Inflows to ASEAN

Economies recount the

development experience

of ASEAN over the past 50

years, describe the long-

term mega-trends which

will shape ASEAN's

development trajectory,

and propose a

development vision with

actionable policy recommendations for ASEAN to become the fourth-largest economy in the world by 2030. Into its fifth edition, the book updates the annual economic competitive analysis for ASEAN-10 conducted by the Asia Competitiveness Institute (ACI). It also introduces an innovation to the institute's methodological framework which is the use of Shapley values to come up with objective weights for indicators, sub-environments and environments in the

competitiveness index. This methodological innovation not only adds an element of objectivity in terms of the assignment of weights, but also validates the robustness of results obtained from the competitiveness studies over the past years. Recognising the importance of foreign direct investment (FDI) to growth and development in the region, the book also presents an empirical investigation of the drivers of FDI inflows, with specific focus on the

effects of exchange rate and its volatility. For a group of economies looking to leverage on FDI and trade to transform themselves into the fourth-largest economy in the world, it is important for ASEAN to achieve high external competitiveness, especially in terms of the member states' real effective exchange rates (REER). These research findings make important academic and policy contributions by teasing out the relationship between REER levels, volatility and FDI in the

ASEAN context. Finally, the book collates speeches by academics and policy-makers on issues of key interests to the future development of ASEAN. It contains the reflection on the ASEAN Charter by Professor Tommy Koh, Ambassador-at-Large at the Ministry of Foreign Affairs of Singapore. Moreover, the discussions on the One Belt One Road initiative and its implication for the region by Mr K Shanmugam, Minister for Home Affairs and Minister for Law of Singapore; and Professor

Liew Mun Leong, Chairman of Surbana Jurong and Changi Airport Group as well as Provost Chair and Professor of NUS make this book a valuable compendium for policy-makers, thinkers, and anyone who has an interest in Southeast Asia and the Asia-Pacific. [Brexit](#) Information Gatekeepers Inc The report on the state of the drugs problem in Europe presents the EMCDDA's yearly overview of the drug phenomenon. This is an essential reference book

for policymakers, specialists and practitioners in the drugs field or indeed anyone seeking the latest findings on drugs in Europe. Published every autumn, the report contains non-confidential data supported by an extensive range of figures.

World Food and Agriculture - Statistical Pocketbook 2020 Council of Europe

Against the background of political turmoil in the Middle-East, Europe faces an unprecedented surge

in asylum applications. In analyzing the economic impact of this inflow, this paper draws from the experience of previous economic migrants and refugees, mindful of the fact that the characteristics of economic migrants can be different from refugees. In the short-run, additional public expenditure will provide a small positive impact on GDP, concentrated in the main destination countries of Germany, Sweden and Austria. Over the longer-term, depending on the

speed and success of the integration of refugees in the labor market, the increase in the labor force can have a more lasting impact on growth and the public finances. Here good policies will make an important difference. These include lowering barriers to labor markets for refugees, for example through wage subsidies to employers, and, in particular, reducing legal barriers to labor market participation during asylum process, removing obstacles to entrepreneurship/self-

employment, providing job training and job search assistance, as well as language skills. While native workers often have legitimate concerns about the impact of immigrants on wages and employment, past experience indicates that any adverse effects are limited and temporary.

2017 Annual Competitiveness Analysis And Impact Of Exchange Rates On Foreign Direct Investment Inflows To Asean Economies World Bank Publications

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using

nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities

to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of

Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalfindex. *Anti-corruption Measures in EU Border Control* Unipub. This publication provides a statistical portrait of the

European Union in relation to the rest of the world. It presents a broad range of indicators for the EU and the non-EU members of the Group of Twenty (G20). It treats the following areas: population; living conditions; health; education and training; the labour market; economy and finance; international trade; industry, trade and services; research and communication; transport; agriculture, forestry and fisheries; the environment; and energy.

The publication, which complements information found in Europe in figures &#x; the Eurostat yearbook and in the Eurostat regional yearbook, may be viewed as an introduction to European and international statistics. It provides a starting point for those who wish to explore the wide range of data that are freely available from a variety of international organisations and on Eurostat&#x;s website. *Book of Abstracts of the 65th Annual Meeting of*

This volume, developed by the Observatory together with OECD, provides an overall conceptual framework for understanding and applying strategies aimed at improving quality of care. Crucially, it summarizes available evidence on different quality strategies and provides recommendations for their implementation. This book is intended to help

policy-makers to understand concepts of quality and to support them to evaluate single strategies and combinations of strategies.

