A Sunday Times Book of the Year The closest you'll ever get to the most infamous drug kingpin in modern history, told by the person who stood by his side The story of Pablo Escobar, one of the wealthiest, powerful and violent criminals of all time

has fascinated the world. Yet the one person closest to him has never spoken out – until now. Maria Victoria Henao met Pablo when she was 13, eloped with him at 15, and despite his numerous infidelities and violence, stayed by his side for the following 16 years until his death. At the same time, she urged him to make peace with his enemies and managed to negotiate her and her children's freedom after Pablo's demise. On the 25th anniversary of Pablo's death, the most intriguing character in the Escobar narrative is ready to share her story and reveal the real man behind the legend.

In Ramón Griffero's seminal work, *The Dramaturgy of Space*, the playwright and director describes his aesthetic philosophy and theoretical approach to theatrical creation, illustrating his theory through practical application in a series of exercises. As well as touching upon some of Griffero's own work, like *Cinema utopia* (1985), *Tus deseos en fragmentos* (2003), *Fin del eclipse* (2007) and *El azar de la fiesta* (1992), this book also reinforces the practicality of Griffero's concepts through a series of online videos, breaking down each exercise and allowing readers to engage with the effects of his celebrated

approach. Published here in English for the first time, in a translation by the leading expert on Griffero, *The Dramaturgy of Space* reveals the internationally renowned Chilean artist's thought process, and how his practice has influenced the theatrical, political, and social context, from the Pinochet dictatorship to the present day.

"I have many scars. Some of them are physical, but many more are scars on my soul. A bomb sent to kill me while I was in a maximum security prison has made me blind, yet now I see the world more clearly than I have ever seen

it before. I have lived an incredible adventure. I watched as my brother, Pablo Escobar, became the most successful criminal in history, but also a hero to many of the people of Colombia. My brother was loved and he was feared. Hundreds of thousands of people marched in his funeral procession, and certainly as many people celebrated his death." These are the words of Roberto Escobar-the top accountant for the notorious and deadly Medellen Cartel, and brother of Pablo Escobar, the most famous drug lord in history. At the height of his reign, Pablo's multibillion-dollar operation smuggled tons of cocaine each week into countries all

over the world. Roberto and his ten accountants kept track of all the money. Only Pablo and Roberto knew where it was stashed-and what it bought. And the amounts of money were simply staggering. According to Roberto, it cost \$2,500 every month just to purchase the rubber bands needed to wrap the stacks of cash. The biggest problem was finding a place to store it: from secret compartments in walls and beneath swimming pools to banks and warehouses everywhere. There was so much money that Roberto would sometimes write off ten percent as "spoilage," meaning either rats had chewed up the bills or dampness had ruined

the cash. Roberto writes about the incredible violence of the cartel, but he also writes of the humanitarian side of his brother. Pablo built entire towns, gave away thousands of houses, paid people's medical expenses, and built schools and hospitals. Yet he was responsible for the horrible deaths of thousands of people. In short, this is the story of a world of riches almost beyond mortal imagination, and in his own words, Roberto Escobar tells all: building a magnificent zoo at Pablo's opulent home, the brothers' many escapes into the jungles of Colombia, devising ingenious methods to smuggle tons of cocaine into the United States, bribing officials with literally

millions of dollars-and building a personal army to protect the Escobar family against an array of enemies sworn to kill them. Few men in history have been more beloved-or despised-than Pablo Escobar. Now, for the first time, his story is told by the man who knew him best: his brother, Roberto.

Corridos tumbados .
 I've begged God for forgiveness, but I won't know till the day I die if He has truly forgiven me ... I've paid my dues to society by serving my long sentence, but perhaps I haven't earned His indulgence ... Oh my God, I've lived so many different lives! I survived Pablo Escobar Gaviria, El Patrón (The Boss), and it was the strength of his indomitable spirit that

kept me going all these years; I don't quite know how or why. I still feel his presence every day of my existence. The Medellin cartel's crimes weigh as heavily on my shoulders today as they did yesterday. My youth, wasted in crime, became the sword that now hangs over my graying head. To the world, I'll always be known by my alias, Popeye, the fearsome hitman of the Medellin cartel, Pablo Escobar Gaviria's right-hand man ... How can I make you understand I'm a new man ... that twenty-three years behind bars in that hellhole have transformed the person I once was. Now the freedom I yearned for is vanishing in the murderous hands of my enemies. Perhaps

fate has extended my life only to toy with me by preparing my own dying moments. I survived in captivity but I don't know if I'll be able to live in freedom ... A prisoner of my own mind, I'll try to fight to find some peace ... It's very cold ... now it's August 2014. I'm one step from freedom and I'm still breathing ... still here in this dimly lit cell in the maximum security prison in C6mbita, Boyac6. *Pablo Escobar St. Martin's Press*
This handbook is the definitive reference text for the study of 'dark tourism', the contemporary commodification of death within international visitor economies. Shining a light on dark tourism and visitor sites of

death or disaster allows us to better understand issues of global tourism mobilities, tourist experiences, the co-creation of touristic meaning, and 'difficult heritage' processes and practices.

