Mr. J.W. Swanberg's New Haven Power 1938 - 1968 (1988) shows a three quarter angle of DERS-5's (RS-11) on page 452 and two other angles on page 453. RS-11 steam generator stack - NHRHTA New Haven RR Forum New Haven Diesel Locomotives Volume 1: Switchers & Road Switchers; Robert A. Liljestrand & David R. Sweetland. Layout at a Glance From 1948-1952, operating sessions on the layout will provide an interesting study of the evolution of road switchers on the New Haven Railroad. DERS Classes - New Britain Station Initially, diesel locomotives were

less powerful than the typical steam locomotives. Between the late 1930s and the late 1950s the power available with diesel locomotive engines roughly doubled, although the most powerful steam locomotives ever built still exceeded the power of the most powerful diesel locomotives from the late Twentieth Century. Dieselisation - Wikipedia

The DER-2a/b locomotives were purchased to dieselize the Maybrook line in 1947. They were advertised by the New Haven as a "three-unit-diesel locomotive," that is, they marketed an A-B-A set as a single locomotive.
