Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

In the year 2012 the Earth awaits a super catastrophe: its magnetic field will turn over in one go. Phenomenal earthquakes and tidal waves will completely destroy our civilisation. Europe and North America will shift thousands of kilometres northwards into polar climate. Nearly the whole earth's population will perish in the apocalyptic happenings. These dire predictions stem from Mayans and Egyptians -- descendants of the legendary Atlantis. The Atlanteans had highly evolved astronomical knowledge and were able to exactly calculate the previous world-wide flood in 9792 BC. They built tens of thousands of mandjits and escaped to South America and Egypt. In the year 2012 Venus, Orion and several other stars will take the same 'code positions' as in 9792 BC, the year of the

previous cataclysm! For thousands of years historical sources have told of a forgotten time capsule of ancient wisdom located in a mythical labyrinth of secret chambers filled with artefacts and documents from the previous flood -- this book gives one possible location.
