In this Ralph Compton western, the Strange twins find themselves in double trouble... Young Jed and Tim Strange lost their father to an outlaw's bullet, and now their mother has succumbed to a fatal illness. Unable to farm their land due to a lack of funds, the twins set out to find their sister—who left home to avenge their father's death over a year ago. Farm life hasn't prepared the twins for the rough-and-tumble cow towns west of Missouri. And before they even begin their search, they're accused of a murder they didn't commit. Just barely escaping a posse's rope, the twins are on the run—wounded, hounded by the law, and desperately seeking the true killers... More Than Six Million Ralph Compton Books In Print!

Inner city communities in the US have become "junkyards of dreams," to quote Mike Davis--wastelands where gangs package narcotics to stimulate the local economy, gunshots occur multiple times on any given day, and dreams of a better life can fade into the realities of poverty and disability. Laurence Ralph lived in such a community in Chicago for three years, conducting interviews and participating in meetings with members of the local gang which has been central to the community since the 1950s. Ralph discovered that the experience of injury, whether physical or social, doesn't always crush dreams into oblivion; it can transform them into something productive: renegade dreams. The first part of this book moves from a critique of the way government officials, as opposed to grandmothers, have been handling the situation, to a study of the history of the historic "Divine Knights" gang, to a portrait of a duo of gang members who want to be recognized as "authentic" rappers (they call their musical style "crack music") and the difficulties they face in exiting the gang. The second part is on physical disability, including being wheelchair bound, the prevalence of HIV/AIDS among heroin users, and the experience of brutality at the hands of Chicago police officers. In a final chapter, "The Frame, Or How to Get Out of an Isolated Space," Ralph offers a fresh perspective on how to understand urban violence. The upshot is a total portrait of the interlocking complexities, symbols, and vicissitudes of gang life in one of the most dangerous inner city neighborhoods in the US. We expect this study will enjoy considerable readership, among anthropologists, sociologists, and other scholars interested in disability, urban crime, and race.

"Once I started this incomparable story, I couldn't put it down, and I cannot get it out of my mind—nor will I ever. The message of what can be accomplished by training through affection and joy will thrill all animal lovers." —Betty White
 A captivating true story of loyalty, friendship, and high adventure that spans several decades and three continents, Modoc is one of the most remarkable true stories ever told, perfect for fans of *The Zookeeper's Wife* or *Water for Elephants*. Raised together in a small German circus town, a boy and an elephant formed a bond that would last their entire lives, and would be tested time and again: through a near-fatal shipwreck in the Indian Ocean, an apprenticeship with the legendary Mahout elephant trainers in the Indian teak forests, and their eventual rise to circus stardom in 1940s New York City. As the *African Sun-Times* put it, Modoc is "heartwarming. . . probably the greatest love story ever told."

This book is the most comprehensive and up-to-date book on gold prospecting. Within its pages is everything you need to know to find gold today. Full of practical information and great illustrations, it is designed to be the one prospecting book you will

never outgrow. Whether you are a beginner or have twenty years of prospecting experience, you will find a wealth of new information and tips in these pages. From equipment operations, to the geology of how gold deposits form, to the nature of coarse gold nuggets, this book takes a unique and different approach in teaching the "trade skills" of prospecting. How many times can you cheat death on your path to enlightenment? Meet Ralph "Corky" Matson, a modern-day urban shaman who consistently beats the odds. In this captivating memoir, Matson leads us through Woodstock, down drug alleys, over mountain ashrams and around gamblers on a never-ending quest for higher consciousness as he struggles with his inner demons--and angels. Born to a devoted mother who struggled to protect him from the unjustified hatred of a tyrannical father, Matson grew up in poverty with a negative self-image that haunted him even as he associated with remarkable people such as Ram Dass, Timothy Leary, Rammurti S. Mishra, Swami Rama, Elias DeMohan and Patricia Cota Robles. His many brushes with death, including accidents, tumors, overdoses and heart failure only confirmed his spiritual beliefs and demonstrated the miraculous power of healing. Journey with him as he not only overcomes the hardships of an uncertain early life, but grieves the loss of two wives to illness and forgives the father who tormented him. There is a tangible love felt in these pages, for every character we encounter. Even in his depictions of heartbreak or cruelty, Matson generously renders a world--and a philosophy--of devotion, kindness, and perseverance that is the underlying thread of his life story. Edgy, yet inspirational, *Prodigious Son: A Memoir of Miracles* offers hope and spiritual awakening in the middle of despair.

