bailment and pledge; Contracts of agency □ Sale of Goods Act, 1930: Sale and agreement to sell; Doctrine of Caveat Emptor; Rights of unpaid seller and rights of buyer □ Negotiable Instruments Act, 1881: Types of negotiable instruments; Negotiation and assignment; Dishonour and discharge of negotiable instruments □ The Companies Act, 2013: Nature and kinds of companies; Company formation; Management, meetings and winding up of a joint stock company □ Limited Liability Partnership: Structure and procedure of formation of LLP in India □ The Competition Act, 2002: Objectives and main provisions □ The Information Technology Act, 2000: Objectives and main provisions; Cyber crimes and penalties □ The RTI Act, 2005: Objectives and main provisions □ Intellectual Property Rights (IPRs) : Patents, trademarks and copyrights; Emerging issues in intellectual property □ Goods and Services Tax (GST): Objectives and main provisions; Benefits of GST; Implementation mechanism; Working of dual GST Unit 10: Income-tax and Corporate Tax Planning □ Income-tax: Basic concepts; Residential status and tax incidence; Exempted incomes; Agricultural income; Computation of taxable income under various heads; Deductions from Gross total income; Assessment of Individuals; Clubbing of incomes □ International Taxation: Double taxation and its avoidance mechanism; Transfer pricing □ Corporate Tax Planning: Concepts and significance of corporate tax planning; Tax avoidance versus tax evasion; Techniques of corporate tax planning; Tax considerations in specific business situations: Make or buy decisions; Own or lease an asset; Retain; Renewal or replacement of asset; Shut down or continue operations □ Deduction and collection of tax at source; Advance payment of

tax; E-filing of income-tax returns

Mocktime Publication Oswaal Books and Learning Private Limited

In a series of 100 mini workshops on proposal development during one month training of senior professionals on research methodology, orientation and refresher training of faculty from universities and colleges, and analysis of data of more than 5000 Ph.D scholars and national level projects by the authors of this book, several pitfalls emerged in the selection of research area and topic/title of a study, objectives, hypothesis formulation, research design, development of research tools, and analysis of data. The errors committed at planning stage of research continue throughout the research work and get its serious reflection in the quality of research. During the training, the presentation of Research Proposals developed as part of individual and group assignments reinforced the faith of authors that the skills required for quality research are missing in the system. And it cannot be fully overcome through the tutorial methodology. The knowledge about the research process is crucial but not sufficient to enrich the research skills for quality research. It was realized that most of the books do not explain how to decide the research area and title of a study? How to set the objectives and how to establish relationship between two? These two features not independent constructs and should be mirror of each other. How to ensure the quality in the review of literature? How should it be carried out? How to find research gaps and how to set research questions to be answered in the research studies? How to formulate correct hypothesis, decide the research design, and develop research tools? How and from where to pick up variables for developing the research tools? How

much crystallization of each objective helps researchers to get items for developing the tools such as questionnaire, interview schedule, check list for observation, and measurement scale for attitude, perception, belief, etc. about the phenomenon under exploration. What type of statistical tools are used for data analysis? In-depth understanding of these sub-steps under each stage of research looks to be bigger area of confusion for researchers. The book on Research Skill Development in Social Sciences, Communication and Management has been written in the self-guide form to answer the issues listed above

This book presents selected papers from the International Conference on Emerging Research in Computing, Information, Communication and Applications, ERCICA 2018. The conference provided an interdisciplinary forum for researchers, professional engineers and scientists, educators, and technologists to discuss,

debate and promote research and technology in the emerging areas of computing, information, communication and their applications. The book discusses these research areas, providing a valuable resource for researchers and practicing engineers alike.