Adopting multidisciplinary perspectives from authors representing every continent, the book combines 'real-world' viewpoints from both industry and the media with conceptual underpinning, and offers comprehensive and grounded perspectives of 'heritage that hurts'. The handbook adopts a progressive and thematic approach, including critical accounts of dark tourism history, dark tourism philosophy and theory, dark tourism in

society and culture, dark tourism and heritage landscapes, the 'dark tourist' experience, and the business of dark tourism. The Palgrave Handbook of Dark Tourism Studies will appeal to students and scholars with an interest in aspects of memorialisation and morality in sociology, death studies, history, geography, cultural studies, philosophy, psychology, business management, museology and heritage tourism studies, politics, religious studies, and anthropology.

Now a major motion picture! Pablo Escobar was one of the most terrifying criminal minds of the last century. In the decade before his death in

1993, he reigned as the head of a multinational cocaine industry and brought the Colombian state to its knees, killing thousands of politicians, media personalities, police, and unarmed citizens. In the 1980s, Virginia Vallejo was Colombia's most famous television celebrity: a top-rated anchorwoman and a twice-divorced socialite who had been courted by the country's four wealthiest men. In 1982, she interviewed Pablo Escobar on her news program, and soon after, they began a discreet—albeit stormy—romantic relationship. During their five-year affair, Escobar would show Vallejo the vulnerability of presidents, senators, and military leaders seeking to profit from

the drug trade. From Vallejo's privileged perspective and her ability to navigate the global corridors of wealth and high society, Escobar gained the insight to master his manipulation of Colombia's powerful elite and media. Loving Pablo, Hating Escobar chronicles the birth of Colombia's drug cartels: the kidnapers, the guerilla groups, and the paramilitary organizations. It is, above everything, a great love story—a deep and painful journey through a forbidden relationship—that gives us an intimate vision of the legendary drug baron who left his mark on Colombia, Latin America, the United States, and the world forever.

Inaugurated in 1984, America's "War on Drugs" is just the most recent skirmish in a standoff between global drug trafficking and state power. From Britain's nineteenth-century Opium Wars in China to the activities of Colombia's drug cartels and their suppression by U.S.-backed military forces today, conflicts over narcotics have justified imperial expansion, global capitalism, and state violence, even as they have also fueled the movement of goods and labor around the world. In *Drug Wars*, cultural critic Curtis Marez examines two hundred

years of writings, graphic works, films, and music that both demonize and celebrate the commerce in cocaine, marijuana, and opium, providing a bold interdisciplinary exploration of drugs in the popular imagination. Ranging from the writings of Sigmund Freud to pro-drug lord Mexican popular music, gangsta rap, and Brian De Palma's 1983 epic *Scarface*, *Drug Wars* moves from the representations and realities of the Opium Wars to the long history of drug and immigration enforcement on the U.S.-Mexican border, and to cocaine use and interdiction in South America, Middle Europe, and among American Indians.

Throughout Marez juxtaposes official drug policy and propaganda with subversive images that challenge and sometimes even taunt government and legal efforts. As Marez shows, despite the state's best efforts to use the media to obscure the hypocrisies and failures of its drug policies-be they lurid descriptions of Chinese opium dens in the English popular press or Nancy Reagan's "Just Say No" campaign-marginalized groups have consistently opposed the expansion of state power that drug traffic has historically supported. Curtis Marez is assistant professor of critical studies at the University of Southern California School of Cinema-Television.

Pioneers of European Integration contributes greatly to European sociology by offering unique quantitative data on the so far uncharted group of intra-EU movers. Theresa Kuhn, European Sociological Review Free movement has become a defining feature of European society. This important study answers the question who are these free movers? Using both quantitative and qualitative research evidence, it brings new perspectives to the sociology of European migration and integration, broadening the analysis from traditional labour migrants to various new kinds of spatial and social mobility in the continent. Russell King, University of

Sussex and Sussex Centre for Migration Research, UK The free movement of EU citizens is the most visible sociological consequence of the remarkable process of European integration that has transformed the continent since the Second World War. *Pioneers of European Integration* offers the first systematic analysis of the small but symbolically potent number of Europeans who have chosen to live and work as foreigners in another member state of the EU. Based on an original survey of 5000 people moving to and from the EU's five largest countries, the book documents the demographic profile, migration choices, cultural adaptation, social mobility, political

participation and media use of these pioneers of a transnational Europe, as well as opening a window to the new waves of intra-EU East West migrations. Students and scholars of sociology, political science, human geography, anthropology, migration studies and European studies will all warmly welcome the volume. Civil servants and policymakers will also find this book an essential tool in coming to terms with the implications of EU citizenship and the transformative effects of this unprecedented European integration from below .