Statistical information is an important tool for analysing changing patterns of urban

development and the impact that policy decisions have on life in our cities, towns and suburbs. Urban Europe - statistics on cities, towns and suburbs provides detailed information for a number of territorial typologies that can be used to paint a picture of urban developments and urban life in the EU Member States, as well as EFTA and candidate countries. Each chapter presents statistical information in the form of maps, tables and figures, accompanied by a

description of the policy context and a set of main findings. The publication is broken down into two parts : the first treats topics under the heading of city and urban developments, while the second focuses on the people in cities and the lives they lead. Overall there are 12 main chapters, covering : the urban paradox, patterns of urban and city developments, the dominance of capital cities, smart cities, green cities, tourism and culture in cities, living in cities,

working in cities, housing in cities, foreign-born persons in cities, poverty and social exclusion in cities, as well as satisfaction and the quality of life in cities. [European Union Agencies as Global Actors](#) World Bank Publications
The major Commentary on the Treaty on European Union (TEU) is a European project that aims to contribute to the development of ever closer conceptual and dogmatic standpoints with regard to the creation of a “Europeanised research

on Union law". This publication in English contains detailed explanations, article by article, on all the provisions of the TEU as well as on several Protocols and Declarations, including the Protocols No 1, 2 and 30 and Declaration No 17, having steady regard to the application of Union law in the national legal orders and its interpretation by the Court of Justice of the EU. The authors of the Commentary are academics from ten

European states and different legal fields, some from a constitutional law background, others experts in the field of international law and EU law professionals. This should lead to more unity in European law notwithstanding all the legitimate diversity. The different traditions of constitutional law are reflected and mentioned by name thus striving for a common framework for European constitutional law.

Can a distinct national foreign policy still be identified for small EU member states, and what accounts for the balance between national and EU foreign policy? Henrik Larsen develops an analytical framework for analyzing these questions and offers solutions through an empirical examination of the foreign policy of a small EU member state in the context of EU foreign policy - the case of Denmark. The book looks at seven policy areas: policy towards other EU

member states, anti-terrorism, development, the Balkans, Africa, Latin America and trade. On the basis of the empirical study, the implications for the theoretical study of national foreign policy in an EU Context are outlined. It is suggested that we need a new, mixed approach to foreign policy analysis within the EU taking into account the nature of the policy area concerned and national conceptions of actorness. In June 2016, the United Kingdom shocked the world by voting to leave the European Union. As this book reveals, the historic vote for Brexit marked the culmination of trends in domestic politics and in the UK's relationship with the EU that have been building over many years. Drawing on a wealth of survey evidence collected over more than ten years, this book explains why most

people decided to ignore much of the national and international community and vote for Brexit. Drawing on past research on voting in major referendums in Europe and elsewhere, a team of leading academic experts analyse changes in the UK's party system that were catalysts for the referendum vote, including the rise of the UK Independence Party (UKIP), the dynamics of public opinion during an unforgettable and divisive referendum campaign, the factors that influenced

how people voted and the likely economic and political impact of this historic decision. [Analysing the Foreign Policy of Small States in the EU](#) OECD Publishing By the end of this century, 9 out of 10 Europeans will live in an urban area. But what kind of city will they call home? You'll find all the answers in CITY, TRANSFORMED, the new essay series from the European Investment Bank. This panoramic first essay in the series lays out a great sweeping history of European cities

over the last fifty years—and showcases new directions being taken by some of our most innovative cities. Urban experts Greg Clark, Tim Moonen, and Jake Nunley based at University College London take a definitive look at how Europe's cities transformed from post-industrial decline to thriving metropolises that are as prosperous and liveable as anywhere on Earth. *Annual Competitiveness Analysis And Impact Estimation Of Exchange*

In the midst of turbulence in the international trade, this book titled Annual Competitiveness Analysis and Impact Estimation of Exchange Rates on Trade in Value-Added of ASEAN

