Before the Storm

One morning Rafe wakes up to discover his bedroom is floating in a vast sea of water. An unforgettable illustrated novel for ages 10 and up with elements of James and the Giant Peach meets Waterworld and The Road. One morning Rafe wakes up to discover his bedroom is floating in a vast sea of water. Alone with only his dog for company, Rafe adapts to this strange new world by fishing cans of food out of the water and keeping watch. Boxes float by, as does a woman, playing her cello. Then, one day, Rafe fishes out a young

girl, who joins him in his room — they don't speak the same language, but they will face this uncertain future together.

Billion-Dollar Kiss Simon and Schuster

When Jeffrey Stepakoff was graduating with an MFA in playwriting, he imagined a life in the New York theater, wearing a beret and smoking clove cigarettes. Writing for the "boob tube" didn't even cross his mind. But he ended up in L.A. in the late 80's, when television writers were experiencing their equivalent of a gold rush. After the billion-dollar syndication of Seinfeld, when studios were paying astronomical amounts of money to writers to create the next Friends or ER, the sudden mania for scripted entertainment made the TV writer a hot commodity. He found himself meeting with big agents, inside primetime story rooms, pitch meetings, and on the set of some of TV's most popular shows, and making more money than he'd ever thought possible. Weaving his personal story with television's, Stepakoff takes us behind the scenes to show what it's like to have a story idea one week and see it come

to life and be seen by millions of people just a week later. Stepakoff also takes us inside the industry to explain what we're watching and why by exploring the growing problems of media consolidation, the effects of interference from executives, the lack of diversity, and what reality television is doing to quality scripted television. When the market crashed and the dust settled, TV executives and the media conglomerates they worked for were sitting on a broken business model. Slowly, a new programming idea began to take hold—what if the writer and their salaries were removed from the equation? Reality TV was born and the TV writer suddenly became obsolete— at least temporarily.

This "clever opener likely to leave readers breathless both with laughter and anticipation" (Kirkus Reviews, starred review) is the first in the New York Times bestselling series from the author of the Half Upon a Time trilogy. Life is boring when you live in the real world, instead of starring in your own book series. Owen knows that better than anyone, what with

the real world's homework and chores. But everything changes the day Owen sees the impossible happen—his classmate Bethany climb out of a book in the library. It turns out Bethany's half-fictional and has been searching every book she can find for her missing father, a fictional character. Bethany can't let anyone else learn her secret, so Owen makes her a deal: All she has to do is take him into a book in Owen's favorite Kiel Gnomes series, and he'll never say a word. Besides, visiting the book might help Bethany find her father... Or it might just destroy the Kiel Gnomes series, reveal Bethany's secret to the entire world, and force Owen to live out Kiel Gnomes's final (very final) adventure.

"A GRIPPING NOVEL."

—New York Times Book Review When her children's school is set ablaze, Grace runs into the burning building to rescue her teenage daughter, Jenny. In the aftermath, badly injured, Grace learns the police have identified the arsonist, but they have blamed the wrong person. Only Detective Sarah

McBride, the sister-in-law Grace has never liked, is searching for the real arsonist—a hunt that becomes urgent when it's clear Jenny is still the perpetrator's target. Page-turning suspense combines with a beautiful portrayal of deep family bonds to make this a stunning and riveting read. Now with Extra Libris material, including a reader's guide and bonus content

Winner of the Pulitzer Prize "A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue."—The New York Times Book Review *A Confederacy of Dunces* is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is "huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures" (Henry Kisor, Chicago Sun-Times).