La Loca de Gandoca caused a national

outcry in Costa Rica when it was published in 1992. It blew the whistle on a secret plot by government officials and private investors to develop the Gandoca-Manzanilla Wildlife Refuge, which is one of the most biologically diverse sites in the world and supposedly protected by the Costa Rican constitution. The novel is the largely autobiographical account of Anacristina Rossi's attempt to save the refuge from destruction.

En tiempos recientes, los corridos tumbados han emergido como un fenómeno musical sin parangón. Su extraordinario éxito radica en la ingeniosa fusión de tradiciones que van desde los

corridos tradicionales al rap y el trap, con íconos como Peso Pluma, Natanael Cano, Fuerza Regida, Luis R. Conriquez y Eslabón Armado, todos arraigados en las ricas y a menudo polémicas narrativas de la narcocultura. Sin embargo, más allá de su carácter musical, los corridos tumbados son un reflejo del deseo y el anhelo de una generación. Son la voz de millones de jóvenes que buscan, a través de sus melodías y letras, un escape a las aspiraciones frustradas, y que ven en estos ritmos la promesa de un estilo de vida soñado, pero a menudo inalcanzable. Estas canciones hablan un lenguaje coloquial y presentan fusiones musicales que no solo resuenan en los oídos

de aquellos familiarizados con el rap o lo regional, sino también en aquellos para quienes la violencia y el universo del narco son paisajes cotidianos. Este libro revela la potente influencia social de la narcocultura, poniendo de manifiesto cómo el narcomundo se ha convertido en un referente esencial en la construcción de la vida, la muerte y, sobre todo, la identidad. Como el reconocido corridista y musicólogo Juan Carlos Ramírez Pimienta menciona en el prólogo: «en México, el corrido es cosa de jóvenes».

Pioneers of European

Colombian drug lord Pablo Escobar's

ambition and ruthlessness made him one of the wealthiest, most powerful and most violent criminals of all time. Pablo Escobar, born on December 1, 1949, in Antioquia, Colombia, entered the cocaine trade in the early 1970s. He collaborated with other criminals to form the Medellín Cartel. He was killed in 1993. Referred to by his brother, Roberto, as a modern day Robin Hood, Escobar often paid for low-cost housing and other community necessities for the poor people of his neighbourhood. It was apparently a meticulously built image that Escobar promoted in his own newspaper and which ensured his protection by many Medellín citizens. Escobar built

his drug trafficking industry to such an extent that he eventually controlled over 80% of the cocaine sent to America. With his own factories and an entire fleet of aeroplanes and ships, including two radio-controlled submarines, it has been estimated that Escobar smuggled 70 to 80 tonnes of cocaine from Colombia to America per month, and as much as 11 tonnes in each flight. In order to launder the drug money, the Medellin Cartel controlled a large amount of crooked white-collar workers, such as bankers, lawyers and extended family. In 1989 Escobar was listed as the seventh Richest Man in the World by Forbes magazine, with a

fortune rumoured to be around \$24 billion. He certainly loved to display his wealth and lived an extravagant lifestyle. He invested much of his money in real estate, splashing out on luxurious homes, many with private helicopter ports. He owned numerous cars, helicopters and aeroplanes, a private zoo for which he imported exotic wild animals, and a massive garden filled with hundreds of fruit trees. He also owned apartments, banks and large tracts of land. For his own protection, Escobar bought the support of other criminals, who also acted as his guerrilla army, carrying out any violence he demanded. Scroll to the top of the page and click Add To

"Hello beautiful. I am Popeye." In 1998 I met Jhon Jairo Velásquez Vásquez—alias "Popeye"—lieutenant to the Medellín Cartel's leader, Pablo Escobar Gaviria. Our first encounter was at the high security yard of the Modelo Prison in Bogotá, Colombia. I visited the prison frequently as a journalist for RCN TV. I was always conducting interviews and speaking to the inmates, uncovering news about what was really happening inside the prison. At that time, stories about confrontations between guerrilla and paramilitary factions

were everyday news. You could often hear shots inside the prison as the different sides fought for control. I had always wanted to meet one of the members of the Medellín Cartel. I was curious to know who they were, what they looked like, and what these men, who belonged to the most powerful drug cartel that has ever existed in Colombia, were thinking. At the high security yard I was able to talk with two of them. The most notorious was Jhon Jairo Velásquez Vásquez. "Hello beautiful. I am Popeye." The man who sat in front of me stared at me. His pale skin reflected the six years he had been in prison; in fact, it looked as if he had never once stepped outside.

