 A First Book Of Classical
 "A First Book of Classical Music" is a good introduction to music of 24 composers from Bach to Wagner with familiar tunes that you can play in an abbreviated form found in one- or two-page versions. I like the fact that it has fingering noted for each classical piece as well as background information or interesting stories included for each rendition.

 The oldest is Don Quixote, from 1605, which I read as a child and didn't remotely consider as old-fashioned. Madness never goes out of fashion even if chivalry has. This list of books includes three each from Robert Louis Stevenson and George Orwell, and two each from Charles Dickens and Ray Bradbury.

 The list of books that are considered classical versus classic books differs greatly. What confuses things further is that classical books are also classic. A work of classical literature refers only to ancient Greek and Roman works, while classics are great works of literature throughout the ages.
