## LIVIA MORIAH

**A Revision of Bloom's Taxonomy of Educational Objectives** OUP Oxford  
 Surveys the various techniques that can be used to evaluate students' learning, including summative, diagnostic, and formative approaches and the assessment of specific skills  
**A Taxonomy for Learning, Teaching, and Assessing** Hodder Education  
 This textbook provides full coverage of all core Topics and Options for students at both Standard and Higher levels. There are clear explanations and worked examples throughout. The 'Additional perspectives' provide opportunities for in-depth study.  
**Chemistry for the IB Diploma Coursebook with Free Online Material** Oxford University Press, USA  
 NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT--OVERSTOCK SALE -- Significantly reduced list price USDA-NRCS. Issued in spiral ringbound binder. By Philip J. Schoeneberger, et al. Summarizes and updates the current National Cooperative Soil Survey conventions for describing soils. Intended to be both current and usable by the entire soil science community."  
**Physics for the IB Diploma Full Colour** Hodder Education  
 A best-seller now available in full colour, covering the entire IB syllabus.  
**Oxford IB Diploma Programme: Economics Course Book** IB Physics Course Book for the IB Diploma  
 This United States-focused anthology on gender focuses on women and men and the multiple identities that comprise the lives of individuals across gender. Drawing from a wide range of sources including research articles, essays, and personal narratives, Disch has chosen accessible, engaging, and provocative readings that represent a plurality of perspectives and experiences. Eleven part introductions briefly identify important issues in the general field of study, describe the readings, identify the central themes emerging throughout the book, and raise questions for students to consider.  
**Oxford IB Diploma Programme: Sports, Exercise and Health Science Course Companion** Cambridge University Press  
 Biology for the IB Diploma, second edition covers in full the requirements of the IB syllabus for Biology implemented in 2014.  
**Ib study guide:physics (2014). Per le Scuole superiori** Cambridge University Press  
 An ideal reference guide to introducing the IB Diploma in your school.  
**Field Book for Describing and Sampling Soils** Government Printing Office

**IB Physics Course Book for the IB Diploma** OUP Oxford  
**Physics for the IB Diploma Study and Revision Guide** Heinemann Educational Publishers  
 This fourth edition of Physics for the IB Diploma has been written for the IB student. It covers the entire new IB syllabus including all options at both Standard and Higher levels. It includes a chapter on the role of physics in the Theory of Knowledge along with many discussion questions for TOK with answers. There are a range of questions at the end of each chapter with answers at the back of the book. The book also includes worked examples and answers throughout, and highlights important results, laws, definitions and formulae. Part I of the book covers the core material and the additional higher level material (AHL). Part II covers the optional subjects.  
**The International Baccalaureate** Hachette UK  
 This comprehensive and engaging text, developed in cooperation with the IB, follows the new curriculum for first assessment in 2022. With accessible, engaging lessons students will actively relate economics to real-world issues and the global economy. The international examples and case studies encourage students to analyse economics in terms of present-day challenges and concerns. Conceptual links are provided to help students understand the over-arching big questions that relate economics to the multi-faceted challenges of the world economy including how it works and changes over time. Through inquiry-based tasks and links to TOK and ATL activities students will gain a deep understanding of economics. Practice activities will develop the skills required to succeed in the IB assessment including exam-style questions and data response questions. Clear explanations will help students achieve assessment success. About the Series: Oxford's IB Diploma Course Books are essential resource materials designed in cooperation with the IB to provide students with extra support through their IB studies. Course Books provide advice and guidance on specific course assessment requirements, mirroring the IB philosophy and providing opportunities for critical thinking.  
**Physics** Hodder Education  
 This self-contained text describes breakthroughs in our understanding of the structure and interactions of elementary particles. It provides students of theoretical or experimental physics with the background material to grasp the significance of these developments.  
**Evaluation to Improve Learning** Elsevier  
 The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

**IB Physics Course Book** OUP Oxford  
 Thorough and engaging, this new book has been specifically developed for the 2011 English A: Literature syllabus at both SL and HL. With activities, student model answers and examiner commentaries, it offers a wealth of material to support students in every aspect of the new course.  
**Biology** OUP Oxford  
 This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the Oxford Biology Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. About the series: Reinforce student understanding of all the crucial subject material. Fully comprehensive and matched to the most recent syllabuses, these resources provide focused review of all important concepts, tangibly strengthening assessment potential.  
**Physics** McGraw-Hill Humanities Social  
 An in-depth guide containing accurate and accessible notes, examiner advice and exam-style questions on each IB key topic, including 'Section B' type questions and multi-stage problems, this text covers all the theory and knowledge needed for the latest IB Mathematics syllabus  
**IB Chemistry Course Book** Cambridge University Press  
 Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in 2016. This workbook is specifically for the IB Physics syllabus, for examination from 2016. The Physics for the IB Diploma Workbook contains straightforward chapters that outline key terms, while providing opportunities to practise core skills, such as handling data, evaluating information and problem solving. Each chapter then concludes with exam-style questions. The workbook reinforces learning through the course and builds students' confidence using the core scientific skills - empowering them to become confident independent learners. Answers to all of the questions in the workbook are on the CD-ROM.  
**For the IB diploma** Oxford University Press - Children  
 Ensure students can aim for their best grade with the help of accurate and accessible notes, expert advice, and exam-style questions on each key topic. - Builds revision skills through a range of strategies and detailed expert advice - Covers all the knowledge with concise, clear explanations of all the syllabus requirements and topics - Demonstrates what is required to get the best grades with tips, sample questions and model answers  
 Answers are free online at [www.hoddereducation.com/IBextras](http://www.hoddereducation.com/IBextras)  
**Pearson Baccaulaureate Physics Standard Level 2nd Edition Print**

*and Ebook Bundle for the IB Diploma* London : G. G. Harrap  
 This book has been designed specifically to support the student through the IB Diploma Programme in Mathematical Studies. It includes worked examples and numerous opportunities for practice. In addition the book will provide students with features integrated with study and learning approaches, TOK and the IB learner profile. Examples and activities drawn from around the world will encourage students to develop an international perspective.

*For the IB diploma* Oxford University Press - Children  
 Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in

2016. This Exam Preparation Guide contains up-to-date material matching the 2016 IB Diploma syllabus and offers support for students as they prepare for their IB Diploma Physics exams. The book is packed full of Model Answers, Annotated Exemplar Answers and Hints to help students hone their revision and exam technique and avoid common mistakes. These features have been specifically designed to help students apply their knowledge in exams. The book also contains lots of questions for students to use to track their progress. The book has been written in an engaging and student friendly tone making it perfect for international learners.

[The Physics of Gamma-Ray Bursts](#) Cambridge University Press  
 Chemistry for the IB Diploma, Second edition, covers in full the

requirements of the IB syllabus for Chemistry for first examination in 2016. This digital version of Chemistry for the IB Diploma Coursebook, Second edition, comprehensively covers all the knowledge and skills students need during the Chemistry IB Diploma course, for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Chemistry teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.