Economies provides a comprehensive overview on recent developments and policy initiatives in ASEAN, highlighting its strengths and weaknesses in facing the trade disruption from global events such as the US-China trade dispute, the rise of protectionist sentiments, and the expansion of China's Belt and Road Initiative. This sixth instalment features an update on ACI's annual competitiveness index for ASEAN-10 economies. Using a total of 121 indicators, the study

analyses the competitiveness of the 10 ASEAN countries across four environments namely (i) Macroeconomic Stability, (ii) Government and Institutional Setting, (iii) Financial, Businesses and Manpower Conditions, and (iv) Quality of Life and Infrastructure Development. Also in this book is an in-depth coverage on trade, a key component of the ASEAN economy, and the integration of ASEAN into wider value chains. This phenomenon heavily features ongoing efforts

to develop ASEAN and creates the need for a deeper understanding of the impact of these global value chains on trade in ASEAN. This book examines and provides empirical insights on the impact of real effective exchange rates on exports in ASEAN economies within the context of increased participation in global value chains. The findings have direct policy implications in the management of monetary policy. Additionally, this book provides an

extensive discussion on the impact of the US-China Trade War on ASEAN, presenting the background analysis on the annals of the dispute as well as examining determining factors that may positively or negatively affect the trade and investment landscape in ASEAN. This latest edition also features a compilation of speeches and writings by academics and policymakers on key issues and development of ASEAN. It includes a speech by Minister

Lawrence Wong, Minister for National Development and Second Minister for Finance on the importance of infrastructure development for economic competitiveness. On top of that, this book also features an essay by Mr Bilahari Kausikan, Chairman of the Middle East Institute at the National University of Singapore, and former Permanent Secretary at the Ministry of Foreign Affairs of Singapore, which addresses the

impact of the US-China trade war on ASEAN.

Transport Statistics 4th Edition Wiley-Blackwell

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997

about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate

problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading. *Improving Healthcare Quality in Europe Characteristics,*

Effectiveness and Implementation of Different Strategies
European Investment Bank

This book tells the inside story of those who played key roles in setting up the organisations and combatting the crisis. In exclusive interviews, global financial leaders and ESM insiders provide a rich stock of perspectives and anecdotes that bring to life the urgency of the crisis as well as the innovative solutions found to resolve it. The

European Stability Mechanism and its temporary predecessor the EFSF provided billions of euros in loans to five hard-hit euro area countries during the European financial and sovereign debt crisis of the early 2000s, helping to safeguard the stability of those countries and the euro area as a whole. Initially, the crisis-torn euro area was ill-equipped institutionally, but the rapid establishment of the firewalls, the assistance programmes, deep-seated country reforms, the

strengthening of European institutions, and extraordinary European Central Bank measures shielded Europe from a euro area break-up. With the EFSF/ESM set-up, its managers aspired to create a new, more entrepreneurial international financial institution, one that is agile enough to respond quickly to new challenges, while still ensuring the strict governance befitting an organisation pursuing a public mission. The euro area has emerged from near disaster in more

robust shape. As Europe strives to further strengthen its architecture in preparation for any possible future crises, it is important to reflect upon how the euro area reinvigorated its fortunes and draw the relevant lessons for future crisis management in Europe and beyond. *The Refugee Surge in Europe* Cosimo Reports This volume traces the history of antisemitism from antiquity through contemporary manifestations of the

discrimination of Jews. It documents the religious, sociological, political and economic contexts in which antisemitism thrived and thrives and shows how such circumstances served as support and reinforcement for a curtailment of the Jews' social status. The volume sheds light on historical processes of discrimination and identifies them as a key factor in the contemporary and future fight against

antisemitism. *Code européen de sécurité sociale et Protocole au Code européen de sécurité sociale (STE 48)* World Scientific
This book is a world-class report by the Asia Competitiveness Institute, updated annually to analyse Indonesia's competitiveness at the provincial level. With 104 indicators covering four environments, the study's unique methodology incorporates comparative strengths and weaknesses. Apart from

scores and rankings, what-if policy simulations offer various provinces practical prescriptions to improve overall competitiveness to accelerate economic growth and development in a balanced, fair and sustainable way. Such qualitative and quantitative analyses in collaboration with various stakeholders generate an exciting pathway for Indonesia to attain its rightful place in both the Asian region and global contexts.