Fool Me Twice Penguin Climate Psychology offers ways to work with the

unthinkable and emotionally unendurable current predicament of humanity. The style and writing interweave passion and reflection, animation and containment, radical hope and tragedy to reflect the dilemmas of our collective crisis. The authors model a relational approach in their styles of writing and in the book's structure. Four chapters, each with a strikingly original voice and insight, form the core of the book, held either end by two jointly written chapters. In contrast to a psychology that focuses on individual behaviour change, the authors use a transdisciplinary mix of approaches (depth psychology and psychotherapy, earth systems, deep ecology, cultural sociology, critical history, group and institutional outreach) to bring into focus the predicament of this period. While the last decade required a focus on climate denial in all its manifestations (which continues in new ways), a turning point has now been reached. Increasingly extreme weather across the world is making it impossible for simple avoidance of the climate threat. Wendy Hollway, Paul Hoggett,

Chris Robertson, and Sally Weintrobe address how climate psychology illuminates and engages the life and death challenges that face terrestrial life. This book will appeal to three core groups. First, mental health and social care professionals wanting support in containing and potentially transforming the malaise. Second, activists wanting to participate in new stories and practices that nurture their engagement with the present social and cultural crisis. Third, those concerned about the climate emergency, wanting to understand the deeper context for this dangerous blindness.

The Way We Weren't

Weston When I left home, I swore I'd never hide anything about myself again. From college, to law school, to the United States Senate representing California, I've done it all as an out gay man. So, when I'm in DC and see a beautiful guy at the hotel bar, I don't hesitate to proposition him...right before he runs out on me, leaving his sunglasses behind like my very own Cinderella. Anson I've always known I'm gay, but never acted on it.

Pretending isn't easy, but it means I can keep playing football. No one has ever guessed my secret until the gorgeous man at a bar in DC. At least he doesn't know who I am-the best tight end in the NFL, playing for the Atlanta Lightning. Though my identity doesn't stay a secret from him for long. Between texts and late-night phone calls, we get to know each other. West's the only person who knows all the parts of me, just like I know his. When he asks for one night together so he can show me what it's like to be with a man, I can't say no. But once isn't enough, and we keep sneaking around together-brief encounters, in California, Georgia, or DC, filled with passionate touches and whispered truths. I never thought I'd have love. West never thought he'd want it. Now we're all in with each other, but he still has time left in his Senate term. I have contract obligations to fulfill, and I'm closeted. We don't even live in the same state. The odds are stacked against us, but if there's one thing I know, it's how to win. He's the endgame in the biggest challenge of my life, the one I'm banking my future happiness on.

He's bossy, moody, and overprotective. He's also a pro athlete who needs to focus on winning games and staying out of the headlines. I'm fiercely independent and need a man like I need a second period each month. So when our worlds collide, I never expected him to be the one to jump in and save me. Especially not when my roommate disappears, leaving me with her baby. I'm clueless about babies-and it shows. Good thing Alexei isn't. With six nieces and nephews and an apparent hero complex, the dude is both sexy and more than capable. It's a combination that makes it easy to forget we're just playing house.

A Note From The Author: Treat Braden and Max

Armstrong's love story is the beginning of my beloved Braden series and introduces you to some of my favorite characters, and to a family that has become so real to me, they're always by my side. If you are already a fan of the Love in Bloom big-family romance collection, you may have read Treat and Max's original story, *Lovers at Heart*. For the past several years, I have had the nagging feeling that there was more to Treat and Max's story than I had originally thought. One of the greatest things about being a writer is the ability to reimagine worlds and create new stories. I wanted to give Treat and Max a more mature story without losing the essence of who they are. This is Treat and Max's story, reimagined, and I hope you love it as much as I do. In *LOVERS AT HEART, REIMAGINED*...Treat Braden wasn't looking for love when Max Armstrong walked into his Nassau resort, but he saw right through the efficient and capable facade she wore like a shield to the sweet, sensual woman beneath. One magnificent evening together sparked an intense connection, and

for the first time in his life Treat wanted more than a casual affair. But something caused Max to turn away, and now, after weeks of unanswered phone calls and longing for the one woman he cannot have, Treat is going back to his family's ranch to try to finally move on. A chance encounter brings Treat and Max together again, and it turns into a night of intense passion and honesty. When Max reveals her secret, painful past, Treat vows to do everything within his power to win Max's heart forever--including helping her finally face her demons head-on.