"This is the book all of us Mississippi writers, dead and alive, need

to read. It is indeed a strange but glorious sensation to see your literary and geographic lineage so beautifully and rigorously explored and valued as it's still being created." —Kiese Laymon, author of *Heavy: An American Memoir* The South has produced some of America's most celebrated authors, and no state more so than Mississippi. Names as diverse as Faulkner, Welty, and Ward have created a literary legacy spanning decades and stretching across lines of class, gender, and race. One thing binds together these wide-ranging perspectives—the land itself. In *A Place Like Mississippi*, W. Ralph Eubanks explores those ties and the ways in which the Magnolia State has fostered such a bounty of expression. The stories haven't always been easy to tell; even beautiful landscapes can't obscure a complicated history. The state's African American writers have long recounted the fight for equality, forming a lineage of powerful Black voices that continue to speak with urgency in our tumultuous times. Yet underlying those truths is also a deep affection for Mississippi's places. With the love of a native son, Eubanks pays tribute to the inspiration that can come from the lay of the land, proving that a journey through one state's literary terrain can help us better understand America as a whole

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in

the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

In this work Tim Ingold offers a persuasive new approach to understanding how human beings perceive their surroundings. He argues that what we are used to calling cultural variation consists, in the first place, of variations in skill. Neither innate nor acquired, skills are grown, incorporated into the human organism through practice and training in an environment. They are thus as much biological as cultural. To account for the generation of skills we have therefore to understand the dynamics of development. And this in turn calls for an ecological approach that situates practitioners in the context of an active engagement with the constituents of their surroundings. The twenty-three essays comprising this book focus in turn on the procurement of livelihood, on what it means to 'dwell', and on the nature of skill, weaving together approaches from social anthropology, ecological psychology, developmental biology and phenomenology in a way that has never been attempted before. The book is set to revolutionise the way we think about what is 'biological' and 'cultural' in humans, about evolution and history, and indeed about what it means for human beings – at once organisms and persons – to inhabit an environment. The Perception of the Environment will be essential reading not only for anthropologists but also for biologists, psychologists, archaeologists, geographers and philosophers. This edition includes a new Preface by the author.

Revered by many Texans and other Americans as "the People's Senator," Ralph Webster Yarborough (1903-1996) fought for "the little people" in a political career that places him in the ranks of the most influential leaders in Texas history. The only U. S. Senator representing a former Confederate state to vote for every significant piece of modern civil rights legislation, Yarborough became a cornerstone of Lyndon Johnson's Great Society programs in the areas of education, environmental preservation, and health care. In doing so, he played a major role in the social and economic modernization of Texas and the American South. He often defied conventional political wisdom with his stands against powerful political interests and with his vocal opposition to the Vietnam War. Yet to this day, his admirers speak of Yarborough as an inspiration for public service and a model of political independence and integrity. This biography offers the first in-depth look at the life and career of Ralph Yarborough. Patrick L. Cox draws on Yarborough's personal and professional papers, as well as on extensive interviews with the Senator and his associates, to follow Yarborough from his formative years in

East Texas through his legal and judicial career in the 1930s, decorated military service in World War II, unsuccessful campaigns for Texas governor in the 1950s, distinguished tenure in the United States Senate from 1957 to 1970, and return to legal practice through the 1980s. Although Yarborough's liberal politics set him at odds with most of the Texas power brokers of his time, including Lyndon Johnson, his accomplishments have become part of the national fabric. Medicare recipients, beneficiaries of the Cold War G. I. Bill, and even beachcombers on Padre Island National Seashore all share in the lasting legacy of Senator Ralph Yarborough.
