery chariots and always promised to return? How could an ancient Sanskrit text

contain an account which could only be of a journey in an alien craft? Compare photographs of American space centre launch sites to the constructions on the plains of Nazca in Peru. In order to understand the mysteries which Erich von Daniken has catalogued we must go back to these ancient relics with an open mind. We must call in the resources and experience of sciences other than

archaeology. Chariots of the Gods is a provocative attempt to explain some of the universe's most interesting mysteries. Erich von Daniken has spent a lifetime gathering evidence to prove that, before the dawn of recorded history, our ancestors were visited by an alien race. Erich von Daniken was responsible for popularising the ancient astronaut hypothesis of

human development. Orthodox historians have been sceptical but a vast public have been drawn to his ideas by instinctive interest and wonder. His 26 books have sold over 60 million copies in over 40 languages.

UFOs vibrate with transcendence, omniscience, perfection, and redemption. UFOs: God's Chariots? delves deeply into government conspiracies, analyzes the newest models of close encounter

interpretation, and reveals the results of The Peters ETI Religious Crisis Survey, in which self-identified believers were asked if making contact with an intelligent extraterrestrial civilization would undermine our historic religious traditions. They said no. Does this mean we're ready to share our pews with aliens? *The Gold of the Gods* Coronet All over the world there are fantastic

readers new to the show, Ancient Aliens® is a compelling journey through the mysteries of our ancient civilizations and the possibility of alien influence on our cultures. [Origins of the Gods](#) New Page Books When Chariots of the Gods was published 50 years ago, it began a worldwide change in humanity's view of the cosmos. In an era of the military space race, Erich von Däniken

boldly proclaimed that Earth had been visited by more advanced beings early in our history. But prescientific man had no concept of space ships, so he called their vehicles “chariots,” and those driving the chariots became “gods.” Over the next five decades, von Däniken’s more than 40 books built an ever-stronger case for Earth being visited by extraterrestrial visitors. And

Chariots became an international best seller, with 30 million copies sold in more than two dozen languages. Also during that time, the case for ET visitations millennia ago was being reexamined by contemporary UFO researchers, who found evidence of modern visitations. And von Däniken expanded his perspective to encompass the present. Now, he presents his

long-awaited sequel to Chariots of the Gods, proclaiming that the gods never left us with all-new material to show that ancient aliens are still with us. The Gods Never Left Us contends that recent advancements in biotechnology, astrophysics, engineering, and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it. We are—as a

race—embarking on the exact same trajectory of our own interplanetary colonization, just as von Däniken suggested Earth itself was colonized. ETs are definitely at work today. And that affects all of us. Why do they do what they do? What could an extraterrestrial species possibly gain from observing us in the same way we look at ants? What have these strangers wanted for the

past thousands of years? Can't they leave us alone? And what makes it so difficult for us to acknowledge the existence of these extraterrestrials? That is what this book deals with. "Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research. As always, he adds his own "to the point" take on it all.

Readers may also like that his newest work moves in a slightly different direction from his past books. A thoroughly enlightening and enjoyable Read."
—Bruce Cunningham, Director, Ancient Mysteries International LLC & Publisher of Advanced Archaeology Review magazine [Unsolved Mysteries of the Past](#) Red Wheel/Weiser Disperses the prejudices and misconception

s that surround the Mayan Calendar, 2012, and the existence of extraterrestrial life.