Popeye smiled at me with curiosity while his cold eyes examined me from head to toe. We were introduced by another inmate, Ángel Gaitán Mahecha, a man accused of paramilitarism and homicide. My first impression was surprise and curiosity; I also examined him from head to toe. He wasn't quite six feet tall. His slim body and the smile on his face almost put me at ease. I thought this man couldn't possibly frighten anyone, and yet I couldn't forget the number of homicides in which he had been involved. I wanted to see into the mind of the man who planned and participated in the most horrible homicides that the cartel had carried out in their war against the

state.

On the morning of February 6, 1999, Buenos Aires police officers shot and killed seventeen-year-old Víctor Manuel Vital, better known as Frente, while he was unarmed, hiding under a table, and trying to surrender. Widely known and respected throughout Buenos Aires's shantytowns for his success as a thief, commitment to a code of honor, and generosity to his community, Frente became a Robin Hood--style legend who, in death, was believed to have the power to make bullets swerve and save gang members from shrapnel. In Dance for

Me When I Die—first published in Argentina in 2004 and appearing here in English for the first time—Cristian Alarcón tells the story and legacy of Frente's life and death in the context of the everyday experiences of love and survival, murder and addiction, and crime and courage of those living in the slums. Drawing on interviews with Frente's friends, family, and ex-girlfriends, as well as with local thieves and drug dealers, and having immersed himself in Frente's neighborhood for eighteen months, Alarcón captures the world of the urban poor in all of its complexity and humanity.

When he wrote this
book, the late
Professor A. W. Stewart
had already retired
from academic life
after a long career
during which he held
various University
posts in London,

elsewhere. His
chemical research
work included, among
many other matters,

the discovery of the

spectra which opened
up a new field in
spectroscopy, and the
recognition of the class
of isobaric atoms to
which uranium-239,

addition to a series of
books on advanced

scientific thriller,
Nordenholt's Million, a
financial novel, and
numerous detective
stories. The present
volume of essays
shows yet another
aspect of his work.
From the author: "This
is an 'escape' book,
intended to divert the
reader for a short time
from the troubles
which daily engross us.
It deals with a number
of topics: a murder
mystery in real life; the

germs of the plots of some well-known novels; the curious problem of the Dumbuck crannog; the psychological illusions produced by certain drugs; various methods of getting "easy money"; the value of an honest witness's evidence; the adventurous careers of the translators of the Arabian Nights; the discovery of the black swan; the rather gruesome history of a millionaire mystic; the Loch Arkaig treasure; the strange affair of the Long Man on Ben Macdhu; my own casual encounter with that curious phenomenon which goes by the name of the Loch Ness Monster; and other subjects as well. Part of the material comes from my experiences as a

writer, a professor, a technical adviser, and a scientific researcher; but the reader may rely on the assurance that there is no likelihood of his finding himself out of his depth, even if he has no acquaintance with science. Other portions of the volume are the results of a life-long predilection for browsing off the beaten track in my reading. These parts, I hope, may act as finger-posts to direct my readers deeper into some fascinating fields which I have here treated cursorily for lack of elbow-room. My aim has been to provide a wide variety of topics, so that there may be 'something for everybody'; and I may fittingly conclude, in the words of an older writer: 'Choose that

which pleaseth thee best. Not to detain thee longer, farewell; and when thou hast considered thy purchase, may'st thou say, that the price of it was but a charity to thyself, not ill spent."

The true life of Pablo Escobar Ediciones y Distribuciones Dipon Ltda.

The classic and deeply moving memoir by Pablo Neruda, the most widely read political poet of our time and winner of the Nobel Prize The south of Chile was a frontier wilderness when Pablo Neruda was born in 1904. In these memoirs he retraces his bohemian student years in Santiago; his sojourns as Chilean consul in Burma, Ceylon, and Java, in Spain during the civil war, and in Mexico; and his service as a Chilean senator. Neruda, a Communist, was driven from his senate seat in 1948, and a warrant was issued for his arrest.

After a year in hiding, he escaped on horseback over the Andes and then to Europe; his travels took him to Russia, Eastern Europe, and China before he was finally able to return home in 1952. The final section of the memoirs was written after the coup in 1972 that overthrew Neruda's friend Salvador Allende. Many of the century's most important literary and artistic figures were Neruda's friends, and figure in his memoirs-- Garcia Lorca, Aragon, Picasso, and Rivera, among them--and also such political leaders as Gandhi, Nehru, Mao, Castro, and Che Guevara. In his uniquely expressive prose, Neruda not only explains his views on poetry and describes the circumstances that

inspired many of his poems, but he creates a revealing record of his life as a poet, a patriot, and one of the twentieth century's true men of conscience.
